Statement.

I, Igor Gonzenho, wish to make the following statement:

Having arrived in Canada two years ago I was surprised during the first individual which exists in Canada but does not exist in Russia The false representations about the democratic countries which are increasingly propagated in Kussia, were dissipated daily, as no lying propaganda can stand up against facts.

During two years of life in Canada

I saw the evidence of what a free people can do. What the Canadian seasel have accomplished and is accomplishing here under conditions of complete freedom - the Russian people, under the conditions of the Soviet regime of violence and suppression Nall freedom, cannot accomplish even at the cost of transmissions sacrifices, bood and tears. The last elections which look place recently in Canada especially surprises sul. In comparison with them system of destions in Russia appear as a mooken of the conception of free allotions. For example, the fact that in elections in the Soviet Union one candidate is put forward, so that the

possibilities of choice are diminated,

speaks for itself.
While ereating a false picture of the conditions of life in these countries the Soviet Government at the same time is taking all measures to prevent the peoples of democratic countries from knowing about the conditions of life in Russia. The facts about the brutal suppression of the facts about the brutal suppression of the people cannot penetrate into the stansoratic countries.

Having imposed its communicate regime on the people, the fovernment of the Povernment of the Povernment of the Povernment of the Povernment of the Prople have as it were, its own particular understanding of freedom and democracy, different from that which prevails among the peoples of the western democracies. This is a be. The Russian people have the same understanding of freedom as all the peoples of the world. However, the Russian people cannot realize their aream of freedom and a democratic government on account of cruel terror and persecution.

Holding forth at international conferences with volable statements about peace and security the Soviet Government is simultaeously preparing secretly for the third world war. To meet this war the Soviet Government is creating in democratic countries, including Canada. a fifth column, in the organization of which even diplomatic representatives of the

Soviet Sovemment take part? The auromacment of the dissolution of the Comintern was probably the greatest force of the Soviet Government in recent years. Only the name was liquidated, with the object of reassuring public opinion in the device atic countries. Returally the ounten exists and continues its work because the Soviet Government has never relinquished the idea of astablishing a communist dictatorship throughout the world. Taking into account least of all that tus adventurous idea will cost millions of Russian lives, the Communists are engendering Latred in the Russian people towards werytting soreign. To many Soviet people here abroan it is clear that the formunist Party in democratie combres has changed long ago from a political party into an againey net of the Soviet sovernment, into a fifth column in these countries to meet a war, into an instrument in the hands of the Soviet sovernment for creating artificial un rest, provocation de els. Through numerous parts agilators the Soviet Government stirs up the Russian people in every possible way Lountries, preparing the ground for the third world war. Convinced that such double-faced politics of the Soviet Government towards

4

the democratic countries do not conform with the interests of the Dissian people and andanger the security of civilization I decided to break away from the Soviet regime and to announce my decision upenly.

I am place that I found the strength within myself to take this step and to warn Canada and the other democratic countries of the danger which homes over than.

account of Steps taken by COXBY in Ottawa on September 5-14, 6-14. and 7-14. 1945.

Offer turning over in my mind a hundred times the greation of where I should go with my statement. I came to the conclusion that their must be made to a newspaper, in order that the whole matter become known to the Canadian people and that public opinion in Canada should demand action from the Canadian Government.

I knew that the system of unlitary intelligence had not its oron agent on the staff of the R.C.M. Police in Ottoma, but I did not know whether or not the system of the NKVD had its own agent there. Therefor I considered that it was dangerous for the whole undertaking to him to the R.C.M. Police at first as, under the worst circumstances, if there were a Soviet agent there and all this entyest were timed over to him, he would be able to direct it into a channel favourable to the Soviet intelligence and to the benefit of the agent himself.

Jaking all that circumstances into account, when I came out of the Soviet tembrassy building at 8.33 p.m on September 5-th., I boarded a street car and arriver at the building of the newspaper "Ottawa fournal". On asking the lady on duty on the first floor where the chief editor of the paper was located I received the septy that he was on the sixth floor.

I was undecided about submitting my

I atament and went down in the devator and walked home. There I told my wife that I have definitely decided to make a statement. After drinking a cup of tea I returned to the building of the "ottawn found", this time with the firm intention of making my statement. However, the chief editor was not there then and only junior employees were then. I turned to an elderly man rather thin small, bald) who was pointed out to me as the serior among those present at that time. I told him the gist of the watter, indicating the importance of my statement. After hearing me he said that he had no suttority to wint my statement and that it would be best to go to the Justice Building to the Royal Canadian Mounted Police or to wait with morning when the chief editor would come. He showed we the address of the Justice Building and how to go there. I decident to go to the fustice Building. There I asked the wan on duty on the first floor he was in the uniform of the R.C. 17. Police) where I could see the Minister of Justice. He told me that only the secretary of the Minister of Justice knows where the Minister may he found. But in view of the Lateress, and as the secretary was not mesent, it would be botter to come tomorrow morning. Thus I left the Justice Building that waring without suing the Minister. to the Justice Building with my wife and

chill. In earning from the wan on duty where the office of the Ulinister of Justice was ocated we went there. Only a secretary of the department of justice a trende anadian) was here. He was that the Minister of Justice sons probably in the Parliament Buildings. The Conducted us to the office of the Muister of Justice in the Parliament Buildings where he sutroduced us to the penoual secretary of the Minister of Turtice la French. Panadian, dark hair, small) to whom I . outlined briefly the gist of the matter, pointing out that I wished to make a statement to the Minister of Sustice penoually. He asked me if I know the Grench language. On leaving that I did not know the French language, he began to talk to someone on the telephone in French. Then he told me that the Minister of Justice would be in the Justice Building. Placing us in an automobile he drove us to the Justice Building and optice of the secretary of the apartment of Pristick and, after telling us to wait, went out somewhere. We waited about two hours. Eventually the secretary of the department of justice returned and said that the Ulimbler of Justice could not occlure us. I desided to go again to the editional office of the newspaper the "Ottawa found!" It that time the chief editor was not there. We wor met by a lady opporter

whom I informed that I wished to break away from the Soviet agains and pointed out my reasons. She litmed for advice to one of the supleyers who, evidently, was the senior that.

He advised we to apply to the bureau of naturalization of the R. E. M. Police. In amoing at the bureau of naturalization I again repeated the gist of the matter to the lead of this bureau. The head of the bureau axvised we to go to a Magistralis office on Michael Street. I asked him to give me protection. He did not give me any. Ouring our convenation a young man, apparently one of the employees in this bureau, was present.

as it was already und hay and our child had not been fed yet and was very trick and allegy we went home. We did not go into our appartment, as we considered it dangerous to do so, but to the appartment of an acquaintance, Who. BOURKE, who lives in the neighbouring house on Lion Street.

We did not tell her anything except that we said we had decided to go to the city logether to shop and asker that our child might sleep with her and if she would look after him during that time. Arriving by street ear on blished Street we entered the Magistrate's building. The man to whom we had been sent was not there. His office was looked, as it was the limb hour. It little later his secretary came. She is a French-Canadian lady with dark hair

who at that time was wearing a red aress. The listened to us and than said she would consult with someone. During our conversation there was present a going man, apparently a relative or acquaintance of the secretary.

arrangement with acquainted exitors, correspondents of naispapers litizan, Ottawa fournal and a Grench newspaper; and with a catholic priest. Not one of them decided to print my statement. However, one correspondent from the thawa fournal) came himself and listened to me. He asked me to slow him the documents. I showed him the dossier of SAM CARR. He advised me to go to Inspector Leopola and gave me his adards.

The secretary asked me if I had good acquaintances in Canada with whom I could hide while she obtained for me a "landing card." I replied that such acquaintances could hardly be forma. She explained to me the whole procedure it maturalization, supplied me with an application and told me to complete it and to submit two photographs.

When we left the building of the Magistrate it was already about 5 o'clock p. in. I September 6-th. We harried home to get the child as quickly as possible. When we came to our neighbour we forma that the child had awakened. The

neighbour served us tea. After a little while my wife entered our appartment through the back door on the balcony. In her octum she told we that she had found nothing raspicious there and that I could go in with the clied. I want over with the dill to our appartment in like manner by the soor on the valcour I with appartment I lay down on the sea cottenely tired. After lying for about 15 minutes I got up and lowher out of the window. In a beach in the park I saw two people who once in a while glancer at the windows of my appartment.

Some time later about 6 to 6.30)

some one busches on the door of my appartment. I did not answer. The busching continued for about 10 to 15 minutes. As the duld van across our siving room, who ever was knocking was convinced that we were at home. In the ena he called me by name - just once. I did not reply. From the voice I recognized LAVRENTIEN, a young man who unliver recently to work in Canada in the apparatus of the William Utache as the second chauffew. Light-coloured hair, medium height, simple bind of face. In those days he wore a light grey smit.) On receiving no reply he went away.

My wife and I desided that it was dangerous to leave the child in our appartment. She suggested leaving the with our neighbour in the same house. Leaving our appartment by the back door on the balcomy I climed over to the balcomy of our neighbour, who was at that time on the balcomy with his wife and child. My neighbour was a

military man; I did not know him well previously. I told him briefly what was the matter and asked him if we could leave the child with him for the night. He agreed with readiness.

appartment and my neighbour eame out on his balcony. It that moment a tale man in a dark suit approached my balcony from lion Street. He look-in the balcony with a grace and, on seeing there was another door there, went away.

"I chall go and call the police." He mounted his bioyole and went for the police.

The other neighbour, a lady in the appartment opposite raine in the same house, invited us to spend the night in her appartment. Together with the child we went into her app allment. By that time the police arriver. After listening to what was involved he said that a police car would be on duty in the park all night. If anything should happen we must give a signal — snap the light out in the bathroom.

We want to bea. At approximately 12 o'clock the woise of an arriving car was heard. We jumped up; however the child continued to sleep peacefully. The lady of the house snapped off the light in the bath room, thus giving the police the signal. Forether with the lady of the house I looked out of the window and saw that the police car had not arrived.

We snapped the light on and off again. is it was explained later, the policemen

had gone for sunch.)
My wife, who was woking through the key-hole saw how PAVLOV, ROGOV, ANGELOV and FARAFONTON broke the lock of our appartment looking about them fewfully the while.

after breaking the lock they sutered my appointment, switched on the light and a little later put it out. The police ear amived just at that moment. The police opened the door of my appartment, switched on the light and saw how PAVLOV, ROGOV, ANGELOV and FARAFONTOV crawled out from behind the furniture where they wad been hiding.

The policeman asked than for their names and after looking at their documents remained in doubt. We heard how be repeated several times? I don't know what to do with you," to which PAVLOV raplied: "Let us go and that is all." Finally the policeman allowed than to go. The policeman remained on duty with us after their departure.

An intersting detail: All the time while PAVLOV and company were breaking the look and his in the apportment, an individual, whom I had nover soon before, was on duly in the car which individual for his documents. When I later interested, myself as to why the police had not asked for his documents, the

soliceman replied that this man was n Panadian as he spoke roughed well. It might be worth while to find out who this man'is.) on after this on suspector of the lity solice arriver. He listened to me and on learning that I wished to make a statement. to the R. C.M. Police, said that he would drive me himself to the building of the R. C.M. Police at 116 clock next worning. at 4 o'clock in the morning again somsone knocked at the door of day appartment: The policeman came out see what was the watter. This time it was GORSHKOV the chanffeur of the Military Utache. He policeman looker at his certificate and allowed lim to go. In the morning of September 7th. the Inspector of the all police escorted by two policemen drove me to the R.C.M. Police where I finally was able to make my statement. The statement was made by myself to Inspector deopold, Inspector Williams and Superintendant Rivett-Carnac.

A request has been made by the Embassy of the U.S.S.R. in Canada for this Force to ascertain the present whereabouts of Igor Sergelevitch Gouzenko and his wife, Svetlana Gouzenko, who disappeared from Ottawa, Ontario, on the 7th instant, together with their son, Andrei, who is twenty-one months of age.

Prior to the disappearance of Mr. Gouzenko and his family he was employed in a clerical capacity in the Soviet Embassy, and the authorities concerned are most anxious to ascertain the present whereabouts of the persons referred to. According to the particulars at our disposal from the Embassy, Mr. Gouzenko took with him a quantity of stolen money, although the details in this connection are not at present available. A description of the missing individuals follows: individuals follows:

IGOR GOUZENKO - born January 13, 1919. Arrived in Canada July 20, 1943; height 5' 6"; weight 145-150 pounds; colour of hair - brown; colour of eyes - grey; straight noso; sometimes wears spectacles.

CVETLANA GOUZENKO - born December 12, 1919. Arrived in Canada July 20, 1943; height 5, 7, weight 140 pounds; colour of hair light brown; colour of eyes - blue; slender figure: straight nose.

In the event of information becoming available to you regarding the whereabouts of Mr. and Mrs. Gouzenko and their son, Andrei, would you please communicate with this office by telegram so that the necessary action may be taken. As it is assumed that Mr. and Mrs. Gouzenko will only be found in the larger centres of population and in view of the fact that the disappearance of a member of a foreign Governmental staff is involved, this matter should

CONFIDENTIAL

Dear Mr. Hoover:

We have been advised by the Soviet Embassy in Ottawa that Mr. and Mrs. Igor Sergelevitch Gouzenko disappeared from this city on the 7th instant and have not been heard of since that time. Apparently prior to his departure and according to the information at present at our disposal, Mr. Gouzenko took with him an unspecified amount of stolen currency from the Embassy.

- 2. As it appears possible that Mr. and Mrs. Gouzenko may have proceeded to the United States, a description of these persons is attached, and should they come to your notice at any time we would very much appreciate being advised by telegram, if possible.
- Mr. and Mrs. Gouzenko are accompanied by their son, Andrei, who is twenty-one months of age. no

A CHAROPMATION SUR L'ACCES With further reference to the subject of Mr. Gouzenko's recent disappearance from his apartment at 511 Somerset Street West, we have now received a letter from Mrs. A. Hinchey per the Sun Realty Limited, 3052 Bank Street, a copy of which is attached. Apparently what Mrs. Hinchey is objecting to is the fact that the seals have been placed on the door and she is thereby deprived of her opportunity to obtain financial advantage by leasing the premises.

As the action taken in this connection was at the request of the Department of External Affairs, it would be appreciated if such steps as may be considered desirable be taken immediately to advise Mrs. Hinchey regarding her position in the matter. It will be noted that Mrs. Hinchey states that she will take the necessary action to remove the seals on Monday, September 17th, 1945, unless her wishes are met.

ARE DESIGNATED THE DESIGNATION ACT THE With reference to your letter of the 10th instant and for purposes of your records, the premises of Mr. Gouzenko at 511 Somerset Street West, Apartment 4, have now been placed under seal as requested, appropriate seals having been placed on the entrances by Mr. Pavlov, Second Secretary of the U.S.S.R. Embassy, and by a member of this Force.

In accordance with your expressed wishes the premises are being kept under appropriate supervision for the present, but I would very much appreciate your informing us in due course as to when this supervision may be removed in view of the fact that due to pressure of duties we are short staffed at the present time. We will, of course, take every action in this matter to watch for the return of Mr. Gouzenko, although since he has not as yet not in a respectance it would seem has not, as yet, put in a reappearance it would seem unlikely that he will re-visit his residence and has SOFTHE PRIVACY AND LATER THE COLOR TO THE CO presumably proceeded elsewhere.

Dear Sir-

Re: Mr. Gouzenko, #4, 511 Somerset Street, Ottawa.

The above mentioned apartment has been sealed by your department, for about a week. Numerous calls have been made, requesting an explanations and have been referred from one to the other, who make unfulfiled promises.

The premises was occupied by a Russian, who has been a slow pay in the past and owes this month's rent. His lease expires September 30, 1945, therefore we want to show the apartment, to prospective tenants, with a view of renting same and as you know, there is very little time left to do so.

We were under the impression the R.C.M. P. protected the rights of Canadians and their property, however it would appear they are assisting a foreigner to defraud Canadians, in this case.

If these seals are not removed on or before Monday September 17, 1945, we shall hold your department responsible for any losses incurred and take the necessary steps to same

In conclussion, I would like to state, we have spoken to the consul, who chooses to ignore the whole situation.

HEADQUARTERS

In accordance with instructions received, on the 19th instant I patrolled to 511 Somerset St., West, Ottawa, arriving there at 5.00 p.m. Arrangements had been made for me to meet a member of the Soviet Embassy and an official of the Dept. of Secretary of State for External Affairs at 5.15 p.m. for the purpose of sealing the outside doors of Apartment No. 4 at that address.

SUB-DIVISION

The mentioned address is a small two-storey sixapartment block of the cheaper type. When I arrived there was no one in the hallway nor on the landing of the second floor where Apt. No. 4 is located. I waited on the opposite side of the street in the police car, keeping the entrance under observation for the arrival of the other members of the party.

DETACHMENT

At 5.30 p.m. three men emerged, two of them entered a car which was parked a short distance West of the address in question and the other walked away in the opposite direction. On speaking to the latter mentioned I learned that this was the party I had to meet. Mr. Pavlov of the Soviet Embassy informed me that they had arrived shortly before 5.00 p.m. and on finding that the back door of the partment was inaccessible from the outside they had entered by the front door which was unlocked and had sealed the back door from the inside; thereafter sealing the front door from the outside.

4. I arranged with Mr. Pavloy that I would place the R.C.M.P. seal on the front door and see what I could do about sealing the outside of the rear door; also that I. would get in touch with the janitor, advise him that the apartment had been sealed and that no one was to be permitted to enter without authority of the R.C.M.P.

panied by Mr. G. Sicotte, the departmental representative, I placed our seal on the front door. On examination I found that the back door could be reached by way of a wooden stair which, however, was badly cluttered up with pieces of wood and junk of various kinds. This obstruction presented practically no difficulty and I placed our seal on the outside of the screen door at the back entrance, it being hooked from the inside.

Commissioner S.T. Wood, Royal Canadian Mounted Police, OTTAWA.

FIRST OF LALON I wish to confirm Mr. Laurent Beaudry's telephone conversation today with your Deputy Commissioner and Superintendent Carnac, requesting the good offices of the Royal Canadian Mounted Police in order that the apartment of Mr. Gusenko, 511 Somerset Street West, Apartment 4, might be sealed both by a representative of the U.S.S.R. Embassy, Mr. Vitali G. Pavlov, Second Secretary, and by a representative of the Royal Canadian Mounted Police. In this connection, I enclose, for your file, a copy of my memorandum of the 9th September concerning my convergetion with of the 9th September concerning my conversation with Mr. Pavlov. I understand, therefore, from Mr. Beaudry that the apartment will be placed under the U.S.S.R. Embassy seal and under the seal of the Royal Canadian Mounted Police. As stated by Mr. Beaudry Mr. Gilles Sicotte will represent the Department.

I also understand that the premises will be placed under appropriate supervision for a couple of days, after which you might be so good as to get in touch with us in order to determine whether such supervision

should be continued.

2. It might be mentioned that on the morning of the 7th instant, Mr. Gusenko called at our headquarters where, I am informed, he was interviewed by an officer of this Force. Mr. Gusenko was in a very excited condition and by reason of this fact was incoherent and exceedingly difficult to understand. He appeared to be on the verge of a nervous breakdown and all that could be understood of his remarks was that he was in danger of his life and desired police protection. This Force is not, of course, selzed with the responsibility of the enforcement of the criminal law in the City of Ottawa, and in view of the fact that Mr. Gusenko appeared

to be connected in some manner with the Soviet Embassy, he was asked to sit down pending collection of his thoughts. On being interviewed again later, his condition had not improved and the officer who interviewed Mr. Gusenko formed the impression that his mind might be affected to a minor degree but not to any extent which might justify detaining him.

- 3. It was thought in the best interests that if of Mr. Gusenko's wife was to be brought to exercise her influence over him, Mr. Gusenko's condition of mind might be improved and that he would then leave the office of his on This action was own accord and return to his spartment. accordingly taken and after some discussion between Mr. and Mrs. Gusenko, in a foreign language, Mr. Gusenko made his departure. As the circumstances of the matter were somewhat unusual and as Mr. Gusenko appeared to be connected in some way with a department of a friendly power, as a courtesy gesture it was suggested to him that he and Mrs. Gusenko might wish to accept transportation to their residence in Ottawa. Mr. Gusenko expressed himself as being glad to accept this offer and left by car in the direction of 511 Somerset Street West. However, I am advised that after travelling a part of the distance and subsequent to a considerable amount of excited conversation between Mr. Gusenko and his wife, Mr. Gusenko asked to be put out of the car at an intermediate point between Royal Canadian Mounted Police headquarters and his residence, and was last seen walking in company with Mrs. Gusenko, at a hurried pace, in a southerly direction. Since that time and subsequent to receipt of the communication from the Under Secretary of State for External Affairs and attachment sent therewith, Mr. Gusenko's residence has been wisited but was not occupied at the time and it appeared that neither Mr. or Mrs. Gusenko had returned ALINFOR

Translation of Note No.35 of Sept.7th from the Embassy of the U.S.S.?.

The Embassy of the U.S.S.R.in Canada presents its complements and has the honour to inform the Department of External Affairs of the following:

A colleague of the Embassy, Igor Sergeievitch Gusenko, living at 5II Somerset St., failed to report for work at the proper time on the 6th. September.

In connection with this and for the purpose of clarifying the reasons for the failure of I.Gusenko's reporting for work, Consul V.G. Pavloff and two other colleagues of the Embassy visited the apartment of I.Gusenko at II.30 on the 6th.Sept.

When Mr. Pavloff knocked at the door of Gusenso's apartment no-one answered. After this the apartment was opened by the abovementioned colleagues of the Embassy with Gusenko's duplicate key, when it was discovered that neither Gusenko, nor his wife Svetliana Borisovna Gusenko, nor their son Andrei, were in the apartment.

It was later established that I.Gusenko robbed some money belonging to the Embassy and had hidden himself together with his family.

At the time when Consul Pavloff and the two other colleagues of the Embassy were in Gusenko's apartment, i.e. about II.30 p.m. Constable Walsh of the Ottawa City Police appeared together with another policeman and tried with a rude manner to detain the liplomatic colleagues of the Embassy, in spite of explanations given by Consul Pavloff and the showing of diplomatic cards.

As a result of the protest expressed by Mr.Pavloff, Walsh called Inspector of the City Police Macdonald, who appears. at the Gusenko apartment in fifteen minutes, and also in a rude manner demanded that Consul V.G. Pavloff and the other diplomatic colleagues of the Embass so with him to the Police Station, refusing to recognize the diplomatic card shown AENSEIG. Truce INFORMAT, LOI by Consul Pavloff.

Upon the refusal of Mr.V.G.Payloff to go to the Police Station, Mr.Macdonald went away, leaving a police-man in the Gusenko apartment with the colleagues of the Embassy, for the alleged purpose of finding out who it was who had notified the police of the "forced entry" (lit. "breaking the door") into the Gusenko \partment.

Consul V.G. Pavloff and the other two colleagues of the Embassy, after waiting for Mr. Macdonald to return for 15 minutes. left, having locked the Gusenko apartment.

The Embassy of the U.S.S.R. asks the Dept.of External Affairs to take urgent measures to seek and arrest I. Gusenko and to hand him over for deportation, as a capital criminal, who has stolen money belonging to the Embassy.

In addition the Embassy brings to the attention of the Department of External Affairs the rude treatment accorded to the diplomatic colleagues of the Embassy by Constable Walsh and Inspector of the City Police Macdonald, and expresses its confidence that the Department will investigate this incident and will make that the Department will involve their actions.

The Embassy asks the Department that it should be informed of action taken in relation to the above.

interview 2

Handwritten notes of interview with Corby:

- C Kulakoff told Corby he handled telegrams in Moscow which dealt with theft of documents from Military Attaché office in London
- D Rogoff advised he made a trip to New York & Washington where he met Gregorieff who arrived in USA from Russia via London
- F (1) only one Elli Possible he or she is identical with the agent with a Russian background who Kulakoff spoke There could be 2 agents concerned in this matter
- (2) Corby handled telegrams submitted by Elli
- 1) One telegram dealt with Elli reluctance to make contact with Dubok (O? D? L.B)
- 2) Elli could not give the name of agent in Moscow because of security reasons.
 - 3) Documents were sent by mail
- (a) Elli already working as an agent when Corby took up his duties in Moscow in May 1942 & was still working when Kulakoff arrived in Canada in May 1945.

H or 4 - Liubimoff knew

Kulakoff said agent with a Russian connection held a high position.

- Corby from decoding messages said Elli had access to exclusive info

1) it was customary to give agents the same cover name if working in different divisions - Canada - USA & Mexico were one division.

2) Cover names were given by local people. Elli was given by Ottawa to Wilsher. Debouz to Fred Rose by Zabotin. Sam Carr was cover name of Frank prior to Carr's transfer to Military Intelligence. At the time of the transfer Ottawa became lax and used Sam as Frank. Moscow said Frank must be used.

3) There could be an Elli in

Canada

Dear Colonel Kilpatricks

I am attaching a copy of a letter from the Ministry of Information to the United Kingdom Information Office, Ottawa, suggesting Colonel A.C. White, V.C., as a possible speaker, in whom the Armed Services in Canada would be interested. His trip would follow the PROJESSED BY ACCESS TO THE PRIVACY DEP THE NEORMATION ACT OR same general pattern as was suggested for Colonel Williams and Colonel Fisher. I should be glad to have your reactions to the proposal.

Yours sincerely,

Captain, R.C.A., Information to the Armed Forces Section.

No. 307

Moscow, August 3rd, 1945.

Sir:

I have the honour to report that in a recent conversation with Mr. Arnold Smith, Mr. George Kennon, Charge d'Affaires of the United States Embassy, said that he had definite information showing that the organizational apparatus of the Communist International was not liquidated after the announced dissolution of the Commintern in 1943, but merely somewhat decentralized geographically.

- 2. Mr. Kennon said that a large headquarters had been created in Paris to control the Communist Parties of Western Europe. Latin American parties are controlled from two centres, in Mexico and in Cuba. Eastern European parties are of course controlled directly from Moscow. The organizational positions of the Communist Parties in the Middle East and Far East are apparently still in a state of flux.
- 3. The advantages to the Soviet Government of this decentralization are appreciable. With the incomparably greater freedom of movement (and therefore quantity of movement) in countries outside Soviet control, it is probably easier rather than more difficult to avoid detailed detection of messengers etcetera to these new headquarters. And in the fact that the various strings from most Western obviously a useful camouflage for the naive.

Tou will have noticed, from various events during the past twelve months, that the theory of any real abolition of the Commintern since 1943, is no longor tenable. The conserting of press and political campaigns, on an international scale, is frequently far too rapid and detailed to be due to mere psychological traditions of Communist Party members.

The Right Honourable,
The Secretary of State for External Affairs,
OTTAWA, Canada.

5. A typical recent instance concerns Greece, and incidentally suggests that Mr. Sophianopoulos, until recently Greek Foreign Minister. may have become a fellow-traveller. At Potsdam the Soviet Government were requested, by the United States Government, to join with them and the United Kingdom Government in supervising the projected Greek elections. Mr. Molotov refused, on the grounds that supervision of elections would be an insult to the dignity and sovereignty of the Greek Government: he suggested as an vision of elections would be an insult to the dignity and sovereignty of the Greek Government: he suggested as an alternative course that a coalition of the various Greek political parties form a government prior to the elections. I understand from a member of the United Kingdom Embassy in Moscow that this same proposal for a coalition government was made in Athens, more or less simultaneously, by Mr. Sophianopoulos—and formed one basis of his resignation Mr. Sophianopoulos—and formed one basis of his resignation this week from the non-party Greek Government. Immediately thereafter the EAM press started a campaign for a coalition political government. Incidentally you will rember that at San Francisco Mr. Sophianopoulos voted agains the admission of the Argentine, I understand without instructions from his Government on this point. Mr. Sophianopoulos, when pressed in Athens for the source of his suggestion regarding a political coalition, finally said that Mr. Manuilsky, the Politburo member and old Commintern leader who headed the Ukrainian delegation at San Francisco, had suggested it to him.

it to him.

6. Another instructive recent case is provided by the affiliation of the Norwegian Communist Party with the Socialists. I understand that the Communists, who applied for affiliation, refused absolutely to accept the terms offered by the Socialists. A half-hour before the dead-line, to the astonishment of the socialist negotiators, the Communist leaders reversed their stand completely, and accepted. The Socialist negotiators got the strong impression. I understand, that changed orders came in at the last moment to the Norwegian Communist leaders.

7. Incidentially I notice from a report in yesterday's "Pravda" that the United States Communist Party, after strong

7. Sincidentially I notice from a report in yesterday's "Pravda" that the United States Communist Party, after strong

public reproofs some months ago from Paris, is now rencuncing "Browderism" and getting back on to the traditional party line.

8. Despite the recent re-tightening of Communist Party controls, the Soviet leaders have now learned that coordination need not imply logical consistency of the warious commolled instruments even at a given moment of time. It is often more profitable to use planned divergencies for different instruments. Thus the Italian Communist Party, for a short period this spring, seemed publicly to advocate the cession of Trieste to Yugoslavia. It's public line was quickly modified in the direction of greater concessions to Italian nationalist feeling. The attitudes of the Czech and Polish Communist Parties to the Teschen dispute is another case in point.

9. Probably the most important planned divergence of Communist Party lines in different countries is that predicted in the concluding paragraph of my Top Secret despatch No. 194 of April 19th, 1945, speculating on the apparent marked change early this year in the basic objectives of Soviet policy. It was suggested that the Soviet Union would now seek to encourage differences between the United States and the United Kingdom. I have the strong impression now that the United States Communist Party is doing its utmost-not without some success-to encourage in North America the old suspicions of "reactionary scheming imperialist Britain" while in the United Kingdom the Communists lose no opportunity discreetly to encourage suspicions of "ultra-capitalist America", and to advocate a European as opposed to a trans-Atlantic or Anglo-Saxon orientation. Incidentally I have been told that the London "Daily Worker" has throughout the past year made a point of publishing, in its very limited columns, reports of rape and assault cases by members of the United States forces—though this may be an exageration. For the less crude forms of Communist propaganda there is usually an important basis in social and economic conditions and history, of which the parties can take advantage.

TOP SECRET

10. While the Soviet leaders seem to have very serious ambitions for their Communist Parties in France and in Germany, the primary role intended for the Communists in the leading western democracies is presumably as promagandists—to perform as it were a holding operation to give Soviet agents in Eastern Europe, Korea, and North China time to consolidate more serious achievements. A north unimportant subsidiary role of western parties is presumably espionage—though this must involve more highly trained personnel that the mass of party-members. Er. Smith was recently told by Er. John Davies of the United States Embassy that the American Communist Party appears to be making a determined effort to organize technical espionage in the United States Navy. Success in this would be very useful in assisting the gradual realization of Soviet naval ambitions.

ll. For any serious study of Soviet foreign policy and objectives it is obviously desirable to have adequate information on the organizations and policies of Communist Parties in all important countries in the world. It used to be customary in most countries to regard Communist Parties as dangerous because "seditious" or revolutionary. More recently it has become common to regard them as "respectable," because of the magnificent war effort of the Soviet Union and because Marxist analyses of political and economic situations are frequently perspicacious. It seems clear however that Communist Parties are most usefully regarded primarily as instruments of the foreign policy of the Soviet Union. Doubtless therefore you will be arranging to obtain as convenient, general reports on size, estimated occupational distribution of membership, etcetera, of local Communist Party organizations in the various countries to which Canada has accredited Missions, and also from time to time analyses of developments or changes in Communist Party policies. It would be greatly appreciated if you could arrange to send us copies of such reports on these subjects as may be received in the Department.

12. I am sending a copy of this desputch to the High Cormissioner for Canada in London.

I have the honour to be,

Sir.

Dear Rays

It's a long time since I received your letter in reply to mine concerning the possibilities of a job here at the Wartime Information Board. I have to apologize for not replying sooms but the shole question of staff in the meantime has been very unsettled. Just the other day we got to first base in obtaining the go-ahead to have new officers seconded to us and I now have a clearer idea of the type of job we might be able to offer you.

Brisfly we need somebody with a fairly good general heewledge of graphic methods who could take over responsibility for the production of graphic material by this department. This really mems forming a liaison between this office and the studio of the Mational Film Board/where the actual art work is done. The job as I see it would not call for an artist per see but for somebody who understands the problems of artists and who could interpret our ideas to them. We have an immediate prospect of producing a large quantity of useful graphic material to be used in connection with special orientation courses in the post-hostilities period overseas. Porsonally, Ray, I feel that you could not only headle this job but would senjoy doing it very mach. With regard to permanency, on course it would be as inpremenent as any other job in the army or for that matter as any job in a temporary wartime agency. Before we do this, naturally I would like to hear from you again what your attitude is.

We have received many complaints over the last few weeks from people who are not receiving CANADIAN AFFAIRS regularly. He are now compiling a list of all such complaints which we can take up from time to time with Mr. Robertson in an effort to solve this problem. ADDFORMATION

As I understand it; we have a verbal agreement that CAMADIAN AFFAIRS will be produced weekly but so far nothing in writing. This should be discussed in relation to printing orders and particularly in relation to paper. The methods of dealing with the printer have been tightened up considerably and it is now necessary for Sinel to have a definite order from the King's Printer before he can go shead with snything. It looks as though this question should be straightened out with Boyd and Alexander. It will also be advisable to let Sinel know our detailed plans as soon as possible to assure ourselves of the same kind of service to which we have become accustomed.

Dear Mr. Stefanssons

It shouldn't take us a month to answer a letter but your enquiry of 18th July was neglected during vacation periods

I think you have us on two points. It certainly isn't reasonable to talk of an average temperature for the Canadian Borth. You are right too about the maximum temperature. By this time you may have seen an article in the CANADIAN GEOGRAPHIC for July by Mr. J. Lewis Robinson of the Buren of Morthwest Territories and Yukon Affairs, Dept. of Mines and Resources. The article was prepared for the Inter-departmental Committee on Agriculture in Northwest Canada and in it appears the statement that the maximum temperature known is 103°F at Fort Smith.

I am enclosing a copy of our pamphlet, "The New Morth", which accompanied our pictorial.

Yours sincerely,

ACCOUNT OF STEPS TAKEN BY CORBY IN OTTAWA ON SEPTEMBER 5TH, 6TH AND 7TH,1945.

Į.

After turning over in my mind a hundred times the question of where I should go with my statement, I came to the conclusion that this must be made to a newspaper, in order that the whole matter become known to the Canadian people and that public opinion in Canada should demand action from the Canadian Government.

I knew that the system of military intelligence had not its own agent on the staff of the R.C.M.Police in Ottawa, but I did not know whether or not the system of the NKVD had its own agent there. Therefor I considered that it was dangerous for the whole undertaking to turn to the R.C.M.Police at first as, under the worst circumstances, if there were a Soviet agent there and all this subject were turned over to him, he would be able to direct it into a channel favourable to the Soviet intelligence and to the benefit of the agent himself.

Taking all these circumstances into account, when I came out of the Soviet Embassy building at 8.30 p.m. on September 5th, I boarded a street car and arrived at the building of the newspaper "Ottawa Journal". On asking the lady on duty on the first floor where the Chief Editor of the paper was located, I received the reply that he was on the sixth floor.

On arriving at the sixth floor, however, I was undecided about submitting my statement and went down in the elevator and walked home. There I told my wife that I had definitely decided to make a statement. After drinking a cup of tea I returned to the building of the "Ottawa Journal", this time with the firm intention of making my statement.

However, the Chief Editor was not there then and only junior employees were there. I turned to an elderly man (rather thin, small, bald) who was pointed out to me as the senior among those present at that time.

I told him the gist of the matter, indicating the importance of my statement. After hearing me he said that he had no authority to print my statement and that it would be best to go to the Justice Building to the Royal Canadian Mounted Police or to wait until morning when the Chief Editor would come. He showed me the address of the Justice Building and how to go there. I decided to go to the Justice Building. There I asked the man on duty on the first floor(he was in the uniform of the R.C.M.Police) where I could see the Minister of Justice.

He told me that only the secretary of the Minister of Justice knows where the Minister may be found. But in view of the lateness, and as the secretary was not present, it would be better to come to-morrow morning. Thus I laft the Justice Building that evening without seeing the Minister.

On the following morning I came to the Justice Building with my wife and child. On learning from the man on duty where the office of the Minister of Justice was located we went there. Only a secretary of the Department of Justice (a French-Canadian) was there. He said that the Minister of Justice was probably in the Parliament Buildings.

He conducted us to the office of the Minister of Justice in the Parliament Buildings where he introduced us to the personal secretary of the Minister of Justice (a French-Canadian, dark hair, small) to whom I outlined briefly the gist of the matter, pointing out that I wished to make a statement to the Minister of Justice personally. He asked me if I knew the French language. On

learning that I did not know the French language, he began to talk to someone on the telephone in French. Then he told me that the Minister of Justice would be in the Justice Building.

2

Placing us in an automobile he drove us to the Justice Building and conducted us to the previously mentioned office of the secretary of the Department of Justice and, after telling us to wait, went out somewhere. We waited about two hours. Eventually the secretary of the Department of Justice returned and said that the Minister of Justice could not receive us.

After leaving the secretary my wife and I decided to go again to the editorial office of the newspaper the mottawa Journal. At that time the Chief Editor was not there. We were met by a lady reporter whom I informed that I wished to break away from the Soviet regime and pointed out my reasons. She turned for advice to one of the employees who, evidently, was the senior there.

He advised me to apply to the bureau of naturalization of the R.C.M.Police. On arriving at the bureau of naturalization I again repeated to gist of the matter to the head of this bureau. The head of the bureau advised me to go to a Magistrate's office on Nichol Street. I asked him to give me protection. He did not give me any. During our conversation a young man, apparently one of the employees in this bureau, was present.

As it was already mid-day and our child had not been fed yet and was very tired and sleepy, we went home. We did not go into our apartment, as we considered it dangerous to do so, but to the apartment of an English acquaintance, Mrs. Bourke, who lives in the neighbouring house on Lion Street.

We did not tell her anything except that we said we had decided to go to the city together to shop and asked that our child might sleep with her and if she would look after him during that time.

Arriving by street car on Nichol Street we entered the Magistrate's building. The man to whom we had been sent was not there. His office was looked, as it was the lunch hour.

A little later his secretary came. She is a French-Canadian lady with dark hair who at that time was wearing a red dress. She listened to us and then said she would consult with someone. During our conversation there was present a young man, apparently a relative or acquaintance of the secretary.

For a long time she tried to come to some arrangement with acquainted editors, correspondents of newspapers (Citizen, Ottawa Journal and a French newspaper) and with a Catholic Priest. Not one of them decided to print my statement. However, one correspondent (from the Ottawa Journal) came himself and listened to me. He asked me.to show him the documents. I showed him the dossier of SAM CARR He advised me to go to Inspector Leopold and gave me his address: For a long time she tried to come to some arrangement

The secretary asked me if I had good acquaintances in Canada with whom I could hide while she obtained for me a "landing card". I replied that such acquaintances could hardly be found. She explained to me the whole procedure of naturalization, supplied me with an application and told me to complete it and to submit two PROVISIONS OF THE PRIVACE THE PRIVACE THE PRIVACE TO AND CONSTRUCTION OF THE PRIVACE TO AND CONSTRUCTION OF THE PRIVACE THE PRIVACE TO AND CONSTRUCTION OF photographs.

- 3 -

When we left the building of the Magistrate it was already about 5 o'clock p.m. of September 6th. We hurried home to get the child as quickly as possible. When we came to our neighbour we found that the child had awakened. The neighbour served us tea.

After a little while my wife entered our apartment through the back door on the balcony. On her return she told me that she had found nothing suspicious there and that I could go in with the child. I went over with the child to our apartment, in like manner by the door on the balcony. In the apartment I lay down on the bed, extremely tired. After lying for about 15 minutes I got up and looked out of the window. On a bench in the park I saw two people who once in a while glanced at the windows of my apartment.

N.K

Some time later (about 6 to 6.30) someone knocked on the door of my apartment. I did not answer. The knocking continued for about 10 to 15 minutes. As the child ran across our living room, whoever was knocking was convinced that we were at home. In the end he called me by name-just once. I did not reply. From the voice I recognized LAVRENTIEV, a young man who arrived recently to work in Canada in the apparatus of the Military Attache as the second chauffeur. (light-coloured hair, medium height, simple kind of face. In those days he were a light grey suit.) On receiving no reply he went away.

My wife and I decided that it was dangerous to leave the child in our apartment. She suggested leaving the child for the night with our neighbour in the same house. Leaving our apartment by the back door on the balcony I climed over to the balcony of our neighbour, who was at that time on the balcony with his wife and child. My neighbour was a military man; I did not know him well previously. I told him briefly what was the matter and asked him if we could leave the child with him for the night. He agreed with readiness.

I climbed back over the balcony to my apartment and my neighbour came out on his balcony. At that moment a tall man in a dark suit approached my balcony from Lion Street. He took in the balcony with a glance and, on seeing there was another door there, went away.

When he saw this, my neighbour said: "I shall go and call the police". He mounted his bicycle and went for the police.

The other neighbour, a lady in the apartment opposite mine in the same house, invited us to spend the night in her apartment. Together with the child we went into her apartment. By that time the police arrived. After listening to what was involved he said that a police car would be on duty in the park all night. If anything should happen, we must give a signal--snap the light out in the bathroom.

We went to bed. At approximately 12 o'clock the noise of an arriving car was heard. We jumped up; however the child continued to sleep peacefully. The lady of the house snapped off the light in the bathroom, thus giving the police the signal. Together with the lady of the house I looked out of the window and saw that the police car had not arrived. We snapped the light on and off again. (As it was explained later, the policemen had gone for lunch.)

gone for lunch.)

My wife, who was looking through the key-hole saw how PAVLOV, ROGOV, ANGELOV and FARAFONTOV broke the look of our apartment, looking about them fearfully the while.

j

After breaking the lock they entered my apartment, switched on the light and a little later put it out. The police car arrived just at that moment. The police opened the door of my apartment, switched on the light and saw how PAVLOV, ROGOV, ANGELOV apartment, switched on the light and saw how PAVLOV, ROGOV, ANGELOV and FARAFONTOV crawled out from behind the furniture where they had been hiding.

The policeman asked them for their names and after looking at their documents remained in doubt. We heard how he repeated several times: "I don't know what to do with you, " to which PAVLOV replied: "Let us go/that is all." Finally the policeman allowed them to go. The pliceman remained on duty with us after their departure.

An interesting detail: All the time while PAVLOV and company were breaking the look and hid in the apartment, an individual, whom I had never seen before, was on duty in the car which brought them. The police did not ask this individual for his documents. When I later interested myself as to why the police had not asked for his documents, the policeman replied that this man was a Canadian as he spoke English well. (It might be worth while to find out who this manis.)

Soon after this an Inspector of the City Police arrived. He listened to me and on learning that I wished to make a statement to the R.C.M.Police, said that he would drive me himself to the building of the R.C.M.Police at 11 o'clock next morning.

At 4 O'clock in the morning again someone knocked at the door of my apartment. The policeman came out to see what was the matter. This time it was GORSHKOV, the chauffeur of the Military Attache. The policeman looked at his certificate and allowed him to go.

In the morning of September 7th the Inspector of the City Police escorted by two policemen drove me to the R.C.M.Police where I finally was able to make my statement.

The statement was made by myself to Inspector Leopold, Inspector Williams and Superintendent Rivett-Carnac.

My dear Commissioners

Your promptness in bringing the developments in the case of Igor Gusenko to the attention of the Federal Bureau of Investigation is deeply appreciated and I wish to thank you for your consideration in this regard.

The nature of the threats to the internal security of Canada and the United States, which have been and are being disclosed in this matter, is, of course, no surprise to either of us but the details of the organized effort and the victousness of its implications clearly demonstrate the mecassity for the emphasis which has been placed by both of our organizations on investigations of this type.

Please accept my assurances of complete and thorough ecoperation in this matter as in all matters of mutual interest.

Sincerely yours,

2. As certain representatives from - were immediately contacted by another government department when the matter first arose, we have been in continuous co-operation with them for the last few days. My understanding is that after Surgeant Bayfield has reported to that will immediately be brought into the picture.

I am not certain at the time of writing this letter whether it will be sent by Sergeant Bayfield or individually but, in view of its general urgency, the former will probably be the case. I have asked Sergeant Bayfield in any event to call upon you personally to convey my best wishes to you.

With kindest regards,

Yours sincerely,

S. T. Rood.

Dear Mr. St.Laurent,

with reference to the CORBY case which we are now investigating. I feel that I should place before you my views in respect to its importance from the standpoint of the results which would be achieved if prosecutions were to be entered in due course and publicity follow as a corollary to this action.

2. While I fully appreciate that the diplomatic and political considerations are of paramount importance in this matter you will, no doubt, agree that if the public was to be informed of the wide spread that if the public was to be informed of the wide spread activities of the Soviet Union and its agents this would form a most active deterrent to the growth of Communism both here and abroad: There is little doubt but that these activities are motivated by imperialistic aims on the part of the U.S.S.R. and that they form only one part of a program which is directed towards world domination. As you are aware, the Royal Canadian Mounted Police has been making a study of this subject over a period of many years and are under no illusions regarding the progress of world events which have now formed a general pattern towards the ond I mention for some considerable time past.

While we have a most acute realization of the very important diplomatic and political aspects of this case which, of course, have to be given precedence

according to the wishes of the governments concerned, from a purely police and intelligence standpoint I must say that I am very much in favour of and consider that prosecutions should be entered in every instance where the evidence is available and that the whole matter should be brought to the attention of the public. I feel that it is only in this manner that a proper understanding may be arrived at regarding the wide spread and vicious system of espionage and subversion to which the democracies are being subjected at the present time. are being subjected at the present time.

re: Ccrby

In compliance with the instructions of the D.C.I. at the recent C.I.B. conference in Ottawa, discreet enquiries were made in Mont real during the past two days in connection with the following individuals:

Eric G.Adams:

This person is employed in a responsible This person is employed in a responsible position with the Foreign Exchange Control Board in Montreal, and is residing at 3280 Ridgewood Road, in the town of Hampstead, which is a suburb of Montreal. His telephone number is ATLANTIC 2807. He is presently out of town, is not expected back in Montreal until October fourth. Should the present of the pr it be necessary to contact him prior to that date, he can be located at the Admiral Beatty Hotel, St-John, N.B. It is understood that he does considerable travelling throughout the Dominion for the F.E.C.B. and we expect, within a few days or so, to obtain his itinerary during the past two months.

E Fred Rose:

Whilst in Montreal this person resides at Apartment 8, 4540 Clark St. It is understood that during the Session he has a room, either at the Chateau Laurier, or the Lord Elgin hotel, Ottawa.

Gordon D. Lunan, alias Noonan:

Montreal Reference 42-M-269/1-371. Whilst it is understood that the subject is presently on the editorial staff of Canadian Affairs in Ottawa, Ont., he still maintains residence at 2048 Union Street, Apartment 2, Montreal. It is understood that his Ottawa address will be ascertained by members of "A" Division and for the purpose of this report, it would seem that there is no point in summarizing his past activities with the Party as these details are already on file.

Norman Veall:

Employed at the National Research Council, Montreal, and resides at Apt. 5, 2870 Van Horne Avenue. Telephone No. ATLANTIC 2084.

Miss Hermina Rabinovitch:

Employed at the International Labour Organization and supposedly residing at 539, Pine Ave. West, Montreal. This point is to be checked further. This woman is from 40 to 50 years old and lame. She travels considerably for the Organization on a diplomatic passport. It is understood that she has a bank account with the Union bank of Switzerland, Geneva.

Durnford Pimberton

Montreal Reference 42-M-1084-2. It is understood that this subject is now residing in Ottawa and that members of "A" Division will make enquiries in this regard. When in Montreal he resides at the home of his father-in-law, Charles M. Cotton, K.C., 338 Metcalfe Ave., Westmount, P.Q.

James Scotland
Benning:

Montreal Reference 42-M-1018-374. It is understood that the subject is employed in the Economics Statistical Branch of the Department of Munitions & Supply, Ottawa. Members of "A" Division will have to ascertain his address at that point. Details regarding his past history are already on file.

It has been ascertained that the subject, following his discharge from the R.C.A.F., has resumed his former position with the Bell Telephone Co. of Canada.

obtain further information regarding his present activities within the next day or so.

A further report in this connection will follow.

"Jack":

There are a number of known Party members who might be the person we are interested in. For instance: Jack Briely who married Charlotte Gauthier.

on the other hand it might be Jack Rosenthal. Possibly Inspector Leopold might be in a position to give us further leads in this regard.

SUPERIOR SELVENTING THE SERVENT ACTIONS OF A LONG OF A L

This person might be Paul Berman, subject of Montreal Reference 42-M-269/1-1258. He dropped out of sight sometime ago and is supposed to have joined the Army. We are looking into the matter further.

Corby - concluded:

"Green":

According to Inspector Leopold this person was employed in 1943 as Assistant to the Superintendent of the Department of Contracts with the Montreal Locomotive Works, Montreal. A discreet check reveals that Montreal Locomotive Works never maintained a department of contracts, but did for sometime in 1943, have a department of sub-contracts which was headed by one Douglas Robert Stuart, 60504, Desrochers St., Montreal. This man died a couple of months ago. Possibly Inspector Leopold could furnish further leads in this connection.

October 3, 1945.

Dear Mr. Hoover,

I have had an opportunity of discussing the Corby case and the procedure which may be required insofar as the apprehension of the suspects is concerned with Mr. Lish Whitson. He will, therefore, be in a position to advise you personally of the details on his return to Washington.

g. From a Canadian aspect action in this country will depend largely on whether or not is arrested Should this occur and publicity ensue, it may become essential to immediately apprehend all those persons whom we believe to be engaged in espionage of one kind or enother. On the other hand, if is apprehended, and this can be done without publicity, it does not automatically follow that we will have to take any emergent action in Canada as we believe that our plan of operations would not be jeopardized under such circumstances. You will of course understand that we will do nothing here in any event until the instructions of the Canadian Government are received

regarding the possibility of the Soviet Union to the Soviet Union is arrested, this should be done without publicity. However, is an individual who holds an important position and it is not possible to guarantee just what leakage may or may not ensue if or when he is in fact apprehended.

J. Edgar Hoover, Esq.,
Director, Federal Bureau of Investigation,
U. S. Department of Justice,
WASHINGTON, D.C.,
U. S. A.

In the event that no action is taken towards the on of that action here can be left in abeyance until all the leads which have been opened during the course of this investigation have been followed up. In these circumstances action would, have been followed up. In these circumstances action would, of course, be delayed until the opportunity was completely suitable for the task in view. We will of course take no action in Canada which would jeopardize the success of your action in the United States but feel, after discussion operations in the United States but feel, after discussion with Mr. Whitson, that if emergent action could not be avoided with Mr. Whitson, that if emergent action could not be avoided the American position might not be thrown out of balance by the the American position might not be thrown out of balance by the steps taken here. As I am most desirous that both the Federal Bureau of Investigation and the R.C.M. Police should work in complete agreement and with a common plan of action in this complete agreement and with a common plan of action in this matter, I would very much appreciate obtaining your views.

5. The tentative decision reached here, after consultation with high officials of the Government, is that if instructions are received from the Government that Police action is to be taken an Order-in-Council will be issued under the War Measures taken an Order-in-Council will be issued under the War Measures Act giving authority for the apprehension of the suspected persons. In those cases where we have evidence to take the matter before the Courts, charges under the Official Secrets Act will be laid. The remaining suspects who are detained under the Order-in-Council referred to will be interrogated and their the Order-in-Council referred to Secretary Courts. premises searched in an attempt to obtain further evidence of espionage. Subsequent to this general action being taken, it. enquire fully into the subject of Soviet espionage activities in Canada. This, of course, is all subject to a determination of policy being arrived at to the effect that apprehension of the espionage agents concerned is to be effected.

6. The above brief review of the situation here, when supplemented verbally by the particulars in the possession of whitsen, will no doubt serve to explain the circumstances wr. Whitsen, will no doubt serve to explain the circumstances and situation of this matter as seen from a Canadian viewpoint.

You may rest assured that we will do our utmost in all operations carried out to work in the very closest co-peration with your Section of the sectio CONTRACTOR OF STATE O carried out to work in the very closest co-operation with you

Further to Insp. Brady's report of the second instant, the following additional details have been obtained:

Miss Hermina Rabinovitch: It has been established that this woman's first name is Germina instead of Hermina as first reported. at 539 Pine Ave. West, Montreal, and drives her own car, bearing Quebec Licence No.46-364. On the evening of October 2nd she was kept under surveillance and was observed leaving the office of the I.L.O. around six o'clock accompanied by a man approximately 35 years old, 5'7" tall, dark complexion and weighing approximately 150 lbs. They both departed in her car and proceeded to 1234 Drummond St., Appartment 4.

The subject, together with LaSalle Hotel later went to dinner at the LaSalle Hotel where they remained until 9.15 p.m. at which time the subject entered her car and returned to her home at 539 Pine Ave. West.

Nightingale: VIt has been established that the subject is in charge of the Toll Transmission Engineering Department of the Bell Telephone Co., located at Room 729, in the Eell Telephone Toll Building, Belmont St., Montreal, P.Q. In his position the subject has access to all the latest technical information on listening devices and is sware of the proposed plan of latest technical information on listening devices and is aware of the proposed plan of the Bell Telephone Co. for future research. He is a man 6' l or 2" tall, slim build, and at present living alone his wife having sued him for divorce. He is reputed to be rooming at 3425 University St., Montreal. Telephone No. LANCASTER 7905. We are informed that he does considerable travelling throughout the does considerable travelling throughout the Province of Quebec and Eastern Ontario, but in this connection we are in a position to obtain prior knowledge of his whereabouts.

Dear Superintendant:

I am dropping you this note in ink due to the absence of the OC's secretary, and as I don't want anyone else to handle it.

Further to my call to you this evening, and in explanation, while meeting Anthony at Malton Airport this A.M., I saw a Soviet Officer in uniform, apparently waiting for someone at the airport. I have described him to Corby, who is quite satisfied it was Lt. Col. Ragoff. He met no one off any of the incoming planes, so far as I could see and took no apparent interest in either Anthony or myself. On leaving the airport I of course took all precautions. He seemed to know the airport staff quite well, for...

By the way Corby's present location will be referred to hereafter as Rexall (REXALL). As far as No 1 and No 2 here are concerned, we are keeping discreet observation. If Vasily Rogoff has put them on their guard, I am reluctant to intensify surveillance, as they may be expecting just that very thing.

Re - CORBY

It is desired to have some information regarding the background and activities of arthur Gerald STRINBERGY now resident in Washington. D.C.

2. In the Spring of 1944 he lived at 456 Pine Avenue West, Montreal. Previous residence is given as 3514 Hutchenson (Hutchinson) Street, Montreal. He was on the faculty of Modill University from 1940 to 1944., He resided with his wife Edith Wexler, citizen of the U.S.A. and his children,

5. In addition to requiring knowledge of his background and activities, we also want the names and occupations of any contacts he may have made in Montreal.

J. Leopold) Inspector.
Assistant Intelligence Officer.

Re; Arthur Gerald Steinberg

It has been established that the subject is a U.S. citizen who came to Canada in September 1940 under grant of the Rockefeller Foundation for the purpose of lecturing the on genetics at McGill University. He banked at the Drummond and St Catherine Sts Bank of Montreal.

On March 5, 1942, he splied and was granted permission for the export of \$150.00 in U.S. funds for a period of five months for the purpose of enabling him to continue research work at the Long Island Biological College, Cold Spring Harbour, L.I. The bursar of the College, one William Bentley, was his sponsor at that time.

. In October 1942, he apparently returned to Canada and applied for and was granted permission to send \$75.00 a month in U.S. funds to his wife in New York City, giving as his reason that he could not locate suitable quarters in Montreal.

In May 1944, he explied for change of status and apparently, at that time, he returned for good to the United States, estensibly for the purpose of Wing-employments the U.S. Office of the Scientific Research developments At the time of his departure, his assets were as follows:

My dear Superintendent:

Re: COKBY

1. With further reference to my handwritten letter of the 8th, I would advise that our No. 1 man here has disappeared. We have been able to make discreet enquiries and it has been learned that he is out of town until the end of the month, and the people at his office did not think they could get in touch with him.

2. He is a man who travels a lot on business and it is quite possible that this may be a normal trip. On the other hand, it must be remembered that the Officer whom I saw at the Airport has been in Toronto and it is possible that No. 1 has been instructed to lay low until the end of the morth. The Officer would, of course, know the arrangements of the time table for the contacts

—and he might feel that if those dates pass successfully without any action on our part that Corby has not told us anything.

3. Every effort was made to keep him under observation, but his home underfice are situated in thickly inhabited districts where surveillance for any prolonged period is extremely difficult. Quite faturally, we could not take any chance on arousing suspicion, and linestructed the members of the force so engaged to break off curveillance at any time they felt their actions might cause the displatest suspicion. The two men on the job are particularly adopt at this type of work, and you will realize that under the present ticklish circumstances it was utterly impossible to keep a constant surveillance on No. 1's activities. We are using every effort to ascertain as discreetly as possible his whereabouts, and if he is simply away on normal business this may be possible. If, or course, he has gone undercover, then the situation is much more difficult.

Insofar as ho. 2 is concorned, he is carrying out his usual daily routine and there is no indication that he is disturbed in the slightest. Inamuch as he is conducting a normal business in the city which requires his Gaily attendance at his place of business, surveillance is not too difficult in this case. Jo. 1, however, travels a great deal at the whim of his immediate superiors, and there is no doubt that our problem is quite difficult. I will keep you fully advised as to any information that we receive.

S. With regard to Ers. Corby, I had her medically examined last night and there is remon to believe that she will be confined about November 7th. I feel that we have been able to make very satisfactory arrangements insofar as the hospital is concerned. She will have a private room, and the doctor is doing the same of the payon o

everything possible to facilitate her entry into the hospital without arousing suspicion. He is obtaining for us a copy of the questionnaire which must be filled for all patients admitted to the hospital, and from it Black and I will concoct a cover story to satisfy all the details required on this form well ahead of the time she must enter hospital. The doctor feels that it is most essential that a father be present on her admission in order that this may appear as nearly as possible a normal maternity case entering the hospital. As, of course, it is impossible for Corby to undertake this proceeding himself, Black will be in this case the father.

6. This may appear at first somewhat of a union of Winter and Spring, but the doctor assures me that the discrepancy in ages is not noticeable and is not at all uncommon with people of this origin.

The birth, of course, is registered by the hospital authorities and our cover story will be, we feel, sufficiently good that all details will be available for the registration of the birth without any suspicion being aroused. We will, of course, give a fictitious home address far away from the town in which the hospital is situated so that there will be no way of tracing Corby, and at the same time far enough for it to be a reasonable thing to bring the woman to this particular hospital. The doctor feels that if we gave an address in an entirely different part of the Province some comment might be raised as to wy she was brought this distance. He are working on the principle that the more normal we can make the whole circumstances appear the less chance there is of anyone noting anything unusual.

8. Ers. Corby is being well coached so that she will speak nothing but her rather broken English and will not converse in her native tongue in the hospital under any circumstances. She has sufficient English to understand the usual instructions of the nurses, and can ask for water or anything she may normally need. She impresses me as an intelligent weman with a very strong personality and should be able to carry this thing through quite successfully.

9. As she will be in a private room, there will be no need for snyone to contact her outside of the nurses. She can be placed in the hospital in twenty minutes, if necessary, and the doctor is pleased with that particular phase inasmuch as people of her racial origin generally get these things over pretty quickly once labour begins.

10. The member who is living with the Corbys has been instructed by the doctor as to what symptoms he may anticipate (I might add to his considerable embarrassment) and he is fully aware of what action he is to take when the time comes. The doctor will visit her at regular intervals from now until the time of her confisement. When she enters the hespital, Black will visit her regularly and keep the situation fully under review. He will pay the hospital bill in cash, and the doctor's bill will likewise be paid in cash.

Il. I might add that I have known the doctor for a matter of about four years. He has been the Kedical Officer for our friends who operate Rexall, since the place commenced operations, and he is fully aware of the necessary security in all these circumstances.

13. One other thing, Corby has a pair of glasses which are badly broken and will need replacement. He wears them infrequently, but I would like to get a new pair for him with a different shape of lens and different type of frame as I feel that this will help in this disguise. He is also going to grow a moustache. Incidentially, he assures me quite definitely that none of his former

(3)

associates were aware of Mrs. Corby's pregnancy, which is all to the good. Would it be in order to arrange to get glasses for this man?

13. This appears to cover the situation to date, and I will keep you advised of any developments.

Yours sincerely.

(Geo. B. McClellan) Insp.

P.S. - Since writing the above the thought has occurred to me that, as you undoubtedly know, there has recently been a large upheaval in the Party in British Columbia resulting in the expulsion of Fergus McKEAR. Undoubtedly, arrangements will have to be made for a new Provincial Organizer and we do know that there was an indication that someone from here would be going out to handle the situation in British Columbia. In view of No. 1's position, he is logically one to go, and it may be that he is on his way to Vancouver.

within the last few days someone was endeavouring to get a message to No. 1's home regarding a sick or dying relative. They were unable to contact No. 1 so asked the City Police to deliver the message. The message was delivered to the house by a City policeman in uniform, and I understand that this wisit fram a uniformed policeman, although on a perfectly innecent matter, has put the wind up local members generally. If No. 1 has a guilty conscience, this visit might have some bearing on his disappearance. However, it is just a thought.

I have dictated the above, but will not be here for the rest of the day and I am, therefore, instructing Miss. Cullen to forward it directly to you without my signature as I want it to get away in to-night's mail.

My dear Superintendent:

Re: CORBY

- l. Further to my letter of yesterday's date, I am enclosing herewith in Russian, together with Black's English translation, a statement given by Corby in which he outlines his reasons for taking the step which he did.
- 2. In discussing this matter with you by telephone last night, you will remember we agreed that what was now required was a complete statement from Corby as to all the information which he turned over to us and to include his complete knowledge of the operational set-up of the organization to which he formerly belonged, together with pertinent details as to the activities which he knows they were carrying out. This would include names, code names, and all possible information as to the type of information supplied by these agents. You will realize that in obtaining this statement we have none of the documents here which Corby handed over, and Black and Corby would have to make this statement entirely from memory. If you are coming up this way over the week-end, it would be helpful if Black and Corby could be given another opportunity to peruse the documentary evidence and make a list of it for their own use.
- 3. In discussing the matter with Insp. Williams on Sunday last we had only a very few moments under the circumstances and we were perhaps not as clear here on exactly what was wanted as we are now since my conversation last night. Hence the submission of the more general statement which is enclosed herewith. NSE/C/
- herewith.

 4. I would like to point out that under the living conditions at Rexall at the moment, Black-laboured under much difficulty in obtaining the statement already submitted herewith, and it will take some days to get a complete statement in the manner in which you want it. This is due to the fact that Corby has somewhat of the dreamer mentality and it is extremely difficult to pin him down to the business at hand.

5. I am endeavouring to make arrangements whereby Black will be able to obtain the statement from Corby with less interruption in future. Black will be proceeding to Renall to-morrow and will get started at once on the statement.

6. Within the limits outlined above, we are receiving full co-operation from these people and I believe that both have an earnest desire to Canadianize themselves and to fit themselves to stand on their own feet in this country without bringing undue attention to themselves. They are most appreciative of the efforts which have been made to provide them with both security and comfort, and appear to be very happy in their present locale.

7. As a point of interest, Corby in discussing the Kravchenko case stated that Major Sokoloff had told him (Corby) that Kravchenko was a fool inasmuch as the American authorities had obtained from Kravchenko all possible information and would, after sucking him dry, cast him off. Corby himself has no fears of any such action on our part insofar as he is concerned. This I think indicates an assured state of mind and we have, of course, endeavoured to further this impression.

8. This covers the situation to date and I will forward the additional statements as soon as Black is able to obtain them fully. You will note that Black has not signed the English translation forwarded herewith, for obvious reasons.

Yours sincerely,

Just 13. m. clula

P.S. As you will note by my previous letter, hirs. Corby is expecting her baby about Lovember 7th, and it would appear to be necessary that I be within reach in case of any unusual circumstances. The Promotion's Examinations are due to comence on the 5th and I thought I should bring this to your attention. I, of course, have not had an opportunity to do any studying for some little time nor do I anticipate such opportunity from now until Hovember 5th. However, on that score I shall have to take my chances, but I do think that consideration should be given that this confinement is due to happen just about the time I would normally be in Cttawa, and I do feel that I should be available here to fully cover security in all this very ticklish business.

REF. NO

SECRET

Dear Mr. St. Laurent,

As you are aware, an important enquiry is now under way as a result of which a number of persons may be detained in Montreal, Ottawa and Toronto. At a conference of the officers engaged on this enquiry, the following points in connection with possible future proceedings were developed:

- (a) The detention of the implicated persons will cause an immediate outcry from their supporters and a campaign in the party press. This would necessitate trial or hearing of the case as speedily as possible. The enquiry being involved and replete with intricate and delicate details, counsel, if called into the case after detention, would necessarily require a considerable time in order to review and prepare the evidence. In order to avoid this delay and in order to afford counsel an opportunity to properly prepare the case it is suggested that he should be appointed at once.
- (b) The case of one of the Montroal men involved will, because of the prominent public position held by him, require extremely careful handling. It is suggested that counsel appointed should be a man thoroughly familiar with the entire Montreal picture since the hendling of this particular individual may have a very important bearing on the entire proceedings.
- (c) There appears to be a considerable mossibility that conspiracy charges will result from this investigation. It is suggested that counsel with wide experience in conspiracy prosecutions should be appointed. For all of

The Hon. Louis St. Laurent, K.C., M.P., Minister of Justice and Attorney-General for Canada,

OTTAWA, Ontorio.

these reasons, it was suggested that Gerald Fauteaux, K.C. of Montreal be appointed in this case at once.

2. I have considered these suggestions and am of the opinion that the immediate appointment of Mr. Fauteaux would be most helpful.

Yours faithfully,

S. T. Wood.

Dear Rivett-Carnac,

I have had difficulty in finding out from our records exact information about Sokolov in the Soviet Embassy. At one time or another there appear to have been three persons of that name on the staff of the Embassy, all of whom belong to the office of the Commercial Attache.

Socolov described as a military engineer. In a note to the Department of October 22nd, 1943, the Soviet Legation (as it then was) informed us of the crival of this man and his wife Lydiak together with two other employees, and asked us to issue National Registration Certificates. In the list of all their personnel submitted to us by the Soviet Embessy about a year ago there appears the name of Major V.S. Sokolovi described as a collaborator in the Commercial Attaches office, with date of arrival given as April 13th, 1943. His wife's initials are given as L.V. This probably refers to the same person as the one of whom we were officially notified in October of that year.

The second Sokolov is Boris Valso a collaborator in the Commercial Attache's office of whose arrival we were notified on June 19th, 1944. He has a wife named Agnessa

The third Esokolov is Andrei described as an employee in the Commercial Counsellor's office, of whose arrival, together with that of his wife Tatiana, we were notified on October 27th,

You will note that we have on our records no trace of

a Major Sokolov on the staff of the Embassy in 1942. No such name was included in the list of the original staff which was given to us by Mr. Gousev, shortly after his arrival, in a note dated November 4th, 1942. [1], in fact, there was a Sokolov in Canada at that time, it would therefore seem that, so far as the Canadian Government was concerned, he was not a member of the staff of the Soviet Embassy. Colonel Zabotin was the first Military Attache appointed here, and the description of Major Sokolov as his predecessor is not accurate.

These researches have made me conclude that we should apply a stricter procedure in securing information about the arrival of all employees of foreign missions in Canada, but I think it unwise to start anything in this connection for the present.

Yours sincerely,

Mithung

Report on San Francisco Conference by Zarubin July, 1945.

In the early part of July, 1945, Zarubin gave an oral report on the characteristics of the San Francisco Conference to a selected number of members of the Soviet Embassy staff in Toronto.

Zarubin said that the Soviet delegates came to the Conference the conference thereas the constant and the conference thereas the conference to the conference to the conference the conference to the confer

Zarubin said that the Soviet delegates came to the Conference thoroughly prepared. They had large volumes of data and proposals worked out in detail covering amendments to the proposals previously worked out by the Big Three (Americans, British, and Russians) at the previous conference. He said that the greatest struggle took place over the amendments introduced by the Americans. In comparison with the Russian delegates, the British and Americans came very poorly prepared which resulted in endless, empty discussions over points which should have been decided quickly.

The Russians, on the other hand, had been instructed by Stalin to defend their proposals to the limit even if it meant splitting the conference or leaving it. One of the points insisted upon by Stalin was that preparation for the Conference should be complete.

With such a background the Russians felt no obligation in the Conference at all. They gave it no significance. They had slready determined what the policies of the British and Americans would be, from their experiences at the previous conference, and sonsequently they had their own position definitely worked out.

At the same time they were prepared to take full advantage of whatever opportunity presented itself to further the aims of the Soviet Union and to enhance its prestige in the eyes of the other nations. It is interesting to observe that the results of the San Francisco Conference were not given wide publicity in the Russian papers.

Russian papers.

The flowery expressions by Soviet delegates promising full co-operation in the work of the nations to establish peace was for external consumption only and was not given publicity in the Soviet Union as a nation.

At first the Soviet delegates found themselves in a defensive position and at a distinct disadvantage. Little by little,

plan was a

however, they were able to take up the offensive and to put their proposals over successfully. Zarubin said that in this they were assisted, unconsciously, by many of the British, American and Canadian delegates who were more concerned with delivering flowery speeches than with fighting stubbornly to gain their points.

The Russians found that their main opponents were the U.S.A. delegates and that it was obvious that there had been previous agreement between the Americans and the British. The Soviet delegates were, however, greatly surprised when South Africa voted against a British proposal. Although the Soviet delegation felt somewhat discouraged at the beginning of the Conference they gradually sifted out the weak points in the delegations from other nations and took advantage of these to enhance the prestige of the Soviet Union.

The Conference showed lack of unity or unanimity among the nations of the British Commonwealth with Britain and, although the case of South Africa was outstanding in this respect, this same characteristic was observed in the attitude of Canada.

The weakest point in a delegation was a lack of steadfastness and stubborness. There was no definite objective, no definite program presented in any of the speeches in general and,
of course, there was insufficient preparation. Delegates contradicted themselves and were easily swayed from their original line.
Their speeches lacked conviction.

Zarubin gave as an example of this purposeless oratory
the case of the Swedish Minister for Foreign Affairs. This delegate was obviously fluent in several languages and, as Zarubin pointed out; it was just as obvious that he wished the world to know this. At the beginning of the Conference, the Swedish Kinister for Foreign Affairs was specially prominent and spoke at length on every conceivable question brought up at the Conference. About the middle of the Conference he had exhausted his oratorical resources and from them on was never heard. Zarubin described himse an exhibitionist.

In respect of solidarity the U.S.A. came well prepared and had obviously worked with the South American republics to establish unity. This solidarity between the United States and the South American republics is the result of a great deal of work in South American by the U.S.A. Zarubin said, "Our big mistake is that we have lost a lot of time and neglected South American republics in preparing for the Ean Francisco Conference".

3103-1 (93/01)

As an example of the great activity of the Americans in South America, Zarubin cited the cases of several American Legations in these republics whose embassy staffs run into a hundred or several hundred employees. Wit is clear, he said, that the Soviet Union must follow the line of the Americans and he was convinced that through their influence, in time, "the Russians will be able to snatch this trump card from the hands of the Americans".

Despite this weakness in contact with the South American republics, Zarubin said that, even at the Conference, he was able later on, through the friendship he had developed with the Uruguayan Minister in Canada, to swing the Uruguayan delegation to sympathetic consideration of the Russian proposals.

In general, the Russian delegation tried to develop contacts, acquaintances and friendships during the Conference.

Ary and the second Another characteristic of the Conference was the undefined trend of the Chinese representative. From the first day to the last the Soviet delegation was unable to determine whether the Chinese supported the British-American trend or the Soviet attitude and proposals. As Zarubin said, the Chinese representative seemed to be at a loose end.

One of the most characteristic developments of the Confermence was disclosed in the change of attitude in the international field by the European countries which had previously leaned towards Britain but had now changed with a definite trend of sympathy towards the Soviet Union.

On the question of the relative strength, Zarubin explained that the pro-Russian elements included the Czechoslovaks, the Yugoslavs, several European countries (without designating which one's) and of course, the Ukraine and White Russia.

The had been agreed among the big powers that chairmen of sommissions should be selected from representatives of the small powers in order that there should be no complaint that they were powers in order that there should be no complaint that they were being neglected or overlooked. Thus, the chairman of the Statutory Commission was Manuilsky, representative of the Ukraine which came into the category of a small power. Zarubin said that Manulisky was so successful in conducting the meetings of his commission that the Americans pointed him out as an exemplary chairman whose methods should be followed by the chairman of other commissions. Manuilsky worked so hard that he became ill and had . 4 .

to be transported to the Soviet Union by plane. In describing his work on the commission to the Russian delegates, Manulisky said. "It is difficult to handle that mob".

According to Panulisky's description of his work on the commission, the procedure, apparently, had been something like the following. Each delegate on the commission would make his proposal on which there would be a lengthy and at times heated discussion without coming to a decision. Another delegate would follow with his proposal and again endless discussion took place with no decisions made, each dolegate insisting that he was right. When it was evident that nothing was really being accomplished, the worn-out delegates asked Januilsky for his opinion. Manuilsky placed his proposals before the commission briefly and concretely and they were accepted unanimously with little discussion. Zarubin said that this showed that the other delegates failed to appreciate their responsibilities and were not concerned with the rights or wrongs of the basic problem.

As an example of full agreement among the Russian delegates, Zarubin quoted the instance of the Ukrainian delegation. To the surprise of the delegates of other nations, the Ukrainian delegates voted at times against the Russian proposals. These proposals were, however, of a very secondary and unimportant nature but the negative vote of the Ukrainian delegates on the Russian proposals served the purpose of creating an apparently independent attitude.

were, however, of a very secondary and unimportant nature but the negative vote of the Ukrainian delegates on the Russian proposals served the purpose of creating an apparently independent attitude.

Zarubin smentioned also that Kudriavtzev, who was First Secretary at the Soviet Embassy in Ottawa prior to taking up his position as First Secretary of the Soviet Embassy in London, England, and who organized the Soviet Military Intelligence in Canada, was a delegate to the San Francisco Conference. He was appointed to the Economic Commission at the Conference on which Mr. M.J. Coldwell and another Canadian also sat. Kudriavtzev had told Zarubin that Mr. Coldwell was a great orator but was weak on putting over his proposals and appeared to be more concerned with the niceties of flowery speech. It was noticeable, in general, that candidates delivering speeches obviously in defence of their country's policy, took advantage of the opportunity to give an exhibition of oratory and morely tired the delegates attending the Conference.

Zarubin emphasized the fact that, in general, delegates of other countries had a wide knowledge of foreign languages. In this lay the great weakness of the Russian delegates to the Conference, that their knowledge of foreign languages was very poor.

**O** 5 -

In fact, several Russian delegates who thought they knew foreign languages found, on their arrival at the Conference, that their knowledge was too elementary to be of any advantage to them. He emphasized that learning foreign languages must be one of the main tasks of members of the ambassy staffs in future.

the Internal Situation in the Soviet Union

In reply to a question regarding the possibility of a chtangods uprising against the present regime, the answer was the tithe chances of a spontaneous, internal uprising are so renote as to be practically negligible. This does not mean that the people are satisfied with the present system - social and political. On the contrary, there is a general and deep-seated hatred against the government and the Party, the expression of which is suppressed by the terrorism practised by the N.K.V.D. Less than ten percent of the people support the regime and quite a preponderance of that percentage is half-hearted and does so as an expedient for enjoying a more comfortable mode of life than is the lot of the average Soviet citizen.

CANON COMMENTS AND Any change towards a democratic form of government can be brought about only through outside help. The ordinary lines of propaganda and infiltration are closed because of the radio control and the ramifications of the N.K.V.D. Such help must, therefore, take the form of a condition imposed upon the nation as the Fesult of war between Russia and other nations. The Allied Govern-Ments must be successful in such a war. Were the Red Army to be defeated the Allied occupationery forces would be welcomed by the fluesiens with open arms and they would receive the wholesale support of the population. The N.K.V.D. men, who are regarded by the people as their greatest enemies, would be uncovered to the occunery forces by the people themselves.

As an illustration of the popular feeling there is the case or 300,000 members of the Red Army who deserted and fled to Allied to cupied Territory in Germany. It should be borne in mind that these men saw Germany in a state of disruption, the cities, towns and yillages hombed and destroyed and the country in general in a state of chaos and disorganization as the result of the defeat, and yet these members of the Red Army found such conditions in formany so much more preferable to returning to the slavery of the soviet Union that they deserted, with the certain knowledge that they were handed back to the Soviet authorities they would be another under the happiest circumstances, they would be exiled to sot or, under the happiest circumstances, they would be exiled to some remote parties the country into forced labour camps. Their families, relatives and friends will suffer from their action. The Another instance of the same feeling may be found in the

esale manner in which the Russians and Ukrainians ran over to

the Germans during the great German advance into Russia. They thought that anything was better than continuing to live in Soviet slavery. When, however, they saw the total stripping of their country by the Germans and their bestial trentment of the people they organized partisan details behind the German lines. This treatment by the Germans also served to inspire the Russians in general in their ferocious struggle against the German advance and finally in their attack which resulted in driving the Germans out of Russia. It would be truly false to attribute the spectacular advance of the Russians against the Germans to a love for Communism, for the Communist system or for the current regime.

Had the Germans been reasonably moderate in their conduct in occupying Russia and had they refrained from wholesale spoilation of the occupied territory, they would have earned the support of the Russians within the country instead of their enmity and hatred.

If and when an occupation of Russia were accomplished, there would have to be a period of occupationery guidance to help the people to establish a government out of which democratic rule could be developed. It would be fatal to occupy the country and forthwith to announce that the people could vote for their own representatives and form their own government. The Russian people are not ready for such a step; they do not appreciate the meaning of real freedom nor the obligations attached to its enjoyment. They do not understand the form of democratic government under which British, Canadian and American people live.

Referring to the ramifications of the N.K.V.D., it was pointed out that this organization has placed its men in every government institution in the Soviet Union. Service in this organization is voluntary. In selecting men for this service the procedure is to appoint men trained as engineers, economists, scientists, commercial men, etc., but their potentialities for espionage work are considered and given, priority as a necessary qualification for the considered and given, priority as a necessary qualification for the agent would be rejected in favour of a medicore engineer who had the qualifications required for a good intelligence operative. Embassy staffs are selected on much the same principle (It should not be misunderstood however that all employees of the embassy staffs are members of the N.K.V.D. as the majority of them probably are not.)

In spite of the fear with which the N.K.V.D. has been able to inspire the population, the people joke quite outspokenly about

**-** 3 3 -

the present regime. For example, when Stalin announced that Socialism had been established in Russie, this became a joke and people said, "Now Stalin has told us that we have Socialism. That is good.", and left it at that. His announcement that the next step would be Communism was greeted in the same manner. This type of levity is, of course in an entirely different category from plotting or engineering an internal uprising, and while it is frowned upon by the N.K.V.D. it is allowed to pass unnoticed.

### Information

Bources Corbyi

Corby, an associate of the Willitery Attache of the Embassy of the U.S.S.R. at Ottawa, furnished the following information:

Deveral years ago the Boviet authorities in Moscow sont a man to North America on some special mission. This man, a Polish Jow, was equipped with a prasport made out in the name of Ignacy WITCZAK and, under this name, he is now a student at the University at Los Angeles, California. A few months ago the Director of Military Intelligence at Moscow instructed the Military Attache of the Soviet Embassy at Ottawa to secure a renewal of the passport in the possession of the man referred to above as Ignacy TITCZAK In conformity with these instructions, Lt. Co. Nagoov, now Assistant to the Vilitary Attache, contacted conty Harris Devoral years ago the Boviet authorities in Moscow Assistant to the Vilitery Attache, contacted leary Herris and through him, Cham Carr, both of Toronto. Several meetings were held between Rogov and the two sforessid men with a view to complying with the wishes of Mescow. In order a view to complying with the wishes of Moscow. In order to obtain a renewal or a new passport, Sam Carr reported that it would be necessary to spend \$5000 to "fix" an official of the Passport Office, who, for such consideration, would falsify the passport records. This official, who has been referred to as "The Executor", is a male member of the staff of the Passport Office of considerable standing and long service, and had expressed his willingness to comply with their wishes on payment of the sum mentioned. This was conveyed by telegraph to the Director of Intelligence at Moscow and the latter replied that the neumant quoted was too high and that the collaborator in the Passport Office should be satisfied with a payment of quoted was too migh and that the collaborator in the Passport Office should be satisfied with a payment of \$5000. Subsequently Sam Carr reported that he would not be able to bribe the official in the Passport Office for less than \$5000. The passport in the possession of less than \$3000. The passport in the possession of WITCZAK having been expired; Noscow pressed for immediate action and stated that no further delay was possible. Doubt was expressed as to whether a renewal could be obtained and the suggestion was put forward by Carr that it would be better to have a new passport issued. In order to do so it was imperative that the records contained in the Passport Office file covering the issuance of the original passport be altered to fit the requirements of the present holder. Colonel Rogov reported that this transaction would be completed during the early part of September, 1945.

Documentsi

Corby supplied a number of documents taken from the Military Attache's files. These are in the Russian language and the following are translated excerpts which have some bearing upon the matter of the passport in questions

- A dossier kept by Lt. Colonel Rogov on Snm Carr, known under the cover name of "Frank", contains the following entries:

everything will be dated as of 1937. This is necessary for surety. After this the change to the new passport will take place, for this it is necessary to fill out two forms which will take and (one). then be pinned to the old (one).

Therefore it is necessary, to have signatures on 4 forms, Therefore it is necessary for V to have signatures on 4 forms, of which two are for his documentation of 1937 and two for the change of 1945.

In case of the change it will be necessary to find a reason for this, he (FRANK) suggests to burn half of the passport, to leave only the number, but this has not yet been decided, it is possible that it will not be necessary to do this as the executor (the do this as the executor (the person who does the job)agrees to everything and is ready for the

without prejudice to the work I can fly out for not more than two or three weeks. The ambassador is of the same opinion. During that time ROGOV can be left to replace me. In the telegram of the Director it was indicated that the senior assistant has been selected and documented. [7]

Can you advise of the approximate date of departure. I would like to fulfill the fairly complianted task of obtaining the passport for our man in America (the director knows about this) and after this leave for the center. The receipt of the passport is expected in the next few days. I will advise of the receipt of the latter immediately.

### INVESTIGATION

Investigation into the above matter revealed the existence of two persons known as Ignacy WITCZAK, one living at Leamington, Ontario, and the other at Los Angeles, California. They will be referred to hereunder as (a) the real WITCZAK and (b) the fictitious WITCZAK.

The July 10th, 1937 edition of "Clos Pracy", a Communiate controlled paper, contains an item reporting the receipt of a letter from Spain, dated Pay 29th, 1937, from Feliks Rudzinski, stating that he, together with Commide WITCZAK, were leaving for the Front. The passonner list of the S.S. "Duchess of Richmond", arriving Halifax, February 3rd, 1939, lists among those Spanish Civil Var veterans returning to Canada, Ignacy WITCZAK. His destination is given as 952 Langlois Avenue, Windsor; the name of the person living at that address is kiven as Nick Line. kiven as Nick Lipa.

On page ten of the June 2End issue of "Ukrainake Zhitya" (Ukrainian Life) appears a group chotograph showing several members of the Joint Committee of Ukrainian, Russian and Polish Aid to Fatherland Association at Old March, Pt. Palee, Ontario, among whom appears Ignacy WITCZAK. The others appearing in this picture are P. Prodaniuk, K. Willenski and S. Petruszkiowe-

Several items appearing in the Polish language newspaper "Kronika Tygodniowa", between January 3rd, 1943 and October 21st, 1944, show Ignacy WITCZAK as having been active on behalf of this paper at Windsor and Leamington, Ontario.

Inquiries made recently reveal that Ignacy WITCZAK is and Enquiries ands recently reveal that Ignacy WITCLAR is and has been, ever since his return from Spain, living in the Windsor district. At present he is an onion share-crop farmer on the farm of John Woodsitt, Concession "B", Mersea Twp. in the District of Leamington, Ontario. It has also been ascertained that he is not rarried and has never been known to have a wife residing with him in the Leamington district. He has, on occasion, worked at the Ford Motor Company at Windsor and while so doing computed from the Leamington district except during the winter months when he obtained lodgings in Windsor. during the winter months when he obtained lodgings in Windsor. He is also known to have been working as a corpenter or handymen and at present he is under contract to make repairs to a number of summer cottages, owned by U.B.A. citizens who spend the summer in the Leanington district.

Through the Mobilization Branch at London, Ontario, it was ascertained that WITCZAK was medically examined on October 27, 1942 and placed in category B2. On January 14, 1943 he reported at St. Luke's Harracks, Windsor, Ontario in compliance with an order but upon re-examination was rejected and placed in category "R", "insufficient intelligence and chest unfit".

It has also been ascertained that Immey WITCZAK applied for and obtained a passport in March, 1937 and that he enlisted in the International Brigade and proceeded to Spein in the spring of that year.

### 2. The Fictitious WITCZAK

ACOCESTO BY COS UNDER THE PROPERTY OF AND A COST OF THE PROPERTY OF AND A COST OF THE PROPERTY OF A COST OF THE PROPERTY OF TH The Federal Bureau of Investigation have loomed one Ignacy WITCZAK now a candidate for Ph.D. in Political Science at the University of Southern California. The U.S. Alien Registration Records of this men provide the following

partioulars:

Ignacy Samuel MITGZAK, Polish Jow, born October 15th, 1910, Kurowo, Poland; height, 5'8"; weight, 155 lbs; heir, dark brown; eyes, blue; sonr on forenrm; married, wife named brown; eyes, blue; sonr on forenra; married, wire named Bunia WITCZAK; date of registration, December 19th, 1940.

WITCZAK claimed that he married Bunia at Fontreal, Canada, October 22nd, 1935 and that they entered the U.B.A. at Detroit, September 27th, 1938. The U.S. Immigration authorities at Detroit, however, are unable to verify this entry and it may be assumed that the other claim is equally false.

Investigations, rade by the Federal Bureau of Investigation at New York, show that Ignacy WITCZAK, and Bunia, his wife, sailed from Boulogne, Surmers, September 3rd, 1938, Second Class, on the 8.8. "Veendamk", arriving at Hew York, September 13th. At the time of arrival WITCZAK stated that they were in transit to Canada to visit friends at Montreal, P.Q. and claimed they had previously been in the U.S.A. in March, 1938. The Immigration records at New York described WITCZAK as a Canadian citizen; born Kurowo, Poland; age, 28. Bunia is described as a Canadian citizen; born, Wilno, Poland; ago, 24; height, 5'2"; hair, brown; eyes, grey.

WITCZAK and his wife, Bunis, have been under constant surveillance by the Federal Bureau of Investigation for the past six weeks.

WITCZAK left Los Angeles on or about the 9th September and on the 17th of the month he was found registered at the King Edward Hotel, New York City, under the name of Ako Sandler of The real Sandler is a friend of WITCZAK's, a Dwede alion and a journalist of Leftist tendencies, living at Los Angeles. WITCZAK is also known to have visited Washington, D.C. where he has been contacted by Boviet officials, be-lieved to be members of the N.K.V.D. He is also known to have made similar contacts in New York City.

The result of the surveillance and examination of the correspondence passing between him and his wife shows that FITCZAK has connections with the Soviet officials in the U.S.A. who regard him as an important figure. His wife, Bunia, is also known to have been in communication and personal contact with the N.K.V.D. at Los Angeles. Latest information received from the Federal Bureau of Investigation would indicate that WITCZAK and his wife are preparing to leave Los Angeles; moreover, if his position should become more aggravated, he has instructions to take cover in the Soviet Embassy. Boviet Embassy.

### 5. The WITCZAK Passport File

Passport file No. 3699 - year 1937, has been examined. This file purports to cover the application for, and subsequent issuance of, a passport to the real WITCZAK in 1937. Examination of it reveals the following:

(i) The original application form has been abstracted and replaced by one containing particulars intended to meet the description of the fictitious WITCZAK and his requirements generally. This switch obviously could not have been accomplished without the consivence and as-THE OCE SED BY OS S UNDER THE SERVICE TO THE SERVIC sistance of someone employed in the Passport Office; the identity of this person is not known at present. neglected to destroy or alter some of the other documents on file which show that the original application had actually been made by the real WITOZAK, who at the time of making application resided at Windsor, Ontario. This making application resided at Windsor, Ontario. This application was forwarded by the French Line, 55 Richmond Street, W. Toronto, Ontario, with Mr. John Higgins, Manager of the Canadian Bank of Commerce, Ottawa and Cladstone, Windsor, Ontario appearing as the woucher.

(ii) A comparison of the particulars on file with those contained in the fictitious application reveals the follow-A PARTIE OF MARIE ing contrast:

Handwriting comparison shows that (iii) Handwriting comparison shows that the signature "Ignacy Witcznk" appearing on the fictitious application form is definitely not that of the real WITCZAK.

- The two photographs appended to the application for passport form presently on file have been identified as those of the fictitious WITCZAK and his wife, Bunia, now residing at Los Angelos, California. In this connection, it is interesting to note that the photographs do not contain the affidavit usually appearing on the back of the photograph to the effect that the voncher certifies that it is a genuine photograph of the applicant. It should also be noted that the real WITCZAK has never been married and is, to our knowledge, still a single man.
- The address given on the fictitious application form as "Stop 31, West Hill" is merely a bus stop situated in Scarboro Township, Just East of Toronto.
- (vi) The person vouching on behalf of the real WITCZAK was Mr. J.R. Higgins, a bank manager of Windsor, whereas the voucher appearing on the fistitious application is Mik John Boboloff, Wald, who gives his address as 583 Bathurst Street, Toronto. According to the 1937 Toronto City Directory, Dr. John Soboloff maintained an office at 555 Bathurst Street and residence at 519 Fuclid Ave.

  At present, he is maintaining an office at 593 Palmerston Bouleyard and residence at 782 Boadina Rond. Toronto. Bonlevard and residence at 782 Spadina Road, Toronto.
- (vii) As the application form is purported to have been sub-mitted in Merch, 1937, it should be pointed out that Dr. Soboloff could not have known the applicant for three years because the fictitious WITC/AK did not arrive in North America until Soptember 15, 1958, and insamuch as the real WITC/AK's application was recommended by Mr. Higgins, he (Soboloff) could not have had the real WITC/AK in mind when he filled in the declaration in question. The declaration appearing on the fictitious application form was executed in the head-writing of John Boboloff. All this suggests that Dr. Soboloff is a party to the conspiracy. THE PROPERTY AND,

TON DES FINE VERY DOUGH LOV TOWNER THEN END WENTER IN THE PROPERTY IS

(viii) Departmental form entitled "copy of passport" has been amended by including the name "Bunia WITCZAK" and her particulars in the space on the form allotted for this purpose. Expert examination reveals that this addition was made on a different typewriter with a different ribbon and at a different time.

Although definite proof is not yet available it may safely be assumed that the fictitious WITCZAK and his wife, Bunia, on their arrival in New York, were in possession of Conadian passport No. 30533 issued at Ottawa on 12th March, 1937 to the real WITCZAK. It is also clear that the firtitious WITCZAK has been impersonating and posing as a Canadian citizen over since his entry or re-entry into the United States to take up his studies at the University of Lower California late in September, 1938. He appears to have violated the law of the United States and there is little doubt that he would be deported to Canada by the U.S. Immigration should such a course of action be deemed desirable.

There is good reason to suppose that the real WITCZAK is not aware of the disposition made of the passport issued to him and which he apparently lost after landing on the European continent to join the International Brigade in Spain. It may further be assumed that a statement from him would strengthen the evidence already at hand.

The evidence could be further strengthened by interviewing and obtaining statements from the following persons: (a) Othon Goetz, Ceneral Agent, Compagnie Generale Transatlantique, 55 Richmond Street, West, Toronto, Onterio, who may be in a position to produce the records relating to the issuence of the passport. Ho should be able to state that the passport, upon receipt by his office, was delivered to the real WITCZAK then living at Windsor and not to the address given on the fabricated passport application. (b) John R. Higgins of the Bank of Commerce, Windsor, who would undoubtedly be able to identify the real WITCZAK and state that he was the voucher and not John Boboloff.

For various reasons it has not been found advisable at this stage to approach any of the above-named persons or anyone connected with the Passport Office.

The passport application form contained in the file has been subjected to a scientific test and a number of letent prints have been developed. Hone of these, however, have been identified, so far.

The investigation is being continued.

My dear Superintendent:

Re: CORMY

1. Recently when Spl. Cat. Black was in Ottawa, he received from either you or Insp. Leopold a list of questions which it was desired to have asked of Corby. Black has now obtained the answers to these questions, and I am attaching hereto the questions and answers completed. This is being forwarded in single copy in longhand exactly as it was obtained in order to obviate the necessity of typing the information here and thereby holding up the report another cay.

2. Black is visiting with Corby to complete the full length statement regarding all of Corby's activities and all knowledge at his command. This, as has been previously mentioned, is a painstaking task and cannot be rushed. Corby's mind is most difficult to pin down to matters at hand, but the statement is being completed and will be forwarded at the earliest possible moment.

3. To have now purchased all supplies necessary for the arrival of irs. Corby's new baby. This was done with some difficulty as all purchasing had to be done by either D/S₃t. Spanton or myself whose knowledge of the necessary requirements is, to say the least, meagre. The new baby will now be completely say the least, meagre. The new baby will now be completely say that this fact has done equipped and clothed, and I might say that this fact has done more than any one thing to put irs. Corby's mind completely at more than any one thing to put irs. Corby's mind completely at rest. She was at first concerned regarding the arrival of her rest. She was at first concerned regarding the arrival of her has been done for her comfort and that of her expected child.

4. We are now faced with the necessity of purchasing considerable finter clothing for the rest of the funity. The weather is turning colder and mone of the family is equipped weather is turning colder and mone of the family is equipped for finter weather. Corpy himself had only two shirts to his for finter weather. Corpy himself had only two shirts to his formand and his few pairs of social were almost all worn out. Ars. name and his few pairs of social were almost all worn out. Ars. Corpy was without a good pair of shoes. All the facily, including the youngster, are completely lacking in heavy underwear, finter overcosts, shoes, mitting etc. In view of the fact that many of overcosts, shoes, mitting etc. In view of the fact that many of these articles are not easily available at all times, I have been watching the stores and picking up these items as they appear on the shelves, and I am proceeding to equip this family for winter weather as quickly as possible. All articles purchased are considered necessary, and none of the family has been at all demanding in their wishes.

5. Considering that this family came into our hands with nothing but the clothing in which they stood, you will readily see that a considerable outlay is required if they are to be warm and comfortable in the Winter months. It is not possible to make a complete estimate, but I would think it would cost to make a complete estimate, but I would think it would cost to make a complete estimate, but I would think it would cost for instance, none of them has a finter overcoat. made good strides in this procedure, and the essentials are being obtained quickly. Other necessary items will be purchased when it is possible to procure them. We are endeavouring to purchase clothing which is warm and durable and, at the same time, with due economy. There are minor items, of course, such as knitting wool for Mrs. Corby, cosmetics, etc. She has also expressed the desire to do fancy work to pass her time, at which she is apparently expert, and we are obtaining materials for this purpose.

They were, in fact, somewhat tearfully expressive of their appreciation of the efforts of this coree to provide security for them, and of the consideration which has been shown for the very drastic step which they took. Corby is, of course, somewhat concerned that vigorous action has not been taken against his friends, and raises this point from time to time. He is being reassured as to the need for discretion and care in the very momentous decisions which must be made.

7. It is presumed that approval will be given to the steps being taken to equip this family for the winter.

Yours sincerely,

### Re: Corby

One of the persons mentioned in the Corby documents not yet identified is one "Berman". We have looked into this matter and, through a process of elimination, narrowed the search down to one Samuel Saul Burman, a Major who is to be repatriated shortly and who may, in fact, be already en route to Canada. This man proceeded Overseas on the 7th September, 1944 and is now shown as being carried on strength of No. 1 CGRU O/S as specially employed. Burman is known to us as having been connected with some of the Communist-inspired organizations in Montreal. He is an insurance agent and, from all other information available concerning him, he may well be the

man referred to as "Berman".

We understand Corby has seen a photograph of "Berman". Will you kindly have Corby confronted with the attached photograph and obtain his reaction. There is just a possibility that he will be able to identify him.

3. As this is the only photograph we have in our possession, will you kindly return it when it has served its purpose.

ROYAL CANADIAN MOUNTED OFFICE OF THE COMMISSIONER OTTAWA November 9th 1945.

Dear Mr St Laurent:

1. You will recall that, some time ago, I put forward the suggestion to you that the case known as "The Corby Case" he passed to the Chiefs of Staff. As no decision has yet been decided upon as to the course to pursue in this case, and as it is now over two months since its incoming. been decided upon as to the course to pursue in this case, and as it is now over two months since its inception, I am concerned that the agents involved are still permitted to function. Therefore, I recommend for your approval that I be permitted to transmit a copy of the attached report to the Chief of Staff (Army) and such other Hends of Departments as I deem advisable, having in mind the necessity for continued secrecy until a final decision is made. I believe this action is necessary in order that the activities of these agents should be at least neutralized.

2. May I ask that the attached report be returned when it has served its purpose.

Yours faithfully,

The Honourable Louis S. St Laurent,

### re: "Corby" E IKrio C. Adams

In accordance with telephonic conversation with Inspector Leopold, discreet enquiries were made to ascertain if Aric G. Adems had been in Queboc City at the time of the Agricultural Conference (F.A.O.).

It was ascertained that Adums was away from Montreal until October sixth when he returned from Hallifaxe. From that date he remained in the Montreal area. However, it was also revealed and communicated by telephone to Inspector Leopold that Adams left for New York by Airways on Sunday, November 11. Adams was accompanied by a

2. It was discreetly revoaled that both Adams and were leaving Montreal by airplane for New York on flight No.11 which leaves Montreal at 9.p.m. The subject gave the Airways the following address: "Statler Hotel, New York City and that he would be returning to Montreal on November 18.

At the time of departure Adams were a light gabardine coat, brown hat and carried a fairly heavy brief case. For purposes of record his recent description is given as follows:

Ly dear Superintendent: Re: CORBY

I am returning, under separate cover, the photographs which were forwarded here for examination by Corby. Attached hereto you will find a list of the names of those among the photographs whose faces are familiar to Corby. He is not able to say anything more about them or their present occupations other than that their faces are familiar.

2. Attached hereto will also be found a list headed, "Handwriting in Vol. V (Miscellaneous)". Insp. Leopold asked Black to have Corby attempt to identify the hundwriting in Vol. V of the brief, and the attached list is the result.

3. I am also forwarding herewith a copy of the Programme for the Convention of the Canadian Soviet Friendship League which was held recently in Toronto, and I have underlined the names of persons who may be of interest to you. This is merely forwarded as a matter of interest.

4.
Black is endeavouring to complete the statement of Corby as quickly as possible, and it will be forwarded at the earliest possible moment.

I find on my return that the Corby family are all well and in good spirits; and there is nothing of particular importance to report in that respect. Cur suspects here are carrying on normally and we are maintaining surveillance as much as possible. I am making arrangements to discretly increase surveillance in order that there may be no chance of these people disappearing at an inopportune time.

Yours sincirely,

re: "Corby" -Detention Quarters.

On instructions received from you discreet enquiries were carried out with a view to locating suitable detention quarters and with this purpose in view Major Turner, local Officer in charge Internment camps, M.D.4, was interviewed this morning. Major Turner was not, of course, informed of the background of the case, but was merely asked what facilities were available in the internment camps under his Command in the avent available in the internment camps under his Command in the event that such facilities should be required by us in an emergency.

Major Turner advised that there was no camp in this area which would suit our purpose as the ones still open are filled to capacity with P.O.W.'s and the others are being used for military purposes. Es suggested that the Hull gaol at Tilled to capacity with research and the state of the first purposes. He suggested that the Hull gaol at Tetrenuville, Quebec, might be ideal for the purpose we had in mind as this place has a capacity of 411 immates and is presently occupied by only one hundred - fifty of which are usually outside the gaol on loan to neighboring farmers. He pointed out that the guol is under federal control and has been used throughout the war for the purpose of detaining civilians and he believes that one wing could be allotted to our use.

5. The Hull gaol, of course, is under the jurisdiction of the Kingston military district and arrangements for its use would have to be made direct with National Defence headquarters. Major Turner suggests - and this seems to have some merit - that the matter be looked into further by a member of our headquarters staff.

The Commissioner, R.C.M.P. - OTTAWA. You will recall that during my recent FORWARDED. visit to Ottawa you instructed this angle of the enquiry be looked into in Montreal. It will be noted that the internment camps in this area would not be suitable, but the suggestion that the Hull gaol be used is worth looking into. It is my impression that following the detention of these people they will be subjected to extensive interrogation. Hull, Quebec, would appear to be ideal for our purpose provided, of course, that the facilities available at that point are satisfactory. Possibly you may comider an Officer visiting the gaol with a view to looking the situation overe looking the situation overe

With reference to the above matter it now appears probable that action may be taken at an undetermined date in the comparatively near future. As soon as definite information in this connection is forthcoming, it will be necessary for Inspectors McClellan and Brady to travel immediately to Ottawa for discussion purposes. This memorandum is, therefore, to advise you of the possibilities in this connection.

Should developments of a positive nature regarding this case take place it may be that some additional experienced K.C.O.'s will be required in Ottawa to follow up various leads which may be brought to light, and it would be appreciated, therefore, if you would give thought to the subject as to who might be available in your Division.

It is appreciated that you will have your own problems to deal with in this connection at Montreal and Toronto respectively, but, once the initial action has been taken at the two points mentioned, the majority of enquiries which may materialize will develop here. In making any suggestions regarding the N.C.O.'s referred to.

#### PERSONAL

My dear Superintendent:

When in Ottawa recently, Insp.
Leopold handed me copy of a telegram from Washington, D.C.
to the Commissioner, which reads as follows:

"PLEASE ENQUIRE OF CORBY REGARDING THE

NATURE OF PREMISES AND OCCUPANTS THEREOF AT

25 RUZNETSKY MOST MOSCOW USSR GIVEN AS RESIDENCE

OF ANATOLI GROMOV FIRST SECRETARY SOVIET EMBASSY

WASHINGTON D.C. SUSPECTED NEVD AGENT."

Chimical Cookself

This matter has been taken up with Corby and he states
that, as far as his memory serves him, this is in a
Business Section of Moscow devoted to stores, etc.

Part of the premises might be occupied as a general lodging house, and in that case it would be a handy address to
allot to GROMOV as his residence in Moscow. Corby knows
of no official building situated in this particular district

disposal and to advise the best method of procedure to

It is desirable to point out in this connection that, immediately after Mr. King's interview with the Soviet Ambassador, the network of agents implicated, if not already warned, will be cautioned and will then be in a concrete position to prepare themselves for any investigation or enquiry which may follow. This would appear to necessitate the commencement of the departmental enquiries at a time confunctive with or immediately enquiries at a time conjunctive with or immediately following Mr. King's conversation with the Soviet Ambassador. To do so successfully will be most difficult, if not altogether impossible, because the necessary briefing of government officials on whom the enquiry would devolve could not be satisfactorily accomplished within the short time available. Furthermore, if the interrogations were not successfully carried out, a most invidious situation would be brought about as the Soviet authorities would then be definitely made aware of the fact that Corby was in the protective custody of the Government and would no

in the protective custody of the Government and would no doubt make as much capital as possible of this to the detriment of the Canadian position in the matter.

It is further desired to bring to your attention that to carry out interrogations by means of departmental enquiry without indicating the source from which the information was obtained would be a virtual impossibility. Moreover there is no guarantee that such a procedure would succeed insofar as obtaining any admissions or additional evidence is concerned. On the contrary it might only bring evidence is concerned. On the contrary it might only bring cabout uncontrollable publicity that would react most unfavourably towards Canadian interests. It should also be smphasized that a departmental enquiry will not allow us to put an end to the activities of such key men in the network as Sam Carr and Fred Rose who should be the primary targets of any action. It should also be realized that any agent investigated by departmental enquiry who categorically refuses to admit his guilt must then be

left at liberty to continue his activities and may

not even be dismissed from the department in which he works.

It is our view, after careful consideration of this matter, that the only satisfactory method of dealing with the problem involved, from the stand-point of Canadian security, is to proceed along point of Canadian security, is to proceed along the lines decided upon at the Washington Conference and to hold a Royal Commission to report on the whole Corby Case. It is also, in my opinion, essential if this course is followed that the public be fully informed of the findings of the Royal Commission appointed for this purpose. However, if by reason of high political and diplomatic considerations it is thought that such action is not in the best interests, or possible, it is strongly emphasized that for the time being, at all events, no action should be taken and the subject be treated entirely as an intelligence matter for present purposes pending further developments. It may then be possible at a later date to take action in conjunction with the American authorities - who conjunction with the American authorities - who are continuing to pursue their own enquiry in a most vigorous manner - either by conspiracy charges being placed or such other procedure as may be dictated by events. Under the circumstances it would only appear necessary, to meet the immediate requirements of the situation, to take the heads of the various departments in which the agents are employed into the confidence of the agents are employed into the confidence of the Government so that their activities can be neutralized in as discreet a manner as possible.

I cannot state too strongly that the present suggested method of procedure by means of departmental enquiry is fraught with possibilities of the gravest interests from a variety of angles danger to Canadian interests from a variety of angles

and it is my considered opinion that the policy proposed in this connection should be re-examined most carefully in the light of the serious implications involved and the repercussions which may ensue in the Canadian framework if any action is taken at this juncture which does not bring about the expected results.

Yours faithfully

S.T. Wood, Commissioner.

THE CORBY CASE

THE DOCUMENTS.

The documents made available by Corby are of such importance that some reference should be made to them as an introduction.

Although it may be suggested at some stage that the documents have been fabricated, there can be no doubt that they are genuine. Corby's evidence will prove their source and authenticity. Large parts of them are in the handwriting of the various custodians and their writing can, in almost all if not all cases, be proved by handwriting experts from a comparison with other samples of writing known to be genuine.

Notwithstanding the manner in which they were made available, these documents are admissible and would be received in evidence by a Court or a Royal Commission. There is no way in which the owners could recover possession of them, even if they desired to do so, without the assistance of the Canadian Government, which assistance the Government is justified in refusing.

While it is possible, it would seem to be improbable that the owners would take any steps to attempt to repossess these documents because that would be an admission that they were genuine and, in that case, the mere publication of them, whether any proceedings were taken or not, would have a disastrous result so far as the owners are concerned.

The documents being genuine, the next question that arises is the effective use that could be made of them in proceedings before a Court or a Royal Commission. They are, of course, before a gainst those in whose custody they were and those who evidence against those in whose custody they were and those who brought them into existence, but, with the exceptions to be noted brought them into existence, but, with the exceptions are any Canadian Court or of a Royal Commission. The exceptions are four in number. There are amongst these documents, documents in four in number. There are amongst these documents, documents in the hand writing of Pack, Badeau, Nora and Gray. In the case of the latter there is some doubt as yet as to whether the handwriting is Gray's or that of his wife. Even if the handwriting were that is Gray's wife, it would probably be sufficient to connect Gray with the conspiracy. In addition, there are certain documents typewritten and signed on the typewritten on a machine owned by or accessible to Back.

These four then can definitely be connected with the existence of the documents which they themselves had created. Their writings would be admissible in evidence against them, either intercourt or before a Royal Commission. The only question that intercourt or before a Royal Commission. The only question that might arise in the case of these four is whether or not they were might arise in the case of these four is whether or not they were parties to a conspiracy to make these documents available for the purposes alleged or were merely supplying them as Party members to other members of the Party. I am of opinion that it would be found that they were parties to a conspiracy to make these documents available to the persons into whose hands they got and, in addition, they have committed offences against the Official Secrets Act and possibly within the scope of some sections of the Oriminal Code.

Insofar as the other persons mentioned in these documents are concerned, the method of transmission was so carefully worked out that, at the present time and with the evidence available, it would be a matter of great difficulty, if not of impossibility, to link the others up on a conspiracy charge.

So far as I can ascertain, Corby knows none of the individuals in question. In his official capacity he had to know the names of all parties and their cover names, but this information would come to him from his employers and, without some other link, would not be admissible in a court of law against the other persons.

# THE ADVISABILITY OF CRIMINAL PROCESDINGS

I am of opinion that criminal proceedings at this stage are not advisable. No prosecution with the evidence now available could succeed except one of Back, Badeau, Nora and Gray. It would be a mistake, at this stage, to launch proceedings limited in this be a mistake, at this stage, to launch proceedings limited in this way. Even if all of the persons under suspicion were detained and interrogated by Order of the Minister, made under special Order in Council, it is doubtful what use could be made in a criminal Council, it is doubtful what use could be made in a criminal prosecution of the information so obtained. If any of those interrogated made confessions, they would probably be willing to give evidence which could be used in a criminal prosecution, but as I feel so strongly that no such prosecution should be launched, I have not explored this phase of the matter further at the present.

# THE ADVISABILITY OF PROCEEDING BY WAY OF ROYAL COMMISSION.

In my opinion this is the procedure which should be followed, and I would recommend that it be, subject to the suggestions to be made subsequently. A Royal Commission of Investigation is unquestionably justified. The Commission has full control over its questionably justified. The Commission has full control over its own procedure and the way in which it will handle all matters coming before it. It may, and in this case should, sit in camera. It need not be bound by the ordinary rules of evidence if it considers it desirable to disregard them. It need not permit seemsel to appear for those to be interrogated by or before it.

As the matter is of such great importance, I would suggest that the Commission should consist of three judges, so that the that the Commission should consist of three judges, so that the responsibility would be shared amongst them. Upon further consideration I think a Commission of two judges would be more satisfactory. The responsibility would be shared and two of the judges of the Supreme Court of Canada might be appointed. It judges of the Supreme Court of Canada might be appointed. It should have counsel to assist it and, as there is a great deal of should have counsel to assist it and, as there is a great deal of work to be done both in preparation for the Commission and in carrying out the work of the Commission, at least two and perhaps there counsel would seem to be desirable.

three counsel would seem to be desirable.

The my opinion, the Commission should sit in camera, should make its enquiries in the widest possible way, should not be bound by the strictrules of evidence, and should not allow counsel to appear for those summoned before it. The vital nature of the matters to be dealt with fully justify the procedure recommended.

# HOT BOOK BIOULD THE COMISSION BENIN TO FURTION?

There is some reason to believe that the United States Government might take steps to have a special, secret Senate Committee ment might take steps to have a special, secret Senate Committee set up to investigate similar activities in the United States. Set up to investigate similar activities in the United States. The procedure which would be followed, as I understand it, would be very similar to that outlined above for a Royal Commission. be very similar to that outlined above for a Royal Commission. The Committee usually consists of an uneven number and might have five, sowen or nine members. It would sit in camera and would five, sowen or nine members. It would spound by not allow those called before it to be represented by counsel and would not be bound by the rules of evidence to any greater extent than it saw fits. sit.

It would be most satisfactory if it could be arranged so that the Royal Commission and the Senate Committee should sit simultaneously or about the same time. In this event, very close liaison could be maintained between the two investigating bodies, and it would be desirable that arrangements should be made so that constant communication could be kept up between them, with the idea that any unexpected disclosure before the one could be followed up before the other wherever the lines of the enquiry crossed or met. This could be arranged through the investigation departments of the two Covernments, but consideration should be given to having Canadian counsel at Washington and American counsel at Ottawa.

If this cannot be worked out so that proceedings can be commenced reasonably soon, I would recommend that proceedings here be delayed a reasonable length of time. If, for good reason, the American authorities decided not to have such an investigation or to postpone the investigation for the purpose of gathering together further material and information, I would recommend that proceedings be instituted here not later than the 15th of January next.

It must be remembered that the situation confronting the American authorities is somewhat different from the situation here. We are in the fortunate position of having actual documents upon which to proceed, but we do not know that the American authorities have had such a windfall or what original documents they may have under cover. They may not be in as favourable a position to start a Senate enquiry and may desire to improve their position before they proceed.

so far as I have been able to see from the material placed before me, which I believe is all the available material, the only place where the lines cross is through Leader or possibly Polland who, with Sise, met Sherman in New York. Neither Leader nor Polland has been identified and this tie-up is rather tenuous.

There is another way in which our position is perhaps more fortunate that that of the authorities in the United States in that we have machinery under the Order in Council for the interrogation of persons detained under it by Order of the Minister. Whether such a procedure is available in the United States, I do not know, but I doubt very much whether it is. They may, however, have other ways of achieving the same results and getting statements or confessions which could be placed before the Senate Committee.

I feel strongly that the two enquiries should be synchronized if at all possible. I am, however, convinced that a Royal Commission should be set up and started to function within the next five weeks, and have suggested as the deadline the 15th of January next.

# DELAY IN PROCEEDING.

A Wile

In my opinion nothing has been lost, up to the present, by not taking proceedings. In fact, in my judgment, the position has, if anything, been improved. Upon Corby's disappearance, word must have gone out to the various contacts to discontinue their operations. Three months to the day has elapsed, and during that period a gradual feeling of security has undoubtedly come over those who would be alarmed by the disappearance. Nothing has been said or done by Corby's employers to indicate any concern, and no action has been taken in Canada or elsewhere as a possible preparation for a situation that might develop or any anticipation of such a situation.

If those whose conduct is to be investigated are now taken into custody and, after a lapse of some days interrogated, the results would probably be better after a period of relaxation from fear of proceedings than if they had been taken into custody at once. Any prearranged stories which they may have learned will once as distinct and clear-cut as they would have been and there not be as distinct and clear-cut as they would have been and there is some possibility of even a limited number suffering from reaction and deciding to tell what they know or at least part of it.

One of the results that would probably flow from the report of the Commission would be a request by the Canadian Covernment for the removal of certain persons. In anticipation of such a request, these persons might be moved before the Commission sat or before these persons might be moved before the Commission would be lost. On case, some of the benefits of the Commission would be lost. On case, some of the removal of any of these men whose names subthe other hand, the removal of any of these men whose names subthe other hand, the removal of any of these men whose names subthe other hand, the removal of any of these men whose names subthe other hand, the considered as a confession in advance of the fact probably would, be considered as a confession in advance of the fact that they were involved in the improper proceedings.

However, on the whole, if proceedings are to be taken they should, I believe, be taken comparatively soon now. There is always the question of what Corby might do and the possibility that, if this matter dragged on indefinitely, he would commit suicide or suffer a mental breakdown.

# THE PROCEDURE BEFORE THE ROYAL COMMISSION

I would recommend that the Commission should take Corby's evidence and get all the documents on the records of the Commission before any of the persons to be examined before it are detained and interrogated.

The detention of ten or fifteen people, all taken into custody at the same time and held in a place where they could not be communicated with and, in fact, in a place which would be unknown to their families and friends would undoubtedly be a matter of public comment and a statement would have to be made to let the public know something of what was being done. If these people were public know something of what was being done. If these people were detained and interrogated before the Commission started to sit, more will have to be disclosed than would be desirable until after Corby's evidence had been taken.

Corby's evidence should be taken as soon as conveniently possible after the Commission is sot up.

Once his evidence has been taken, the Commission could adjourn and the persons whose conduct is to be investigated could be arrested and questioned. As soon as this was completed, the Commission could resume its work and have these various persons before it for examination.

I would recommend that only those connected with Government
Departments and the Office of the High Cormissioner should be
detained and interrogated. These would be Bacon, Prometheus, Loader,
Polland, Bagley, Badoau, the Professor, Foster, Cray, Ernst, Nora,
Folland Back. This list omits Dick, Jack, who is unidentified,
Kili and Back. This list omits Dick, Jack, who is unidentified,
Freda, who is unidentified, and Alec, who is not in Canada. Freda
Freda, who is unidentified, and Freda are subsequently identified
also is not in Canada. If Jack and Freda are subsequently identified
and can be made available, consideration should be given to detaining
and interrogating them, and it may turn out that Dick may have to be
detained and interrogated.

I understand that Elli's employer believes there is some reason to think that if he were to talk to her first he might get a full statement from her, and this would soom to be an advisable procedure. If she talks, and particularly if she is prepared to give evidence, she can identify Ernst and quite possibly others, and may help in the necessary tie-up.

I consider that it is advisable to detain and interrogate only those in the Departments at the present time, and it will be observed that the above excludes the employee in the Passport Office, whom I should leave out at the moment. I am of epinion that it would be inadvisable to detain and interrogate either Debouz or would be inadvisable to detain and interrogate either Debouz or Frank. At the present time it is going to be very difficult, if not impossible, to link Debouz up with the others. He in /is not impossible, to link Debouz up with the others. He in /is addition to his other qualifications, a paid member of the Party, addition to his other qualifications, a paid member of the Party, and I can see that no harm could arise from leaving him out of the picture at the beginning. Frank is a paid employee of the Party and, at the present time, it would seem that he can best begot into the picture by following up the relations between him and the official in the Passport Office. It would look as if he were the one who handed over the money and made the arrangements, although it may have been done by the Poctor. Further investigation although it may have been done by the Poctor. Further investigation interrogations which will be helpful, but we need a better link here. I can see no disadvantage in leaving Debouz and Frank out at the present time. If they have some sense of security it may be helpful in the subsequent investigations which will have to be made. Further, I again emphasize what I consider to be the advantages of confining the enquiry, at first, to Government officials and employees.

Before those who are detained and interrogated are summoned

Before those who are detained and interrogated are summoned before the Commission, I would recommend that evidence be given in the case of each of them by their superiors of the positions that each held in the Bervices, the nature of their duties, to what extent they are confidential and to what extent they had opportunities for access to the documents or information which they tunities for access to the documents or all of them signed declaramade available. I assume that most or all of them signed declaramade available. I assume that most or all of them signed declaramade available are summed to the placed before the Commission and full evidence be given as to the measure of trust which was placed in them. in them.

in them.

If the interrogations will almost certainly result in further leads, which should be followed up and evidence obtained as a leads, which should be followed up and evidence obtained as a result of those and any other evidence obtained by the investigators should probably be given before the persons interrogated are heard, should probably be given before the persons interrogated are heard, although this would require further consideration as, in some cases, the evidence may require to be given later.

It will be necessary also to consider whether in one or two eases the evidence of secret agents should be given or whether the evidence that would be given would justify uncovering past or present evidence that would be given would justify uncovering past or present secret investigators. I have noticed two cases of this kind, but they can be decided at a later date.

Confessions may be obtained in some cases, statements will be obtained in practically all, and these should be put in at the time the person making them is before the Commission, and counsel for the Commission should cross-examine on them.

# CORBY'S POSITION

I understand that Corby has rank in the Russian Army, and, in the rather remote contingney that he should be asked to be handed over as a deserter, the Government would be justified, in my opinion, in refusing to concur in the request. In any event, if

nis evidence is taken by the Commission, before any publicity if given to this matter, his usefulness will have been taken full advantage of insofar as the investigation is concerned. In the event that oriminal proceedings are taken as a result of the findings of the Commission, his evidence would be required and he should remain in custody until the time comes to make that decision. his evidence is taken by the Commission, on.

BIOTED ANY ACTION DE TANDIT decision.

I understand that I am desired to express an opinion as to whether any action should be taken in respect of this matter. I realise to the full the present international situation and the realise to the full the present international situation and the necessity of doing everything possible to ensure that the United necessity of doing everything possible to ensure that the United Nations Organization should function as satisfactorily and sucothly Nations Organization should function as satisfactorily and sucothly Nations Organization at the several sever

be corrupted and the infection spread widely through the whole Service.

If the shoe were on the other foot, there is no doubt but what the other Covernment would have acted promptly and effectively. It is composed of realists and there have been episodes where it is composed of realists and there have been episodes where governments other than the Canadian Government have had to take a governments other than the canadian Government have had to take a government of the kind but in respect of matters of high policy, and such an of this kind but in respect of matters of high policy, and such an attitude has resulted in the apparent or temporary change of policy by the Covernment in question, and as outlined above has much more to definite course of action such as outlined above has much more to recommend it than a policy of ignoring the situation. What might be expected is that when the Commission makes its report, the Covernment in question would disavow its employees and; in any covernment in question would disavow its employees and; in any covernment in question would disavow its employees and; in any opinion it would not affect international relations on the highest level if proceedings were taken by way of Royal Cormission in the manner I have indicated, and I have no hesitation in recommending them if my recommendation is desired.

CRIMINAL PROCEMENTES FOLLOWING THE COMMISSION

# CRIMINAL PROCESDINGS FOLLOWING THE CONCESSION

As I view the matter at the present time, the punishment of the offenders is the least important phase of this matter. Undoubted-ly a number of them could be prosecuted in the courts and, in such

3103-1 (93/01)

000422

cases, prosecution should take place. It might be that, in such cases, it would be possible to prosecute individuals for specific cases, it would be possible to prosecute individuals for specific individual offences and wherever evidence justified such a prosecution, it would have to take place. It might be necessary to prosecute some for conspiracy to commit these offences. In some cases only a conspiracy charge could succeed, because of the greater facility for introducing evidence in such charges. I should prefer to see the offenders prosecuted individually wherever that is possible.

# WOULD A DEPARTMENTAL INQUIRY BE ADVISABLE?

Tougest that a Departmental Inquiry or Departmental
Inquiries would not be as satisfactory as the proceedings outlined
above. The findings would not have the weight of those of a
Royal Commission; which is the most important consideration, and
there could also be no suggestion, in the case of a Royal Commission
which would be impersonal, of either undue severity or a tendency
to leniency which might be seen by some of the public in the case
of a Departmental Inquiry.

THE ORDER IN COUNCIL AND THE ORDER TO DETAIN

I think the form of the proposed order to detain might be altered with advantage. The wording of the Order in Council might also receive further consideration. The authority given by the Order in Council is to detain and/or interrogate. The form of the Order might be better if it were to direct the Commissioner of the Order might be better if it were to direct the Commissioner to detain and interrogate. The place of detention is to be determined. It does not say by whom and it would be better if it did the delegation of powers might be studied further, though they seem to be ample.

My dear Superintendent:

1. Reference your telephone call of the 12th inst., I have gone over Corby's report in conjunction with the green book, as you suggested, and we have noted cortain necessary corrections. I am forwarding herewith an amendment to the report which I personally gave to you in Ottawa on Tesday, December 11th. You will note that this amendment has been signed by Corby.

2. The It is possible, however, that the amendment forwarded herewith does not cover the points which you wentioned on the telephone but about which you were unable to elaborate. Therefore, if you consider it necessary, Black on proceed to Ottawa next week to discuss this matter with you further.

Wis Corby and her daughter will be released from hospital on Saturday, the 15th inst, which is three days earlier than we had anticipated, and I am making the necessary arrangements for their return to Rexall. This would leave Black clear after the first of the week. Mrs. Corby has made a very quick and complete recovery and the doctor is quite satisfied that there is no need for her to remain longer in the hospital.

My dear Superintendent:

1. Purther to my letter of the 29th ultimo, concerning Fred POLAND, the following additional particulars which may be of interest:

(a) From 1936 to 1939 POLAND lived in Apartment 4, 404 Jarvis Street, Toronto, leaving this address during or prior to 1940.

- (b) In 1936 PCLAND was employed as an Editor by the Canadian Press. It is believed he graduated from the University of Toronto shortly before acquiring this position.
  - (c) In 1938 he was employed as a writer by the Publicity Service known as "Editorial Services, Ltd., 80 Richmond St. West, Toronto." At the time POLAND was associated with this organization it operated under the name of "The Company for Public Relations, Ltd."
- (d) In 1939 POLAND described himself as a "journalist".

  The use of this title may indicate he was unemployed or engaged in some occupation that did not bear too close scrutiny.

  (e) While in Ottawa, POLAND resided at 337 Elgin Street that city. His wife, Mrs. F. W. POLAND, maintained a residence at 1166 Laird Ave., Montreal, P.Q., and may still live there.

For further information regarding
Editorial Services Ltd., I would refer you

Re: Corby.

This will confirm the oral advice which was furnished to Supt. C.E. Rivett-Carpac and Inspector Leopold regarding the departure of Grant and his wife from Jersey City, New Jersey, U.S.A.

City, New Jersey, U.S.A.

The advice which I have received is to the effect that reservations were made for Grant and his wife aboard the S.S. "Alexander Suvarov" a Russian vessel which I am also informed departed from the prier at Jersey City on the night of December 13th, 1945, and on the morning of December 14th was seen in New York Harbour preparatory to leaving. It is taken for granted that Grant and his wife are aboard since special arrangements were made for their passage to Russia aboard this vessel.

wife are aboard since special arrangements were made for their passage to Russia aboard this vessel.

In addition, I have been informed that Malieri was aboard this vessel returning to Russia.

I have requested my Headquarters in Washington to assertain if possible the sailing route of the vessel since Mr. Peter Dwyer was interested in this information.

Very truly yours,

eremiah F. Buckley.

SECRET AND PERSONAL

Dear Brady,

With reference to the matter in which we are interested at the present time, if you happen to know that the individual who works in the Foreign Exchange Control Board, Bank of Canada, etc., whose surname begins with "A", leaves Montreal, could you get in touch with Williams by telephone if possible so that he may be aware of this fact.

It is just conceivable that if such an event takes place
"A" might be coming up here to see the other person with whom

"A" might be coming up here to see the other person with whom he has been working.

As you know, right along we have been careful not to raise anyone's suspicions by too close a surveillance on their comings and goings, and it is not desired that you should, as a result of this suggestion, take steps to change your procedure. As you are presumably in a position to know, your procedure. As you are presumably in a position to know, your procedure. As you are presumably in a position to know, as they are, to pass on the required information. If you can, as they are, to pass on the required information. If you can, will you please do so if the occasion warrants it.

To assist Williams, in the possible event of "A" leaving Montreal, it would be as well to provide him with a description of "A" and this you might do direct to Williams by means of personal, registered letter and without mentioning

It was also decided that if the meeting appeared to be impossible or inconvenient, BERMAN would send his address to his wife who would give it to ROSE who, in turn, would hand it to ZABOTIN so that contact could later be completed in BERMAN's apartment.

4. The documents furnished by CRBY contained a brief note to the effect that BERMAN entered the Party in 1938, that he worked as an insurance agent and that his wife joined in 1939. It continued that he worked in the central apparatus of the Party on organizational work during the period of illegality.

5. There is every indication that Samuel Saul BURMAN is BERMAN, consequently discretion must be used in any enquiries conducted respecting him. However, it was considered advisable to supply you with the above information as some incident may arise, which may have significance. It is reasonable to conclude that both ROSE and Burman would be somewhat careful in contacting each other but their close association should be borne in mind. If EURMAN is observed wearing civilian clothes, the colour, etc. of the suit he may be wearing should be noted.

understood and some preliminary work has been accomplished on the specific tasks set. It should be understood that neither Bacon, Bagley nor Bad au are well known to me either personally or politically, nor I to them. Frogress has been held up somewhat wing to one or other of them being out of town and by the caution displayed by Badeau (a good thing probably), in checking into my oredentials. With the exception of Bacon, who is enthusiastic and politically experienced, it would be unwise to approach them point blank with all the tasks assigned. They already feel the need for maintaining a very high degree of security and taking abnormal procautions at their normal meetings (about once in two weeks); since they are definitely not labelled with any political affiliation. One or two have even opposed the introduction of ner members, to our group on the grounds that it would endanger their own security. I therefore believe it wise to wise to approach them carefully and not to advance too great an assignment to them at one time. Also, for he time being, not to characterize the work for what it is, but merely to let it be understood that it is work of, a special conspiratorial nature, without mentioning my consection with you. If, I read your instructions correctly, you assumed that I would discuss the situation frankly with each separately. This I have not done. But I would like to discuss this aspect with you. Another slight resistance to be overcome is the strong sense of security about their work that these men have developed as war safehtists.

ahall however overcome, I believe) in making our initial arrangements to ments. There are several reasons for this. Bayley lives guite far out of town in the country and is dependent on train schedules. Badeau lives at the furthest end of Bull and works during the day out of town and out of reach at lunch times and other times convenient to me. My house is out of the question for mesting (and typing) purposes as I have two others living with me. We shall probably solve these difficulties as we gain practice in the work.

With regard to photographs and biographical notes on Bagley and the others, Bacon and Badeau will provide them with their reports. It will supply Bagley's later. Bacon is a mathematics professor from Queen's University at Kingston, now a major in the army. Badeau is an electrical engineer who has worked in the engineering department of the Bell Telephone Company at Montreal. Fuller details later.

OPCANTZATIONAL LETTER ABOUT THE RESEARCH GROUP FROM BACK DATED 18-4-45

TENTON DES NATION ACTIVO OF LA LOI SUR LACOES

18.445 openies no 4- no 18.4.45

There is relatively little progressy to report since last time because of a series of unfavourable circumstances which have made continuous liaison with my people impossible.

As you will have realized, of was outhof town: for several days last week and was table to keep my appointment. Bacon was away from work for several days wither cold. Elt was inadvisable to see him at his home; to discuss matter with him; although I did vidit him there once to receive aireport from him. Badeau also made a trip; to Toronto during the one week when I was in town and relatively free to see him; and for the following week he was detained late at the office (laboratory) working on a special rush experiment. The prospectator myself over the next few weeks isn't any brighter, unfortunately to The tannouncement of the elections, earlier than expected by us, thas involved media a great deal of rush work which will keep medial Montreal all next week. This work, of course, has to be given priority; but it means that the time available for seeing my people is very severely out into especially when they might be busy on those times when I ham free.

This is not a very bright picture for the progress of our work. But it is the circumstances in which we find ourselves, and it is only to be hoped that work will ease up soon. Incidentally, I suggest that Jan's call to my office was not strictly necessary, since we already had the arrangement that the meeting would take place three days later if for any reason either party failed to turn up. However, it had this advantage, that it tested out the system of calling on the telephone, which was quite successful.

neporting in general on the work done since last meeting:

Bacon has given considerable thought to my original requests and has given me the material for the attached report. He offers to fill in any details that may be asked for if he can. I have not had the opportunity to ask him about payment.

Badeau was very disturbed when I brought up the subject of payment. I think he felt that it brought the subject of his work into a different (and more conspiratorial) focus. He was to think it over and let me know, but we have had no opportunity to meet since I was in Montreal in the interim. He is very slow in giving me any information, largely because he actually has not time to sit down and make a report. He offered me the printed report of the Research Councily but I assume that all this information is known or can be readily obtained from a Government library. The latest report he could get was also considerably out of date. He reported to me in words the general details of his own work. He is in the radio engineering end of things, specializing in radar. Current work, on which there was an emergency rush last week, is in connection with a battleship radar device for use in the Pacific.

Bacon's report. Lace life no liazinage only vibrate.

To Bacon has been personally responsible to a large extent for the bus preliminary works in connection with organizing C.A.R.D.E.

One (Canadian Army: Research : Division / Explosives) and This is an organization which is interprocessor being created. The will have both civilian and military personnel, but will be administered by the army. It is intended to be integrated with the various arsenals in Canada—at least two of which will probably be maintained permanently after the war.

CARDE will contain the followings

The chemical branch of NRC will have very little or nothing to do with it. It will have a large capacity and will be capable of experimental work with new explosives, both HE and probellants. It is not yet being operated; will be taken over by CARDE when completed. Probable director will be Englishman, Harold J. Poole, who is now acting director. He is a permanent divil sgrvant in the xplosives field. Said to be slow as an organizer and executive, but a competent technician. Bacon believes that this plant can be of tremendous importance and can improve production methods to meet changing needs. Canadian raw material situation very good.

(Bacon gave some information on present explosives plants and their capacity. This is probably well known. Can produce information if desired.)

B. Ballistics Laboratory. Under direction of Dr. Laidler.
This is the only part of the over-all project which is at present in operation. This section is working with the Department of Chemistry at Toronto University in experimenting with a variety of new propallants. They are using a new explosive "DINA" mixed with RDX as a component in propellants. DINA is intended as an alternative to nitro-glycerin. Americans are said to be very interested in one of these new peopellants called "Albanite". This is a propellant containing DINA and picrite as an alternative to the standard British propellant containing Nitro-Glycerin and picrite.

O. Designs Branch This will be mostly for designing small ordnance and will include a pilot plant.

D. Field Trials Wing. This will do the work which is now being done at Suffield and Valcartier by the Inspection Board of United Kingdon and Canada. They have a good scientific and do a good job of analysing faults and difficulties of manufacture.

Bagley: I had a very successful meeting with Bagley and he agreed to participate to the furthest of his ability. I also received an explanation of what I took to be his early reluctance to meet me. His wife teaches music, and on the frequent occasions when she has to be away from the house, he has to stay home with the children. He is unable to plan his free time very much in advance, hence the dufficulty in seeing him. He is interested in the work and immediately promised to be of ansistance. I gave him a full quota of tasks, and he promised reports on his work and on various other aspects of the general work at his place. Since first seeing him, I have been in bontreal, and on the two occasions I tried to get in touch with him for a progres, report, he was not available. He had promised to deliver his work in full in time for this meeting. He now informs me, horever, that he has not completed the work and will need snother ten days. He pleades extreme business as the reason. I know that they are very busy, and it is most difficult to persuade these fellows to give up the time. In fact, the are working to tight schedules and it is customary for them to work continually at a task until it is finished. I shall keep after him, and try to get the material within the ten days mentoned.

Baconi I s, ent a whole evening with Bacon, with most

Bacon: Is, ent a whole evening with Bacon, with most disuppointing results. I put the tasks to him, and on both of them he assured me he had nothing to offer. He claims that the electro-bomb is common knowledge to the Germans almassumes it must be so to you. He is unwilling to take any risk in obtaining rate it which he is convinced is already obtainable. I tried to persuade him to meet the demand any way, but he was unwilling to do so.

with regard to the general question on explosive development, he assured me that he has nothing to add to his former report. He is himself curious about the Chalk River plant and the manufacture of Uranium. He claims that there is a great heal of talk and speculation on the subject, but that nothing is known outside of the small and carefully guarded group completely in the know. He emphasized that he himself is as remote from this type of information as I am myself. His work is at a virtual standstill; and in any case, his work has been mostly in the field of dayslopment ifield improvements on ordinance, and not in the realm of explosive research. He maintains that there is a distinct division between research and divisionment. He expects his work to cease fairly soon, and wants to go back to tenching. This fellow is a mathematician, and not a chemist or physiciat, which may account for his remoteness from the details of explosive research. I shall continue to see him but he gave me definitely no encouragement last time.

nack: There is a delay in time before the arrival of baby. X-rays reveal that event won't take place until close to end of July. Ho information as yet as to future discosition in the army. Have Just been promoted on accountrof present work. An light to be at make Job at least for another month and probably longer.

Nos.	Keeping of Meetings.	Notes
5. 17.7.45.	The usual meeting took place. Everything was normal (see telegram of 18.7.45) Next [meeting) - 1.8.45) t - 21.30 Reserve - 2.8.45) t - 21.30 Reserve - Kontreal at the corner of Sherbrook and Guy, near the regular meeting took place. The regular meeting took place.	Given t FRANK \$200.
6. 1.8.45.	The regular meeting took place. Everything was normal. The DOCTOR was at the testing. All the business was transacted in the car.	Gave a bottle of whiskey
	I handed over the passport (of) V and four photographs with the wife. The final documentation may be completed in the first half of September.	
,	Idea for the change: The old picture of V (not of our man) will be taken out, in its place will be placed the photograph with the wife of our (man), but everything will be dated as of 1937. This is necessary for surety. After this the change to the new passport will take place, for this it is necessary to fill out two forms which will then be pinned to the old (one).	
PROVISIONESSED BY CSIS UNDER THE SCRISCHNOCK THE SCRISCHNOCK THE SCRISCHNOCK THE SCRISCHNOCK THE SCRISCHNOCK THE SCRISCHNOCK THE SCRISCHNOCK ACT ON DES VERTUROT.  A L'INDOBELA LOI SCRISCHNOCK LA LOI SCRISCHNOCK LA LOI SUR L'ACOÈS	Therefore it is necessary for V to have signatures on 4 forms, of which two are for his documentation of 1937 and two for the change of 1945.  In case of the change it will be necessary to find a reason for this, he (FRAM) suggests to burn half of the passport, to leave only the number, but this has not yet been decided, it is possible that it will not be necessary to do this as the executor (the person who does the job)

## (Translation of text covered by the note.)

Handed over 200 dollars. The passport has been detained. The forms were badly filled in. On the 16.12 he will give new ones. 16.12 at 21.00 I met (him) normally. He gave the new forms. We agreed on the transfer of ERNST. I gave the contact with MAT NANTINGALE. (probably means NICHTINGALE) I made (him?) acquainted with doctor HARRIS HENRY. I set the next (meeting) for 20.1.45 at 21.00 at the old place near the hospital if doctor HARRIS does not change it.

l. On the basis of previously communicated data regarding A.N. VEALE (an Englishman), we know that up to 1942 he worked in the meteo-service of the Royal Military Air Forces in Cambridge. After this he went to Canada on a scientific mission. Before his departure YRALE, allegedly (apparently), received instructions from his director (in the sense that he handled YEALE. Trans. note) to make contact with your corporation.

At the present time we would wish to know with more detail regarding VEALE, and it is therefore desirable that you enlighten us in written form for the next meeting (15.7.45) on the following questions:

- a. Does VEALE actually work in the meteo-service of the Royal Military Air Force in Cambridge and has his mission (sojourn) in Canada direct (obviously a word is missing and is probably connection: Trans. note) to his service in England.
- b. If these data are confirmed then try to draw VEALE out in frank conversation and put the straight question to him; What does he want from you.

CHAPTER 1
Introduction

### 1. Introduction

During the forenoon of September 7th, 1945, Igor Guzenko (Gouzenko), a cipher clerk for the Military Attache of the U.S.S.R. Embassy in Ottawa, called at the R.C.M.P. Headquarters expressing his desire to inform the Canadian authorities of certain untoward activities, his employers were presently engaged in, which he described as inimical and prejudicial to the welfare of Canada.

It transpired that he had been seeking interviews with the local press and certain government officials for the purpose of divulging certain information he had in his possession. These individuals apparently refused to give him a hearing and during his frustrated attempts he was referred to the R.C.M.P.

Prior to his contact with these Headquarters, certain information had been forwarded here to the effect that Guzenko, on the night of September 6th, had appealed to the Ottawa City Police for protection. He explained to that Police Department his fears for the safety of his family and himself from retaliatory measures his employers would take against him. During that evening a certain measure of protection was supplied by the Ottawa City Police.

When Guzenko arrived at the R.C.M.P. Headquarters he was in a highly agitated and emotionally disturbed state. In fact, he appeared close to a nervous collapse. Because of this condition his speech was rather incoherent and his train of thought and expression were confused to the point of being extremely difficult to comprehend. In spite of this, however, it was apparent that he wished to divulge certain information of an extremely important nature. Claiming that he had definite documentary proof to substantiate his statements, he produced numerous documents written in the Russian language. Even a most cursory examination of these documents left no doubt in the interviewing officers' minds that the information Guzenko wished to impart was of a highly impor-

Following the first interview with Guzenko and wafter consultation, it was decided to pursue the matter further It was quite apparent that complete protection should be given this man, his wife, who by the way is expecting enother child very shortly, and their twenty month old son, against retaliation from the Soviet officials here and particularly the secret police (N.K.V.D.). Appreciating full well that these persons would not refrain from total persecution or even hesitate at murder, protection was given Guzenko and his family. The purpose behind this move was actually two-fold, for these readquarters were convinced, from Guzenko's actions and temporary mental instability, that the weight of his precarious position would have driven him to the murder of his wife and final suicide.

SUP LA PROT

During interviews which followed the accepted protection and after Guzenko had become more rational and calmed, he was pressed as to his motive for his unusual move. A clear, positive view of his motive and purpose is contained in a statement voluntarily written by him. This statement was written in the Russian language and a true translation follows here:

### Statement

I, Igor Gouzenko, wish to make the following statement of my own will:

Having arrived in Canada two years ago I was surprised during the first days by the complete freedom of the individual which exists in Canada but does not exist in Russia. The false representations about the democratic countries which are increasingly propagated in Russia, were dissipated daily, as no lying propaganda can stand up against facts.

During two years of life in Canada I saw the evidence of what a free people can do. That the Canadian people have accomplished and are accomplishing here under conditions of complete freedom - the Russian people, under the conditions of the Soviet regime of violence and suppression of all freedom, cannot accomplish even at the cost of tremendous sacrifices, blood and tears.

The last elections which took place recently in Canada especially surprised me. In comparison with them the system of elections in Russia appear as a mockery of the conception of free elections. For example, the fact that in elections in the Soviet Union one candidate is put forward, so that the possibilities of choice are eliminated, speaks for itself.

While creating a false picture of the conditions of life in these countries, the Soviet Government at the same time is taking all measures to prevent the peoples of democratic countries from knowing about the conditions of life in Russia. The facts about the brutal suppression of the freedom of speech, the mockery of the real religious feelings of the people, cannot penetrate into the democratic countries.

Having imposed its communist regime on the people, the Government of the Soviet Union asserts that the Russian people have, as it were, their own particular understanding of freedom and democracy, different from that which prevails among the peoples of the western democracies. This is a lie. The Russian people have the same understanding of freedom as all the peoples of the world. However, the Russian people cannot realize their dream of freedom and a democratic government on account of cruel terror and persecution.

Holding forth at international conferences with voluble statements about peace and security the Soviet Government is simultaneously preparing secretly for the the third world war. To meet this war the Soviet Government is creating in democratic countries, including Canada, a fifth column, in the organization of which even diplomatic representatives of the Soviet Government take part.

The announcement of the dissolution of the Comintern was, probably, the greatest farce of the communists in recent years. Only the name was liquidated, with the object of reassuring public opinion in the democratic countries. Actually the Comintern exists and continues its work, because the Soviet leaders have never relinquished the idea of establishing a communist dictatorship throughout the world.

Taking into account least of all that this adventurous idea will cost millions of Russian lives, the Communists are engendering hatred in the Russian people towards everything foreign.

To many Soviet people here abroad it is clear that the Communist Party in democratic countries has changed long ago from a political party into an agency net of the Soviet Government, into a fifth column in these countries to meet a war, into an instrument in the hands of the Soviet Government for creating artificial unrest, provocation, etc. etc.

Through numerous party agitators the Soviet Government stirs up the Russian people in every possible way against the peoples of the democratic countries, preparing the ground for the third world war.

During my residence in Canada I have seen how the Canadian people and their Government, sincerely wishing to help the Soviet people, sent supplies to the Soviet Union, collected money for the welfare of the Russian people, sacrificing the lives of their sons in the delivery of these supplies across the ocean - and instead of gratitude for the help rendered, the Soviet Government is developing espionage activity in Canada, preparing to deliver a stab in the back of Canada - all this without the knowledge of the Russian people.

Convinced that such double-faced politics of the Soviet Government towards the democratic countries do not conform with the interests of the Russian people and endanger the security of civilization, I decided to break away from the Soviet regime and to announce my decision openly.

I am glad that I found the strength within myself to take this step and to warn Canada and the other democratic countries of the danger which hangs over them.

A possible motive other than the one expressed in his statement, but one remotely probable in the light of subsequent developments, was gleaned from Guzenko's detailed story of incidents prior to his visit to these Headquarters. He claimed that a few months prior to his break from the Soviet Embassy, he had been confronted with certain scraps of paper by the individual in charge of the secret portion of the Embassy which houses the various cipher rooms. This individual charged that these scraps of paper had been found lying around in Guzenko's cipher room by a charwoman. These scraps allegedly contained unfinished or rough drafts of messages written by the Military Attache. Being in charge of this particular cipher room, it was Guzenko's duty to make certain that no such scraps of paper or, in fact, anything of a documentary nature was left lying around where anyone other than the Military Attache and himself would have access to them. Consequently, Guzenko was held responsible for neglect.

A short time later he received instructions to return to Moscow and a date was set for him to hand over his official duties to his successor. Whether or not this development was a result of the "paper scraps" incident being reported through the usual channels, Guzenko is not in a position to say. However, with our knowledge of the machinations of the N.K.V.D., it is reasonable to suspect that it did have some bearing on the matter.

Even with the knowledge of this incident, Guzenko's behaviour since taken into protective custody and his oft repeated, adament expression of desire to have his information broadcast and publicized to Canada and all democratic countries has convinced these Headquarters that the motive explained in Guzenko's statement is the true one.

There is every indication that upon receipt of instructions to return to Moscow, Guzenko intended to comply, for he spent every cent in his possession on the purchase of suiting material and other articles of wearing apparel, which he intended to take back to Russia. From interviewing Guzenko, it is obvious that it was with considerable effort that he reached the decision to break with the U.S.S.R. It could well be that his wife offered the deciding factor in favour of his break, for it has been learned that she holds an equal contempt for the Soviet regime.

Guzenko was born in the vicinity of Moscow on January 13th, 1919. He is a rather well-educated and well-spoken individual. He never graduated into the actual ranks of the Communist Party but was a trusted member of the Young Communist League (Komsomol). Owing to the manpower shortage during the war years, confidential positions were thrown open to Komsomols and, as one of these, Guzenko received specialized training in a special department instructing in secret work. Before coming to Canada he had been attached to the Central Cipher Department of the Red Army Headquarters Intelligence Department.

The importance of a cipher clerk, in which capacity Guzenko was employed here, cannot be over-estimated. It will be appreciated that everything in the manner of despatches and messages passes through his hands and, because of this, he would be well informed on the plans and activities developed through arrangements or information transmitted to and from the Embassy. In Guzenko's instance, as will be learned from the information supplied, he was the cipher clerk for the Military Attache, Colonel Zabotin, who in reality was the Director of Russian espionage activities in Canada.

It may be interesting to note that persons employed It may be interesting to note that persons employed on secret work, such as cipher clerks, receive a secrecy bonus based on a percentage of their salary. In Guzenko's instance, he was receiving a twenty percent bonus which, added to his salary as a Lieutenent in the Red Army, afforded him a monthly pay of \$275. The paying of secrecy premiums or bonus is practised by the Soviet Intelligence and is calculated on the basis of service. Commencing with twenty percent of the salary, it increases on a graduated scale according to the length of time served in that particular capacity.

Guzenko has been thoroughly and extensively interrogated. He has been questioned and cross-questioned in an rogated. He has been quostioned and cross-questioned in an effort to extract every last particle of information possible. As he unfolded his story and explained the documents he had purloined from the Soviet Embassy, a thorough check was made and every possible lead followed up. It is of singular note to observe that the information supplied has been found amazingly accurate.

It is needless to point out that, by exposing a Russian espionage ring flourishing in Canada under diplomatic protection, Guzenko has performed a service to Canada of inestimable value and importance.

The following pages contain the information learned from Guzenko and the documents he supplied. Other information gained through subsequent investigation and checking is also reported here. For obvious reasons, Guzenko is referred to as "Corby" throughout the following chapters and the whole situation is referred to as "The Corby Case". SANGE MANO

CHAPTER 2
The Documents

## 2. The Documents

In has been described in the Introduction, that when COPBY came to these readquarters, he had in his possession numerous documents. These, he stated, would corroborate his contention that there existed an espionage ring in Canada under the direction and control of the Soviet Embassy in Ottawa. The documents in question are summarily dealt with in this chapter.

It will be observed, in perusing the following brief description of the documents, that they are of incredible value. CORBY's choice was obviously no result of a hasty selection. What he has presented to us is the fruit of a plan to take with him indisputable evidence. These documents are, however, merely a sample of the traffic in information pertinent to the security of Canada and the other democracies, gained through espionage activities and routed to Moscow through the Soviet Embassy here.

About a month prior to taking the final step, CORBY began collecting documentary evidence to take with him. From bundles of similar documents tagged for destruction by burning, he selected several which he thought would serve his purpose. Others he selected from piles of documents the nature of which were such as made checking extremely difficult. All of these CORBY ear-marked for speedy identification and then waited for his opportunity.

His chance came on the night of September 5th. At 7.00 p.m. he was to hand over his duties to his successor, KULAKOFF. CORBY collected those documents he had previously tagged. He then extracted from the safe three dossiers on important agents, and after sealing the safe left the Embassy with the selected documents on his person.

The collection of documents included the following:

CHAPTER 3
The Soviet Embassy at Ottawa

SECRET ACTIVITIES OF OFFICIAL REPRESENTATIVES ABROAD

33/01)

# 3. The Soviet Embassy at Ottawa

Information from well-informed and highly secret sources has, in the past, pointed out that the Soviet Government operates local espionage groups in various countries under the legal protection of the diplometic roof. Such information pointed out that the various missions abroad were pregnant with espionage agents of various departments in Moscow, who, because of the diplomatic protection enjoyed, were afforded a social and official status, allowing them contacts in the designated country they otherwise would find impossible or at least extremely difficult. These well-placed officials operate a network of agents within the country situated and make direct report to Moscow through the official channels provided by the embassy or legation as the case may be.

Over the activities of these "official" agents falls the sinister shadow of the NKVD (secret police) whose agents are so placed within the structure of the various missions as to have full knowledge of all activities in which the embassy officials are engaged. These agents, which the embassy officials are engaged so that even the true to NKVD policy, are secretly placed so that even the individuals with whom they work are not aware of their identity.

The information supplied by Corby more than confirms this previous knowledge. It offers a clear picture of the structure of such an espionage organization operating at present under the diplomatic protection of the embassy in Ottawa. The structure of this espionage ring in Canada entwines almost the whole structure of the embassy itself.

Attention is drawn to Chart 1, appended hereto, which was compiled from information supplied by Coroy. This chart outlines the various departments operating under the embassy roof. It shows that there are five separate groups. It will be observed that these groups come under the following headings:

- (i) Ambassador (Zarubin) responsible to the Commissariat for Foreign Affairs in Moscow.
- (ii) The Commercial Councillor (Krotov) responsible to the Commissariat for Foreign Trade in Moscow.
  - (iii) The Militery Attache (Col. Zabotin) responsible to the Director of Intelligence in Moscow.
  - (iv) Political (Gousarov), Third Secretary, responsible to the Central Committee of the Communist Party of the Soviet Union.
    - (v) NKVD (Pavlov), Second Secretary, responsible to the Chief of the NKVD in Moscow.

Besides these groups there is the Chief (Zheveinov) of Tass, the Telegraphic Agency of the Soviet Union. He, for the purpose of official business relative to the Telegraphic Agency, is responsible to his director in Moscow.

It will be observed in reading this Chart I that the heads of certain groups have their men posted in others; for instance, the Military Attache has a man posted in the Commercial group. This indicates the infiltration of one group into another for obvious reasons, one being that the Military man in the Trade or Commercial group could submit to the Military Attache information gained through the Trade group. By far the most extensive infiltration, however, is by the NMVD who are actually the "watchdogs" of the entire organization.

All departments in the embassy, and the Tass agency as well, have certain normal diplomatic duties to perform. But, as Chart 2 illustrates, these form but a small portion of the activities engaged in. This chart shows, from Corby's information, the types of overt and secret information collected by Soviet missions abroad. Not all departments, of course, employ agents for the collecting of illegal information. It is shown here that, of the six, only three operate agents or a network of agents, namely, the General Intelligence Headquarters of the Red Army which operates through the Military Attache abroad, the People's Commissariat for Internal Affairs (NEVD), which operates through its representative abroad who is usually the Second Secretary of the embassy, and thirdly, the General Intelligence Headquarters of the Red Fleet. In the latter instance it would appear that no particular attention has been paid to Canada and that most of the efforts have been concentrated on the Military Attache.

Each department in the embassy, while working together on normal diplomatic matters, is a separate group quite apart from one another when it comes to espionage activities. They have their own ciphers and cipher clerks, and any messages they forward to Moscow are kept entirely secret from one another. They are in no menner responsible to the Ambassador in this respect, although they are stationed within the embassy, as in the case of Gousarov, the Third Secretary, who is ostensibly beneath him. In fact, the position in the embassy structure is not at all indicative of the man's importance. This is particularly true in the case of Pavlov's (NKVD) men for whom all have the greatest fear, dislike but recard.

These departments are dealt with separately here-

# The Ambassador

Zarubin, the Soviet Ambassador to Canada, is ostensibly head of the embassy in Ottawa but, in reality, is merely a figurehead. He actually has nothing whatever to do with the activities of the other departments. His espionage activities are few and most of his efforts are devoted to the normal functions attending his position as ambassador. It must be accepted though that his official status in Canada does allow him access to secret information of value to Moscow and it must be presumed that he would forward such information to his chief in Moscow.

### The Commercial Councillor

Krotov, the Soviet Commercial Councillor in Ottawa, is chiefly concerned with information of an economic nature. This he gains through official channels, personal contacts, business relationships and the press and other means at his disposal excepting agents. Within his particular department are several who are suspected of being members of the MAVD. There is also one Major Sokolov who is known to be also employed by the Military Attache (Zabotin). It is known that, prior to Colonel Zabotin coming to Canada as Military Attache and, as such, taking over the espionage ring, Sokolov operated a network agents for the Red Army Intelligence. When Zabotin took over, however, Sokolov was transferred to the Commercial or Trade Department and, judging from his past activities, there is no doubt that he is engaged in collecting secret data and information through trade channels which he is forwarding to Moscow through Zabotin.

### The Political Department

This department, which is reported as being under the Third Secretary, Gousarov, is undoubtedly the Canadian hinge of the supposedly abolished Communist International. Considerable information has come to hand from reliable sources definitely indicating that the "Comintern" was never abolished but merely suffered a reshuffle and slight change in operation. It is obvious that Gousarov is the "Comintern" representative in Canada.

Gousarov had no diplomatic training and had never worked in the Commissariat for Toreign Affairs prior to coming to Canada. In Moscow he had been holding an important position in one of the departments of the Central Jonmittee of the Soviet Union. He makes report direct to Melenkoff who is a member of the all-powerful Political Committee of the Communist Party of the Soviet Union. His function in Canada as "Comintern" representative is actually two-fold:

- (a) the political control and supervision of all Soviet citizens abroad and more particularly members of the Communist Party.
- (a) contact with local Communist Party heads and, no doubt, control of the policies followed by them.

### Tess

The Chief of Tass (Zheneinov) in Canada is in reality one of the Military Attache's men and, apart from his usual duties, is engaged in cathering and supplying information for Labotin's department.

## The NKVD

Wherever the tentacles of the Communist Perty of the Soviet Union penetrate or operate the NKVD is ever present. In 1937 Stelin stated, "the secret service will save the Government". This is the contention expressed that on the shoulders of the Security Service rests the safety of the Soviet State. The NKVD is the "secret service".

It is an ell-powerful organization with arents secretly placed in the structure of every portion of the Soviet State, whether at home or abroad. As previously stated, the NIVD agents are feared and hated but nevertheless held in regard by even the highest of Soviet officials and Party members. They are the "watchdogs" of the Soviet State, ever spying on the activities of Soviet officials and representatives. No mistake, misdemeanour or untoward action, intentional or otherwise, is overlooked by the NAVD but is reported direct to Moscow. NKVD directions to even the most highly placed official demand immediate at-

In Canada Vitali Pavlov, placed as Second Secretary in the embassy, is actually the Chief of the NKVD here. Waking reference to Chart 1 it can be seen that his men are present in all departments within the embassy. They are placed in all manner of subordinate positions such as chauffeurs, guards, interpreters, etc.

The functions of the MC/D are entirely secret and fall in two categories:

### (a) Counter-espionage

- (i) Counter-espionage inside all Soviet organizations.
- (ii) Counter-espionage against all foreign intel-ligence and security agencies.

# (b) Political Intelligence

(i) Obtained through agents.

(ii) Obtained through the press or by other means.

The NKVD conduct espionage activities as shown above but mostly of a non-lilitary nature. Corby stated that Pavlov had fairly complete information on the set-up within the R.C.M.Police although there was no reason to suppose there has been any actual penetration into that organization.

There is every reason to believe that some of the personnel in the Military Attache set-up may also be working for the NKVD. For instance, the Military Attache's chauffeur, is known to do some contacting of agents for the Carshkov, is known to do some contacting of anomal for a still itary Attache but is also believed to take orders from Paylov (NKVD) on security matters. Positive indications that the NKVD and the Red Army Intelligence, both at A L'INFORMAT Partow INDV 100 and the Red Army Intelligence, both at a home and abroad, work together considerably in some respects.

# The Military Attache

By far the most important and active Soviet espionage organization in Canada is under the control and direction of the Military Attache, Colonel Zabotin. It is the policy of the Red Army Intelligence in Moscow to operate through the Military Attaches abroad. Thus, in order to thoroughly understand the local operations and true nature of their activities, it is necessary to be familiar with the structural set-up of the Red Army Intelligence Headquarters in Moscow. This is fully explained in the following chanters with references made to accompanying charts.

### CHAPTER 4

Organization of the Red Army General Intelligence Headquarters

## 4. Organization of the Red Army General Intelligence Headquarters

As Corby was employed within the structure of the Military Attache's department in Ottawa, which in reality is a local ramification of the Red Army General Intelligence Headquarters in Moscow, he has been able to afford us reliable information on the structural set-up and activities of that department. From the information so gained and from other reports, previously received from highly secret sources, the following description and chart (3) has been drawn.

The information available at present is by no means complete. Yet it is sufficient to provide a comprehensive picture of the most active and most important divisions of the Red Army Intelligence in Moscow. It would appear that the General Intelligence Headquarters of the Red Army is not identical with the old Fourth Department (Rozvepder) of the Soviet Military Intelligence which has now been abolished. It is obvious, however, that the Intelligence Headquarters now in existence is its successor and that it employs many of the same methods of operation, e.g. the practice of operating through Military Attaches and Red Army officers.

Under the old set-up the Headquarters was in two divisions which were known as the First and Second RU. Over these two divisions was the chief section which was known as GRU. The First RU dealt with intelligence of a strategic nature while the Second RU dealt with intelligence of a reconnaissance nature. The latter would appear to be operating only during war times and dealing with intelligence pertinent to actual warfare. It is presently believed that the Second RU has been transferred from the jurisdiction of the Red Army Intelligence Headquarters to that of some other department.

At present the head of the Intelligence Department is Colonel-General Kusnitzov who is referred to as the Chief Director. The Assistant Chief Director, who is more particularly concerned with political matters and morale, is Ajor-General Kissilov.

Within the intelligence structure there are several departments, but the one actually directing the collection, receiving and distribution of information is shown on the left of Chart 3. This department is divided into two divisions the Operative Division and the Information Division. Both of these divisions are composed of geographic directions, e.g. Western European, Eastern European, etc., which are, in turn, sub-divided further. For instance, the American Direction would include Canada, the United States, Central and South America.

### Operative Division

There are many hundreds of individuals employed in this division. Their major task is to organize a network of agents abroad and to collect the information so gained. Under this division are secret "directions" which are in turn divided into sections covering specific countries within that direction.

The staff allocated to work on a particular country usually consists of three or four men. They maintain a filing system which holds a personal card or file of data on every agent employed by the Red Army Intelligence in that country. This file contains all possible information concerning that agent together with remarks on his trustworthiness, what work he has done for them, what payment he has received for his information or whether he has given it as a patriotic gesture, etc., etc.

### Information Division

This division is similar in structure to the Operative Division, also employing a very large staff. It maintains a complete complement of specialists in every field, such as economics, politics, science, etc. This is the division which evaluates, develops, etc. and forwards the information received from abroad to the proper departments. Because this division is of particular significance in the Corby case, it is dealt with more fully later on under the description of Chart 4.

### Special Duties Division

The Special Duties Division deals with operations regarding agents which do not come under the Operation Division. It has to do with agents sent abroad on special missions.

### Special Technical Division

This is, as the name implies, a technical division and is divided into three sections. The Division of Documentation is responsible for the manufacturing and doping of all illegal passports and documents. The Photographic Laboratory develops all microfilm and film received from abroad. This laboratory also prepares all film for delivery abroad and, of course, engages in all types of photography and photographic work within the USSR. The special Secret Laboratory is charged with the responsibility of producing counterfeit money and the like. It is in this laboratory that the poisons are produced for use in disposing of individuals whose liquidation is required by that means.

# Personnel Division

This division is responsible for all personnel in the entire department. It deals with the promotions of all personnel and maintains complete files on their trustworthiness, competency and such pertinent information. This division is responsible for the allocation to posts abroad and the despatch of official staff to Military Attaches.

### Education Division

The Education Division is of considerable interest owing to the care and attention which is obviously peid to the training of agents and staff alike. Corby himself attended special studies in an Espionage Course (Kursy Razvedtschikol) which was under the direction of the Education Division. This Education Division is closely connected with the Special Academy of the Red Army and other special schools. According to Corby, one of these schools works in conjunction with the Institute of Foreign Languages although the Institute itself

has no direct connection with the Intelligence Department.

Another section of the Education Division apparently controls a special <u>secret library</u> of General Intelligence Headquarters reports. Access to this library may be obtained only with permission from the head of the library who may be approached only by the chief of the division.

### Special Communications Division

This division is divided into a number of sections. The first section is responsible for the despatch and receipt of all code telegrams received from Military Attaches and illegal agents abroad. This section is itself divided into three shifts end maintains a 24-hour working schedule.

The second section of this division is responsible for the development of new cipher systems and it can be assumed that they would also work on the breaking down of foreign codes. They also deal with clandestine methods of communication, such as book ciphers, held by illegal agents.

The third section is responsible for the distribution of messages and the maintenance of archives. This section is entrusted with the safekeeping, delivery and destruction of all telegrams received by the first section.

### Adminstration Division

This division is entirely separate from the Personnel Division end is divided into a number of sections. The first is the Special Equipment Section which is responsible for equipping all legal staff and illegal agents. Here all persons sent abroad legally or illegally are equipped with, as in the case of illegal agents, suitable clothing, luggage and personal belongings manufactured in the country to which they are being despatched. Thus equipped, an agent travelling to the U.S.A. would arrive there fully outfitted with articles of clothing, etc. manufactured in that country.

The Food Section is responsible for the messing of Headquarters staff and for the allocation of rations for returning and departing agents.

The Carage Section is in charge of the transportation of Headquarters staff. It is this division that takes cere of all the cars used by the personnel within Red Army Intelligence Headquarters.

### Financial Division

The Financial Division is responsible for the payment of all Headquarters personnel, all staffs abroad and for the financing of all operations undertaken.

### Radio Communication Division

This division is entirely separate from the Special Communications Division although messages are received from clandestine W/Ts abroad and passed to the Special Communications Division for decoding. The Radio Communication Division is also responsible for the training of radio technicians who are to be sent abroad. It may be mentioned in passing that

the standards demanded in this particular field are extremely high and the students have to be complete masters of radio before they are passed.

### The Division of Foreign Relations

The Division of Foreign Relations of the People's Commissariat of Defence (NKO), while officially under the direction of the NKO, is, according to Corby, actually controlled by the General Headquarters of the Red Army Intelligence. Originally this division was responsible for relations with the Military Attaches of foreign countries whilst in the USSR and also for the official and legal work of Russian Military Attaches abroad. However, friction apparently arose between this division and the Operations Division and, as a result, the control of Russian Military Attaches abroad was transferred to the Operations Division. Now the Division of Foreign Relations is solely concerned with the entertainment and the organizing of receptions, visits to schools, etc., for the foreign Military Attaches in Russia.

The general impression of the Red Army Intelligence Headquarters, obtained through Corby, is that it is an extremely efficient intelligence system, demanding the highest standards of work and security but suffering partly from over-centralization. One aspect of the organization is worthy of particular note however. That is that the entire structure appears to be extremely fluid. Corby stresses the youth of the personnel employed, stating that the average junior officers are in their twenty's and it is rare to find even a senior officer over the age of forty.

### 5. Information Division of the Red Army General Intelligence Headquarters

The approximate structure of the Information Division of the Red Army General Intelligence Headquarters in Moscow is outlined in Chart 4 which is appended hereto. As previously described, this division is sub-divided into geographic directions each of which are, in turn, divided into sections allocated to various countries. For instance, the American Direction has been used as an example for this chart. It is composed of sections covering Canada, the United States, Central and South America.

The Information Division is charged with the responsibility of collecting and distributing reports received. These reports are usually forwarded through Red Army General Intelligence Hesdquarters to the department concerned. However, according to Corby, reports are, on occasion, forwarded directly from the Information Division to other departments.

This division maintains a very large staff of specialists in almost every field. Corby mentions specifically Military, Air Force, Armament, Political and Economic sections together with various unspecified groups. These sections are, when necessary, in touch with expert groups which may be apart from the actual structure of the Intelligence Headquarters. Thus, the Military Group maintains contact with, among others, the War Academies of the Soviet Union; the Political Group with the Institute of World Economics and Politics, and so on. In this manner the Information Division has at its disposal a wide variety of special institutes, academies and technical groups.

To explain the operation of the Information Division we will use three hypothetical cases.

1. Supposing Colonel Zabotin, the Military Attache in Cenada, receives a report concerning Military effairs in Canada. He will at once forward it to his chief in loscow. Canada. He will at once forward it to mission from The report finds its way to the Information Division from where it is passed to the "American Direction".

The report is "developed" and all information contained therein which duplicates reports previously received is deleted. All indication of the methods used in obtaining such information and the source from whence it came is also deleted so as not to divulge the identity of any agent employed.

> The re-arranced report is then forwarded to the Special Institute where it is again perused by a ilitary Group under that division. This illitary Group is much more capable of making a detailed study of the report as they are all specially-trained experts and deal with Military information from all points in the world. This group directs and reconstructs the information in the light of other reports and information on their files.

ARVIGE ON

The final report is then passed to the Publishing Department under the Special Institute where it is printed. Copies of the report are then forwarded, through the General Intelligence Headquarters, to the General Staff of the Red Army. If found necessary, the report will then be forwarded to Stalin himself.

- Supposing Colonel Zabotin receives information regarding the armament of a tank in the Canadian Army. This is immediately mailed (complete) to Moscow where it lands in the Information Division. The material is forwarded from that point direct to the "Technical Group (war)" shown at the bottom centre of Chart 4. The report is then studied in detail by this group to determine
  - (i) the importance of the invention;
  - (ii) the possibility of equipping the Red Army tanks with it;
  - (iii) the possibility of commencing mass production, and so on

The information is then forwarded to the Academy of Science where further developments are made. The Red Army Intelligence is notified regarding what action will be taken, if any, i.e. where it will be utilized and how.

Supposing Colonel Zabotin receives information of an economic nature touching on relations between Great Britain and Canada. In this instance it is usual for the report to be translated from English to Russian by the steff of the Military Attache in Canada. If, however, the report contains valuable information of an urgent nature, the important parts are extracted and forwarded direct to Moscow by cable. This cable reaches the Red Army Intelligence Headquarters and is forwarded direct to the People's Commissariat for Foreign Affairs or the People's Commissariat for Foreign Trade as the case may be. The chief of these departments then takes the report, as received, direct to Stalin himself. On matters of extreme urgency, however, the cable will so direct from the General Intelligence Headquarters of the Red Army to Stalin.

The original report received in Ottawa, if sent by mail, travels the following route: the Information Division - American Direction - Canadian Section - Economic Group - Special Institute - Economic Group of the Special Institute.

The Economic Group, on the basis of other material they have on file, complete and develop the report, then forward it to the Institute of World Economics. It is then used as a basis for economic research. Sometimes the Institute publishes these reports but in such a manner as to disguise the origin or means by which the original report was obtained.

### The Atomic Bomb Project

It is common knowledge that Moscow is extremely anxious to obtain the secret of the atomic bomb. Itcan safely be assumed that in view of such an urgent and important desire there must exist a division devoting its time and resources exclusively to the project.

It will be observed that Chart 4 is drawn up representing only the American Direction. There are four other such directions within the structure of the Information Division, namely, Western European - Eastern European - Balkan - Far East - Middle East. These directions, six in all, have similar structures and as a complete division take in and cover every country in the world.

### CHAPTER 6

Soviet Military Espionage Organization in Canada

## 6. Soviet Military Espionage Organization in Canada.

It is obvious from CORBY's information that the Military Attache and staff are the most active group engaged in Soviet espionage activities in Canada. Positive proof has been supplied pointing out many of the agents employed and the nature of their activities together with certain of the reports they made to the Military Attache. From these documents, which are, it must be appreciated, but a few selected from piles of many, is indicated the extensive scale of activities in which that department is engaged.

CORBY emphatically declares that Soviet Russia is preparing for another World War. This declaration is certainly borne out by the latest telegraphic instructions from Moscow which read in effect:-

- "(i) Satisfactory fulfillment of all previous tasks.
- (ii) To the end of 1945 all resources must be mobilized to discover construction and application of Atomic Bomb.
- (iii) All other tasks remain as mentioned in previous despatches.
  - a) ARMY: Total resources of Canada; characteristics of Canada's mobilization capabilities accumulated as a result of this war; how lessons applied; total casualties; disposition of demobilized personnel, etc.
  - b) AIR FORCE: Mobilization capacities--number of planes available--training capacity--how many training centres will be kept in operation--what reserves are being maintained--what industries will be kept in readiness for production of air crafts."

be kept in real air crafts."

The very nature and thoroughness of these demands are sufficient criteria of Moscow's intentions and motive. These instructions also indicate the scope of work delegated to the Military Attache here.

"Cover" names are used throughout the entire network of agents and contact men. Even the mbassy is referred to as "Metro" and a hiding placed is named "Dubok". In the following pages the cover name applicable appears in brackets following the true name. Colonel ZABOTIN (Grant) is the Lilitary Attache and head of the espionage ring in Canada. His assistants are described in the following pages and the network of his agents in Chart 5.

### Colonel Zabotin's Personnel and Their Functions

Zabotin arrived in Ottawa to take up his post as Military Attache towards the latter part of 1943. He found, on his arrival, the nucleus of a network under the direction of Major Sokolov and Sergei M. Koudriavtzev. This original network was organized in the autumn of 1942 and re-organized by Zabotin and will be found described on Chart 6. Sokolov and Koudriavtzev worked mainly through Fred Rose and Sam Carr who may aptly be described as their recruiting agents. Zabotin modified the set-up basically by establishing direct relations with the more important agents. He had, however, strict instructions not to compromise himself in any way and not to contact the agents personally. He used various members of his staff for this work, among them the following:

### Major Vassili M. Rogov (a)

Thirty-two years old, graduated in 1935 from the Air Force School. He is Assistant Military Attache for Air.

Under the cover name "Brent" he handles the most important contacts including:

- (i) Sam Carr with whom he gets in touch via a doctor Harris of Toronto. Rogov took over this contact from Mortinov on 7.5.45.
- G. Lunan, to whom he was known as "Jan". Through Lunan he directed the Research group. Later on Lunan put him directly in touch with
- Durford Smith when it was decided to run (iii) this man as a direct agent.
- Ned Mazerall, cover name "Bagley", who belongs to the Lunan group.
- Matt. S. Nightingale, formerly Squadron Leader in the R.C.A.F. and now occupying a very important position at Bell Telephone Company,

Lieut.-Col. Petr Mortinov

Lieut.-School in 19 SUR CAROTEON Thirty-eight, has been in the Red Army since 1926.
He graduated from the Military School in 1929 and from the
Frounze Military Academy in 1938. He is Assistant Military Attache, Sun Man

According to Corby, Mortinov used the name "Lamont". He too was in touch with Sam Carr until May, 1945. He also contacted Colonel Letson.

In the early summer he was entrusted with the mission of flying a sample of uranium to Moscow, and has not since returned to Ottawa.

He was also in contact with Hermina Rabinowitch and through her with the group operating in Geneva, Switzerland.

### Major Vsevolod Serreyevitch Sokolov (c)

Left Moscow on the 16th of October, 1941. He travelled via Murmansk and arrived in Canada as a civilian. His exact date of arrival is not known but it is believed that, previous to coming to Canada, he lived in New York for some time. He was stationed in Montreal before moving to Ottawa and worked at the "Locomotive Works", probably in connection with lend-lease on behalf of the Soviet Government of the Soviet Covernment of the So ment. He was later made a Captain (Engineer) and was then promoted to Major. He was eventually attached to the office of the Commercial Attache but remained a member of Zabotin's staff for espionage purposes. Known under the cover name "Davy" he ren the following agents:

- Emma Woikin (through Mrs. Sokolov).
- (ii) Fred Rose.
- (iii) "Freda".
- (iv) Professor Boyer who received information from a man named Edwards. (iv)
- "Green", described as an official of the Locomotive Works.
- (vi) A "Freda". Arthur Steinberg, through Fred Rose and
- "Berman" believed to be identical with (vii) Samuel Saul Burman who enlisted and went Overseas in September, 1944.

He was detailed by Mortinov to take care of the contact with Hermina Rebinowitch. He was also in touch with Sam Carr.

Also listed as a collaborator of the Military Attache, his appointment dating back to November 1943. Using the cover name of "Menri" he contacts J.S. Benning. Gousev acts as doorman of the building occupied by the Military Attache. Believed to be a member of MXVD.

### Dr. Allan Nan MAY, cover name "ALEK".

The identification of the above named, under the cover name "ALEK" was made by CORBY. This is confirmed by our knowledge of MAY's movements, etc.

Dr. MAY is a British scientist, born in Birmingham, 1911. He came to Canada in 1943 with a group of Physicists to work on the atomic project. CORBY states that MAY has been in the pay of the Soviet Intelligence Service for many years and that he was a secret member of the Communist Party in England. CORBY adds that this became known to some of MAY's colleagues but they did not consider his political opinions should interfere with his work.

Following his arrival in Canada MAY was left strictly alone for some considerable time. About eight or ten months ago Colonel ZABOTIN was instructed by Moscow to establish contact with MAY, who was assigned the cover name "ALEK". Moscow also supplied the passwords "Best Regards from Michael". This indicates, of course, that MAY had been briefed before leaving England and instructed to wait until contacted. Moscow suggested to ZABOTIN that contact be established through Fred ROSE, ZABOTIN however felt this would be unsafe and suggested that he use Lieut. ANGELOV, one of his assistants. This was approved and ANGELOV was given the cover name "BAXTER". The first meeting was of a formal nature.

At the second interview MAY gave ANGELOV a hand-written survey of the whole set-up respecting atomic research in the U.S.A. and Canada, so far as it was known to him. A digest of his report was forwarded to Moscow by cable, the actual survey being sent by bag. MAY's instructions at this time were more closely connected with uranium and atomic energy than with the bomb itself.

At the third meeting MAY gave ANGELOV a container labelled:- "22" or "250" "enriched". Colonel ZABOTIN removed this and asked CORBY to translate the word but he was unable to do so. Colonel ZABOTIN thereupon wired the information to Moscow and destroyed the label. A Colonel, probably Colonel Motinov, Assistant Military Attache, flew to Moscow with the Container. CORBY still believes that Uranium 235 was involved though he has no actual proof of the fact. At the same meeting MAY reported on developments to date.

Shortly after the bombing of Hiroshime, ZABOTIN wired to Moscow a short report submitted by MAY giving some details of the scientific features of the bomb. ZABOTIN added that MAY had provided a sample of about 160 micrograms of U.233 and CORBY, independently confirmed this fact.

It has been ascertained that MAY had access to small quantities of U.233. He did not have access to U.235 in Canada but it is believed that he may have obtained some in Chicago as he had access to all data respecting the production of uranium for the atomic project. It is therefore possible that the first sample was actually U.235.

26

MAY also supplied information respecting the use of electronic shells by the U.S. Navy against the Japanese. This brings to light two significant features:-

- (a) MAY is concerned with the atomic project, not electronic research. He was, however, asked by ZABOTIN for information on this subject. It is possible that he obtained same from a colleague or he may be operating one or more sub-agents in fields where he did not have direct access.
- (b) ZABOTIN's telegram to Moscow respecting the electronic shell stated it was an American development, information on which had not been passed to the British. Inferentially, therefore, the information was obtained from an American contact.

About the middle of July, 1945 it was learned that MAY was due to return to England to work in King's College, London. This is correct and it is understood that MAY was to take charge of an important project in England.

ZABOTIN immediately notified Moscow and he was instructed to provide a password and brief MAY, so that he could be contacted in London. ZABCTIN was also asked if MAY felt he could be of more use to them in England or Canada and if he could arrange to remein in Canada. ZABOTIN replied that MAY could not and outlined the contact plan worked out with MAY.

Briefly, this dealt with contact taking place in Briefly, this dealt with contact taking place in front of the British Museum at 11 p.m. on either the 7th, 17th, or 27th of October. MAY would have a newspaper in his left hand, the password to be "Best Greetings from Michael". ZABOTIN also reported that MAY would visit the Chalk River unit of the atomic research development prior to leaving Canada and that he had given MAY \$500. Canada and that he had given MAY \$500.

7. 00 SA 1. Cheracteristically, Moscow advised ZABOTIN on August 22nd that sufficient thought had not been given to arranging the London contact and issued more precise details. Generally speaking, the contact was made more complex and thus more secure.

MAY did visit the Chalk River unit prior to his departure for England, by air from Montreal on September 16th.

COREY confirmed his statement by producing no less than nine documents which included telegrams sent by Moscow to ZABOTIN and from ZABOTIN to Moscow.

State Tork

 Sam CARR, cover name "SAM" until 1943 when it was changed to "FRANK". CARR was also known as "MALTER" to NIGHTINGALE.

Sam CARR, whose true name is COHEN, is a Jew, born in Russia on July 7, 1906. He is married to Julia Collins, who was herself a member of the Young Communist League. CARR has been a paid Communist functionary for many years.

CARR came to Canada in 1924 and in 1925 was an organizer of the Young Communist League. In 1929 he proceeded to Moscow to attend the Lenin Institute and he remained there until 1931.

Shortly after CARR returned to Canada he was convicted, together with other leading Communists, of seditious conspiracy (2 years) and being a member of an unlawful association, C.P. of C., two charges (5 years). On appeal the conviction for seditious conspiracy was quashed, the other conviction being confirmed. Following this conviction CARR's Naturalization Certificate was revoked but as a result of continued representations he again became naturalized in 1945.

In 1937 CARR took an active part in the National Training School of the Communist Party of Canada. He visited Spain and in 1938 became Organizational Secretary of the Communist Party.

From 1939 to 1941 CARR was exceedingly active underground and wrote numerous disloyal anti-war articles for publication in the Communist Press, not only in Canada but in other countries. An Order for his detention was obtained under Regulation 21 of the Defence of Canada Regulations, which was executed on September 25, 1942, when he surrendered at Toronto. He objected to his detention and was conditionally released on October 6, 1942.

In August, 1943 he was elected a member of the National Committee of the newly formed Labor Progressive Party (Communist Party of Canada) and at the same time was appointed National Organizer, which office he still holds.

corby reported that in October, 1942 CARR was contacted by Sergei N. KOUDRIAVTZEV, First Secretary of the Soviet Legation, who under the cover name "LEON" arranged for CARR to co-operate with Major SOKOLOV who was then organizing an espionage network. CARR was placed at the head of the Toronto-Ottawa Group. Eventually he acted as a recruiting agent and ran several of such agents in the early stages. Documents submitted by CORBY reveal that CARR recruited Lt. SHUGAR (PROMETHEUS), Jes. BENNING (FOSTER), S/L NIGHTINGALE (LEADER) to whom CARR was known under the cover name "WALTER", and Eric ADAMS (ERNST).

CARR was also used for specialized jobs, one of these was to secure a new passport for a Soviet agent in the United States mesquerading under the name of Ignacy WITCZAK. Another special assignment was the securing of contacts within the General Staffs.

During the period that Sam CAPR worked under Major SOKOLOV he was one of the latter's two main agents. Later, when Colonel ZABOTIN took over from SOKOLOV, direct relations were established with some of CARR's agents.

Major ROGOV was ZABOTIN's main contact with Sam CARR and he, using the cover name "ERENT", contacted CARR through Dr. HARRIS of Toronto. On some occasions Lt. Colonel MORTINOV was also used as a contact, under the cover name "LAMONT" until contact was taken over by RCGOV in 1945.

When CARR originally worked with SOKOLOV he was, in addition to being charge of the Toronto-Ottawa Group, in direct control of two other agents, one of whom has been tentatively identified as S/L POLAND of the R.C.A.F. and "SUREJEL" who has not yet been identified.

In April, 1944 two Soviet Diplomatic couriers arrived in the United States. One of these was namedMILSKY, an Inspector General of the Intelligence Department of the Red Army, whose real name was MILLSTEIN. MILSKY conferred with Sam CARR at some length respecting the obtaining of passports, identity documents, etc.

COREY submitted a number of documents covering Sam CARR's activities, the interesting features of which are mentioned hereunder.

Colonel ZABOTIN's Registration Card concerning CARR contained brief details respecting his identity, one item mentioning that he had finished the Lenin School in Moscow. CARR's photograph also appeared on this card.

Another document concerned Sam being in charge of the Toronto-Ottawa Group when he was known as "FRANK". It also contained an entry concerning CARR, J.S. BENNING (FOSTER) and Eric ADAMS (ERNST) and CARR's two agents POLAND and SUREJEL.

Another document revealed that the contact with ADAMS and BENNING was MARTIN (ZHEVEINOV).

CORBY also submitted an itemized record of meetings with CAPR which were arranged through Dr. HARRIS. On various occasions assignments were supplied to CARR.

One of these was intended for Lt. SHUGAR (PROMETHEUS) which asked for information regarding hydro-acoustic stations, etc.

On another occasion CARR was asked to supply information respecting Norman VEALL and CARR was asked to contact him. CARR was warned not to show any pronounced interest in any information VEALL might supply. In this regard the NKVD knew that VEALL had carried a letter from a Party member in England when it should have been destroyed and, therefore, decided to have no further contact with him. CARR was also asked to report on fulfilment of the assignment for Lt. SHUGAR and if a Captain GOTHELL of Kingston "might possibly be used in our work". At the same time CARR was asked on the possibilities of developing work in the three branches of the Armed Services and that he should "extend your maximum efforts in this direction". CARR was also supplied with assignments for Eric ADAMS (EMST).

CORBY also supplied documentary evidence establishing that CARR prepared a number of biographies of government workers consisting of some 46 pages which were forwarded to Moscow.

One of CARR's most important assignments was to arrange for the substitution, in the Passport Office file, of a new application and photographs in the case of Ignacy WITCZAK, so that a new passport could be secured in the normal way. Several meetings were held to discuss ways and means of accomplishing this end and on various occasions CARR was paid \$200. CARR had apparently arranged to bribe an employee in the Passport Office to make the substitution, for a price of \$3,000.

### 3. Dr. Henry HARRIS -- no cover name.

Complete details respecting the place of birth, etc. of Dr. Henry HARRIS are not available but it is known that he arrived in Canada in 1919, from New York via Niagara Falls. He is a Jew, aged approximately 52. He is married and is an Optometrist by profession.

Dr. HARRIS has been connected with the Communist Movement since 1930 but he has always remained in the background and on many occasions has rendered assistance to the Communist Party of Canada. He handles practically all the optical work for Party members in Toronto. HARRIS has also been connected with financial backing for the Communist Fress.

It has been known for some time that HARRIS enjoyed the confidence of Party leaders such as Tim BUCK and Sam CARR and it is now clear, from CORBY's statement, why HARRIS has remained in the background to avoid coming to general notice.

From the documents submitted by CORBY in connection with Sam CARR, it was established that HARRIS was one of the principal members of CARR's Group. HARRIS was also conversant with the passport matter and was present at many meetings with Sam CARR on the subject. Some of the meetings were actually held in the apartment of Dr. HARRIS.

The method used in contacting CARR was for Sergei N. KOUDRIAVTZEV to telephone to HARRIS and give him the password, following which CARR would be advised and be present at the place and time arranged for the meeting.

In addition to KOUDRIAVTZEV, Dr. HARRIS was contacted by Lt. Colonel MORTINOV, but the contact was transferred from him to Major ROGOV during May, 1945.

Our records also reveal that Dr. HARRIS was, in 1937, Financial Secretary of the Court of Ahavas, Achen, a Jewish Court of the Independent Order of Foresters and that he supplied a letter of introduction to a resident of New York City for one Arthur ADAMS who, it was later learned, was a Soviet agent.

### Ignacy WITCZAK

Corby furnished the following information:

Several years ago the Soviet authorities in Moscow sent a man to North America on some special mission. This man, a Polish Jew, was equipped with a passport made out in the name of Ignacy WITCZAK and, under this name, he is now a student at the University of Los Angeles, California. A few months ago the Director of Military Intelligence at Moscow instructed the Military Attache of the Soviet Embassy at Ottawa to secure a renewal of the passport in the possession of the man referred to above as Ignacy WITCZAK. In conformity with these instruction, Lt. Col. ROGOV, now Assistant to the Military Attache. contacted Henry HARRIS Several years ago the Soviet authorities in Moscow Assistant to the Military Attache, contacted Henry HARRIS and through him, SAM CARR, both of Toronto. Several meetings were held between ROCOV and the two aforesaid men with a view to complying with the wishes of Moscow. In order to obtain a renewal or a new passport, Sam CARR reported that it would be necessary to spend \$5,000 to "fix" an official of the Passport Office, who, for such consideration, would falsify the passport records. This official, who has been referred to as "The Executor", is a male member of the staff of the Passport Office of considerable standing and long service, and had expressed his willingness to comply with their wishes on payment of the sum mentioned. This was conveyed by telegraph to the Director of Intelligence at Moscow and the latter replied that the amount quoted was too high and that the collaborator in the Passport Office should be satisfied with a payment of 3,000. Subsequently Sam CARR reported that he would not be able to bribe the official in the Passport Office for less than \$3,000. The passport in the possession of WITCZAK having been expired, Moscow pressed for immediate action and stated that no further delay was possible. Doubt was expressed as to whether a renewal could be obtained and the suggestion was put forward by CARR that it would be better to have a new passport issued. In order to do so it was imperative that the records contained in the Fassport Office file covering the issuance of the original passport be altered to fit the requirements of the present holder. ROGOV reported that this transaction would be completed during the early part of September, 1945.

# Documents:

Corby supplied a number of documents taken from the Military Attache's files. These are in the Russian language and the following are translated excerpts which have some bearing upon the matter of the passport in question:

- (a) A dossier kept by Lt. Colonel ROGOV on Sam CARR, known under the cover name of "Frank", contains the following entries:
  - (1) 15.6.45. "The regular meeting took place at the corner of Somerset and the Square (park). Everything was

normal. The Doctor reported no success with the passport because of the absence of authentic data."

(Against this item, in the margin, appears the following notation:

"Paid out: To Frank \$200. To Doctor \$100. The meeting took place through the Doctor.")

- (ii) 3.7.45 (Meeting "took place out of town about passport. Everything normal. Place at the Doctor's. Gave out \$200. Account system of 5.7.45.)
- (iii) 1.8.45 The regular meeting took place.
  Everything was normal. The
  DOCTOR was at the meeting.
  All the business was transacted in the car,

Gave a bottle of whiskey.

I handed over the passport (of) V.... and four photographs with the wife. The final documentation may be completed in the first half of September.

Idea for the change: The old picture of V (not our man) will be taken out, in its place will be placed the photograph with the wife of our (man), but everything will be dated as of 1937. This is necessary for surety. After this the change to the new passport will take place, for this it is necessary to fill out two forms which will then be pinned to the old (one).

Therefore it is necessary for V to have signatures on four forms, of which two are for his documentation of 1937 and two for the change of 1945.

In case of the change it will be necessary to find a reason for this, he (FRANK) suggests to burn half of the passport, to leave only the number, but this has not yet been decided, it is possible that it will not be necessary to do this as the executor (the person who does the job) agrees to everything and is ready for the work.

Regarding the cost FRANK affirms once more that it would not be lower than three.

Detailed facts about the meeting.

- (iv) Telegram from Director, Moscow to Military Attache, dated 14.8.45: "Abatz to No. 11438. "Re No. 227.
  - (1) Further delay in the matter of the passport is no longer possible. Therefore, the signature on the new questionnaire should be made by FRANK's man himself.
  - (2) Prepare for the next regular mail, to be sent with it, a short report on the technical pro-cedure of receiving and delivering of passports, and a second one, containing all the particulars about it for the use of our own purposes, in-dicating clearly who of FRANK's men will be in charge of it.

(V) Telegram No. 269, dated 29.8.45, from N. ZABOTIN to the Chief of the Main Administration:

"Without prejudice to the work I can fly out for not more than two or three weeks. The ambassador is of the same opinion. During that time ROGOV can be left to replace me. In the telegram of the Director it was indicated that the senior assistant has been selected and documented. (?)

Can you advise of the approximate date of departure. I would like to fulfill the fairly complicated task of obtaining the passport for our man in America (the director knows about this) and after this leave for the center. The receipt of the passport is expected in the next few days.

Liwill advise of the receipt of the latter immediately."

# Investigation (

TEVISE PAR

Investigation into the above matter revealed the existence of two persons known as Ignacy WITCZAK, one living at Leamington, Onterio, and the other at Los Angeles, California. They will be referred to hereunder as (a) the real WITCZAK and (b) the fictitious WITCZAK.

### (9) The Real WITCZAK.

"Ignacy WITCZAK, born at Kurowo, Poland on October 14, 1906, landed at Halifax from the S.S. 'FREDERICK VIII' on April 19, 1950. He is reported to have proceeded to Windsor, Ontario; to have remained there four months and to have then proceeded to Leamington, Ontario district where he worked as a farm labourer up to the time of his application for

naturalization in May, 1935. He was issued with Naturalization Certificate No.137992, Series A, dated March 3, 1936."

The July 10th, 1937 edition of "Glos Fracy", a Communist-controlled paper, contains an item reporting the receipt of a letter from Spain, dated May 29th, 1937, from Feliks RUDZINSKI, stating that he, together with Comrade WITCZAK, were leaving for the Front. The passenger list of the S.S. "DUCHESS OF RICHMEND", arriving Halifax, February 3rd, 1978, lists emong those Spanish Civil War veterans returning to Canada, Igancy WITCZAK. Fis destination is given as 952 Langlois Avenue, Windsor; thename of the person living at that address is given as Mick LIFA.

On tage ten of the June 22nd issue of "Ukrainske Zhitya" (Ukraian Life) appears a group photograph showing several members of the Joint Committee of Ukranian, Russian and Polish Aid to Fatherland Association at Old March, Pt. Pelee, Onterio, among whom appears Ignacy WITCZAK. The others appearing in this picture are F. PRODANIUK, K. WILLENSKI and S. PETRUSZKIEWICZ.

Several items appearing in the Polish language newspaper "Kronika Tygodniowa", between January 3rd, 1943 and October 21st, 1944, show Ignacy WITCZAK as having been active on behalf of this paper at windsor and Leamington, Ontario.

Enquiries made recently reveal that Ignacy WITCZAK is and has been, ever since his return from Spain, living in the windsor district. At present he is an onion share-crop farmer on the farm of John WOODSITT, Concession "B", Mersea Twp. in the District of Leamington, Ontario. It has also been ascertained that he is not married and has never been known to have a wife residing with him in the Leamington district. He has, on occasion, worked at the Ford Motor Company at Windsor and while so doing commuted from the Leamington district except during the winter months when he obtained lodgings in windsor. He is also known to have been working as a carpenter or handyman and at present he is under contract to make repairs to a number of summer cottages, owned by U.S.A. citizens who spend the summer in the Leamington district.

Through the Mobilization Branch at London, Ontario, it was ascertained that WITCZAK was medically examined on October 27th, 1942 and placed in category B2. On January 14th, 1943 he reported at St. Luke's Barracks, Windsor, Ontario in compliance with an order but upon re-examination was rejected and placed in category "E", "insufficient intelligence and chest unfit".

It has also been ascertained that Ignacy WITCZAK applied for endobtained a passport in March 1937 and that

It has also been ascertained that Ignacy MITCZAM applied for endobtained a passport in March 1937 and that he enlisted in the loternational Brigade and proceeded to Spain in the spring of that year.

### (b) The Fictitious /ITCZAK.

The Federal Bureau of Investigation have located one Ignacy VITCEAH now a candidate for ih.D. in Political Science at the University of Fouthern California. The U.S. Alien Registration Records of this man provide the Fellowin Perticulars:

Murowo, Foland; height, 5'8"; weight, 155 lbs; hair, dark brown; eyes, blue; scar on forearm; married, wife named Bunia WITCZAK; date of registration, December 19th, 1940.

Witczak claimed that he married Bunia at Montreal, Canada, October 22nd, 1935 and that they entered the U.S.A. at Detroit, September 25th, 1938. The U.S. Immigration authorities at Detroit, however, are unable to verify this entry and it may be assumed that the other claim is equally false.

Investigations, made by the Federal Bureau of Investigation at New York, show that Ignacy VITCZAK and Bunia, his wife, sailed from Boulogne, Surmere, September 3rd, 1938, Second Class, on the S.S. "VEENDANK", arriving at New York, September 13th. At the time of arrival VITCZAK stated that they were in transit to Canada to Visit friends at Montreal, F.Q., and claimed they had previously been inthe U.S.A. in March, 1938. The Immigration records at New York described WITCZAK as a Canada or citizen; harm Furnowal Poland: age 28. WITCZAK as a Canadian citizen; born Murowo, Poland; age, 28. Bunia is described as a Canadian citizen; born, wilno, Poland; age, 24; height, 5'2"; hair, brown; eyes, gray.

WITCZAK and his wife, Bunia, have been under constant surveillance by the Federal Bureau of Investigation for the past six weeks.

WITCZAK left Los Angeles on or about September 9th and on the 17th of the month he was found registered at the King Edward Hotel, New York City, under the name of Ake SANDLER. The real SANDLER is a friend of WITCZAK's, a Swede alien and a journalist of Leftist tendencies, living at Los Angeles. WITCZAK is also known to have visited washington, D.C. where he has been contacted by Soviet officials, believed to be members of the N.K.V.D. He is also known to have made similar contacts in New York City.

The result of the surveillance and examination of the correspondence passing between him and his wife shows that WITCZAK has connections with the Soviet officials in the U.S.A. who regard him as an important figure. His wife, Sunia, is also known to have been in communication and personal contact with the N.K.V.D. at Los Angeles. Latest information received from the Federal Bureau of Investigation information received from the construction wife are preparing to would indicate that WITCZAK and his wife are preparing to leave Los Angeles; moreover, if his position should become more aggravated, he has instructions to take cover in the more aggrava.
Soviet Embassy.

### The WITCZAK Passport File.

Passport file No.3699 - year 1937, has been examined. This file purports to cover the application for, and subsequent issuance of, a passport to the real WITCZAY in 1937. Examination of it reveals the following:

The original application form has been abstracted and replaced by one containing particulars intended to meet the description of the fictitious WITCZAK and his requirements generally. This switch obviously could not have been accomplished without the connivance and assistance of someone employed

in the Passport Office; the identity or this person is not known at present. The person or persons perpetrating this fraud, however, neglected to destroy or alter some of the other documents on file which show that the original application had actually been made by the real WITCZAK, who at the time of making application was residing at Windsor, Ontario. This application was forwarded by the French Line, 53 Richmond Street, W. Toronto, Ontario, with Mr. John HIGGINS, Manager of the Canadian Bank of Commerce, Ottawa and Gladstone, Windsor, Ontario appearing as the voucher.

(ii) A comparison of the particulars on file with those contained in the fictitious application reveals the following contrast:

	GENU INE	FICTITIOUS
Profession 2	Farmer	Merchant
Place & Date of birth	Kurovo, 13th Oct., 1906	Kurovo, 13th Oct.,1910
Height	519"	518#
Residence	1281 London St.W, Windsor, Ontario	

- (iii) Handwriting comparison shows that the signature "Ignacy WITCZAK" appearing on the fictitious application form is definitely not that of the real WITCZAK.
- (iv) The two photographs appended to the application for passport form presently on file have been identified as those of the fictitious WITCZAK and his wife, Bunia, now residing at Los Angeles, California. In this connection, it is interesting to note that the photographs do not contain the affidavit usually appearing on the back of the photograph to the effect that the voucher certifies that it is a genuine photograph of the applicant. It should also be noted that the real WITCZAK has never been married and is, to our knowledge, still a single man.
- that the real WITCZAM
  to our knowledge, still a single man.

  The address given on the fictitious application
  form as "Stop 31, West Hill" is merely a bus stop
  situated in Scarboro Township, just East of Toronto.

  Touching on behalf of the real WITCZAK
  manager of Windsor,
  - (vi) The person vouching on behalf of the real WITCZAK
    was Mr. J.R. HIGGINS, a bank manager of Windsor,
    whereas the voucher appearing on the fictitious
    application is John SOBOLOFF, M.D., who gives his
    address as 583 Bathurst Street, Toronto. According
    to the 1937 Toronto City Directory, Dr. John SOBOLOFF
    maintained an office at 556 Bathurst Street and
    residence at 519 Euclid Ave. At present, he is
    maintaining an office at 393 Palmerston Boulevard
    and residence at 782 Spadina Road, Toronto.
    - (vii) As the application form is purported to have been submitted in March, 1937, it should be pointed out that Dr. SCBOLCYF could not have known the applicant

for three years because the fictitious WITCZAK did not arrive in North America until September 13, 1938, and inasmuch as the real WITCZAK's application was recommended by Mr. HIGGINS, he (SOBOLOFF) could not have had the real WITCZAK in mind when he filled in the declaration in question. The declaration appearing on the fictitious application form was executed in the handwriting of John SOBOLOFF. All this suggests that Dr. SOBOLOFF is a party to the conspiracy.

(viii) Departmental form entitled "copy of passport" has been amended by including the name "Bunia WITCZAK" and her particulars in the space on the form allotted for this purpose. Expert examination reveals that this addition was made on a different typewriter with a different ribbon and at a different time.

Although definite proof is not yet available it may safely be assumed that the fictitious WITCZAK and his wife, Bunia, on their arrival in New York, were in possession of Canadian passport No.30533 issued at Ottawa on March 12th 1937 to the real WITCZAK. It is also clear that the fictitious WITCZAK has been impersonating andposing as a Canadian citizen ever since his entry or re-entry into the United States to take up his studies at the University of Southern California late in September 1938. He appears to have violated the law of the United States and there is little doubt that he would be deported to Canada by the U.S. Immigration should such a course of action be deemed desirable.

There is good reason to suppose that the real WITCZAK is not aware of the disposition made of the passport issued to him and which he apparently lost after landing on the European continent to join the International Brigade in Spain. It may further be assumed that a statement from him would strengthen the evidence already at hand.

The evidence could be further strengthened by interviewing and obtaining statements from the following persons:
(a) Othon GOETZ, General Agent, Compagnie Generale Transatlantique, 53 Richmond Street W., Toronto, Contario, who may be in a position to produce the records relating to the issuance of the passport. He should be able to state that the passport, upon receipt by his office, was delivered to the real WITCZAK then living at Windsor and not to the address given on the fabricated passport application.
(b) John R. HIGGINS of the Bank of Commerce, Windsor, who would undoubtedly be able to identify the real WITCZAK and state that he was the voucher and not John SOBOLOFF.

For various reasons it has not been found advisable at this stage to approach any of the above-named persons or anyone connected with the Passport Office.

The passport application form contained in the file has been subjected to a scientific test and a number of latent prints have been developed. None of these, however, have been identified, so far.

The investigation is being continued.

Fred ROSE, whose true name is ROSENBERC, was born in Lublin, Poland on December 7, 1907, of Jewish parents. He married Fanny Charness, a Ukrainian and member of the Young Communist League, in 1931 and he has one child. He was naturalized, on his father's certificate, in 1926. He is an electrician by trade but has been a paid Communist functionary for many years. On October 22, 1929 he was convicted in Toronto on a disorderly conduct charge. On June 6, 1931 he was convicted in Montreal on a charge of seditious utterances and was sentenced to 12 months' imprisonment. The conviction was appealed but it was sustained.

ROSE came to Canada in 1920, he joined the Young Communist League in 1925 and has taken a prominent part in Communist activities since that time. He has held many official positions in the Communist Movement, including Provincial Organizer for the Province of Quebec, National Secretary of the Young Communist League, Secretary of the Central Control Commission of the C.P. of C., Member of the National Committee and National Executive of the Labor Progressive Party (C.P.ofC.)

From May to November, 1930 he was in Moscow as an Executive Member of the Y.C.L. International.

ROSE was particularly active underground during the anti-war activities of the Communist Party. He was eventually detained under Regulation 21 of the Defence of Canada Regulations when he surrendered in Toronto on September 25, 1942, he objected to his detention and was conditionally released on October 6, 1942.

ROSE was elected M.P. for Cartier Constituency on August 9, 1943 and was re-elected in the 1945 Dominion Election.

This is not the first occasion on which ROSE has been connected with espionage activities, as some years ago he was associated with A.L. FELDMAN, an OGPU Agent who had, as a special task, the securing of passports and identification papers for Soviet Agents. It was FELDMAN who arranged, through Fred ROSE, for the passport of Willy BRANDES, the Soviet Agent who organized and directed the penetration of Woolwich Arsenal about 1937. FELDMAN was detained under Regulation 21 of the

who organized and directed the penetration of woodwich Arsenal about 1937. FELDMAN was detained under Regulation 21 of the D.O.C.R. during the war.

CORBY explained that ROSE directly approached Major SOKOLOV in May-June, 1942 and proposed that he join in espionage activities, SOKOLOV checked ROSE through Michailov (MOLIER), a Soviet Consul of New York who was then assisting him in Ottawa. One of ZABOTIN's notes mentioned that "FRED", as ROSE was then known, had worked with the OGPU up to 1924. The check-up was favourable and ROSE was placed in charge of the Montreal Group his agents being H.S. GERSON (GRAY), GREEN, not yet identified, and Professor BOYER. SOKOLOV maintained contact with him through a women, known only as GALYA.

Attached to ROSE's Montreal Group was an auxilliary group consisting of a Jew known only as "GINI" and "GOLLE" or "nOLLE" who appeared to do considerable photographic work.

Another contact used by SOKOLOV was "FREDA", who was then working in the International Labour Office in Montreal. Some months ago FREDA gave the name of Arthur STEINBERG (BERGER) to ZABOTIN and on or about May 12, 1945 it was arranged that ROSE himself or one of his men should contact STEINBERG in Washington and sound him out about working for the Communist Party or Soviet Intelligence. Later STEINBERG was turned over by ZABOTIN to his opposite number in the United States.

About May, 1944 an individual named S.S. BURMAN went to England, but before leaving Canada was given instructions by ROSE regarding a contact to be made in London. Briefly, BURMAN was made aware of the date, time and place of contact and that the individual contacting him would identify himself by producing a letter, bearing the signature "FRANK". In the event of the contact being missed, an elaborate arrangement was reached concerning an alternative method.

It is evident from the documents furnished by COREY that ROSE kept ZABOTIN supplied with information of almost any nature. For instance, ZABOTIN wired to Moscow information supplied by ROSE in connection with a conversation he had with Minister of Fisheries BERTRAND and one Jean Louis GAGNON.

On another occasion ZABOTIN wired Moscow that ROSE had obtained some information previously reported from conversations with Officers who had taken part in the Western Front Campaign. Following the Dominion Election ZABOTIN also notified Moscow that ROSE had been elected.

Other documents furnished by CORBY reveal that ROSE was also known to Isidore HALPERIN (BACON) as, on one occasion, ZABOTIN advised Moscow that some tasks would be detailed through ROSE to the agent mentioned.

Other documents reveal that ROSE had also been in touch with Ned MAZERALL (BAGLEY) of the "Research Group" and had suggested that he become acquainted with Lt. LUNAN, the cleader of that group. It would appear that it was ROSE who recruited MAZERALL.

Another document revealed that ROSE sometimes associated himself with CARR in carrying out certain assignments.

# C. Dr. Raymond BOYER, Montreal, F. J.

Dr. Raymond BOYER at present a professor in Research Chemistry at McGill University is the nephew of Mrs. F.N.G. Johnson, daughter of the late Sir Rudolph Forget and widow of the former head of the Department of Chemistry and Dean of the Faculty of Graduate Students at McGill University. Dr. BOYER is independently wealthy. Originally of Roman Catholic faith, he became embittered because of the separation of his father and mother and now entertains anti-clerical tendencies. He married a Jewish woman and at present has two children. As a result of his marriage neither he nor his wife are looked upon with particular favour in the communities in which they respectively belong. Dr. BOYER took a pre-medical year and entered first year medicine at McCill University. Apparently disinterested in this venture, perhaps because of his financial status, he was not successful in passing the course. Thereafter by special arrangement made by Prof. F.N.G. Johnson, his uncle, he entered the Faculty of Science taking honors in chemistry. He graduated with honors and finally obtained a Ph.D. He travelled to Europe returning to the United States and continued his studies at Harvard University.

At the opening of the war he approached McGill University and offered to assist at his own expense. After completing a year's work with the Research Council he was appointed as lecturer in chemistry at the university, a position which he still holds. Whilst employed in research work dealing with HDX and DET he is said to have done extremely good work.

BOYER is reported as being a member of the Labour Progressive Party. Although he is reported as having refused to join the Canadian Institute of Chemistry to which most reputable chemists belong he has become a leader in the Association of Scientific Workers and has taken a rather active part in the Association of Technical Employees.

Tracing the activities of Dr. Raymond BOYER in Connection with the Communist movement in Canada, he first came to notice in connection with the Montreal Branch of the Canadian Civil Liberties Union. This union was a the Canadian Civil Liberties Union. This union was a communist Party faction and, according to a report from Communist Party faction and according to a report from Communist Party faction and according to a report from Communist Party faction and according to a report from Communist Party faction and according to a report from Communist Party faction and according to a report from Communist Party faction and Communists and fellow travellers was made up of the Montreal Branch of that organization on April 19, 1939. This Canadian Civil Liberties Union on April 19, 1939. This Canadian Civil Liberties Union and it is significant to note that from the time BOYER and it is significant to note that from the time BOYER was first connected with the Union until he resigned on had acted at various times in the canacity of president, vice-president and chairman.

The closest connection of the C.C.L.U. and the Communist Party was shown by the interest taken in their activities by several well-known members of the Communist Party.

Raymond BOYER was also reported as being a member of the Quebec Committee for an Allied Victory which was still another party front.

Dr. BOYER was also reported (7-12-41) as being a member of the Executive Committee of the Russian Medical Aid Committee and in other reports as being a member of the Spanish Children's Relief Campaign Committee, two other Party front organizations.

It was reported

On 24-4-42 from "C" Division that Dr. Raymond ROYER was

president of the first Victory Congress held on April 19

in Contreal by the Quebec Committee for Allied Victory, and
in a later report it was stated that he acted as master of

peremonies for a concert held on May 19 by that committee.

Dr. BOYER is reported (11-9-42) as having addressed

the indior Town Forum at Mindsor, Ontario, during the month
of September and it is significent to note that the comments
on the Corum meeting during that month stated that the

on the Corum meeting during that month stated that the Chinese Consul F.S. FUNG of Toronto and Metropolitan BENJAMIN were not very impressive and were disappointing in that Communism was hardly mentioned by them.

BOYER is also reported as being associated with the Union Bemocratique du Canadian Francais. This was in 1943.

More recently Dr. BOYER has been reported as being active in the Canadian Association of Scientific Workers and Association of Technical Employees.

This Canadian association of Scientific Workers which was ostensibly formed to promote the interests and improve the social conditions of scientific workers and to assure the application of modern science for the well-being of society has enjoyed considerable infiltration by the Communists in Canada. It is noted in a press clipping from the "Ottawa Citizen", September 29, 1945, that Dr. Raymond BOYER is chairman of the national executive of this association. The most recent events on the part of this association have been explained in the press as being an attempt to have censorship lifted from the secret of the atomic bomb. Relative to the Association of Technical Employees it is observed from noting the names of some of the most active members that, if not actually a Communist inspired organization, it has been infiltrated to such an extent by those persons that it lends itself well to their purpose.

Dr. 30VER would undoubtedly be in close contact with the Student Labour Club, a Communist inspired organization in the university.

working under Fred Rose in Sokolov's 1942-1943 setup. He provided information on chamical plants and explosives as well as the RDX formula. He is regarded, according to Corby as a most valuable agent.

Corby further states that BCYER is not being paid for any information he furnishes. He considers such efforts no part of his loyalty to the cause. Incidentally, he supports the Communist Party financially and his latest accommission towards larty funds consisted of EC,000.

### 7. "FREDA"

Only this woman's christian name is known. According to CORBY she is a typical Jewess, dark, black hair, long nose, about 5'6", thin face, single and anxious to get married. CORBY further states that she used to work in the I.L.O. and is now employed by the National Film Board; believed at present to be in Washington.

"FREDA" is used mainly for recruiting and reporting on new prospects. CORBY states that she works with Fred ROSE and Professor BOYER, and she may conceivably act as a link between the two. She is also used to obtain information of a general nature.

She was used as a contact with Professor BOYER under SOKOLOV's 1942-1943 setup, and was attached to Fred ROSE's group.

Several months ago "Freda" supplied his name to Colonel Zabotin, probably through Fred Rose, as one ready to take the field as an active agent. Moscow expressed considerable interest especially in view of the fect that there was

erable interest especially in view of the fact that there was then some question of STEINBERG undertaking a mission to swaii. Zabotin therefore arranged, on May 12th, 1945, that Fred, Rose himself or one of his men should see STEINBERG in Steam of the conding to Corby, STEINBERG was later turned over the latest I. She advised to see Ray that have his band had left for the Facilite on a trip that would take six months. She advised to see Bay Boyer for details; the latter individual is, of course, Dr. Boyer. However, STEINBERG's trip to the Pacific would appear to have been cut short since, on August 24th, Edith Steinberg telegraphed Professor Boyer that she and her husband were both leaving by train for Montreal on the Callowing day.

#### Samuel Saul BURNAN

BURMAN is a Canadian Jew, born October 6th, 1907 in Quebec. He is married to Elsa Sara BURMAN, nee SCHWARZFELD, and his present home address is 5174 Cote de Meiges Road, Montreal, F.Q.

The CORBY documents show that "BERMAN" was an insurance agent who joined the Communist Party in 1938 and that his wife joined a year later. During the illegal period of the Canadian Party (1940-1945), he worked for the Central Apparatus of the party doing organizational work.

These statements are supported by the records at present available on BURMAN. In 1938 he was reported as a member of "Friends of the Soviet Union" in Montreal and a year later was listed as prominent in Communist subversive activities in Montreal.

BURYAN joined the Canadian Army in April 1943 and sailed for overseas duty from Halifax in September of 1944. Until he joined the army he was employed by the North American Life Insurance Company in Montreal. He is reported to be at present on his way back to Canada.

Thether he is a member of GRAMM's organization, or whether he was merely used as a courier is not clear, but he was given a letter by or on behalf of Fred ROSE. Two weeks after his departure from Montreal he was to be contacted in front of Canada House in London and, after the recognition on both sides, was to hand over the contacted in Front of Sanata Hermitian contacted in Front of Sanata Hermitian contacted instructions were given to provide letter a Elaborate instructions were given to provide can alternative meeting at his own future London residence, in the original arrangements fell through.

It is not clear whether BURCAN was in touch with ROME himself or with a cutout for ROME in any event his panadian contact was known to him as "YMPAN".

LUNAN was born in Scotland in 1902. He married Phyllis Newman (Jewess), a member of the Communist Party of Canada, in 1939. He is a Commercial artist and was a member of the Artist's Franch of Section 10 C.P. of C., Montreal for many years. His home there was frequently used for Party meetings. LUNAN was also a member of the Quebec Committee for Allied Victory, a Communist-front organization.

LUMAN enlisted in the R.C.C.S. on January 20, 1943 and the day following his enlistment was transferred to Brockville, Chtario to take an Officer's Training Course.

LUNAN continued to maintain his Communist connections and Tim BUCK and Fred ROSE are known to have visited LUNAN's home on April 16, 1943. In June, 1943 confidential information was also received which revealed that LUNAN had visited Montreel on leave and while there had been in touch with Fred ROSE.

LUNAN was seconded from the Army to the Wartime Information Board December, 1943 and was a member of the Editorial Staff of "Canadian Affairs".

CORBY explained that LUNAN was set to work in March, 1945 when he was placed in charge of a group of three other agents named Isidore Halperin, cover name "BACCN", Ned Mazerall, cover name "BAGLEY" and Durnford-Smith, cover name "BADEAU". LUNAN's task, under the direction of Major ROGGY, who used the cover name "JAN" was twofold:-

- (1) To obtain all possible information on the National Research Council and its activities, and
- (2) To direct BAGLEY, BADEAU and HACCN.

The tasks for each of these sub-agents was as follows--DAGLEY to supply information respecting radio matters, BACCH to supply information respecting the Valcartier Explosives Establishment Direction, and DADEAU to report on the work conducted in his Department.

Colonel ZABOTIN described LUKAN's group as the "Pesearch Group", their work being to report on matters dealt with by the National Research Council.

different place on each occasion and usually between 9 and 10 in the evening. During these meetings LUMAN reported on the progress made in connection with assignments received from ROGOV and submitted reports. On many occasions Documents, obtained by LUMAN from his agents, were handed ever to ROGOV, so that they could be photostatted or photographed under an arrangement which permitted their return the following day, in order that their absence would not become known.

A feature of the organization of the "Research Group" was that LUTAN was not previously acquainted with ROCOV and that, after receiving instructions from ROCOV concerning the organization of the "Telegrap Shoup" and the life substance to the standard of the management, it was no easier; for the complete the classific equalities

# 11. Durnford Salith, cover name "BADEAU".

The details are not yet available respecting SMITH's parentage and place of birth but he is now about 33 years old. He is married to a daughter of C.M. Cotton, K.C. and has two children. He graduated from McGill University in 1934 as a B.Sc. and continued his studies in that University until 1936, when he graduated with a Degree of M.Sc. The only record of Communist activities is that in 1942 he was interested in the Quebec Committee for Allied Victory, a Communist-front organization.

From 1937-1942 SMITH was employed in the Research Department of the Bell Telephone Company, Montreal. In 1942 he was engaged by the National Research Council and is now an Assistant to the Head of the Microwave Section.

Durnford SMITH was recruited about March, 1945 for work in the "Research Group" under LUNAN. His first assignment was to report on the type of work his Department was engaged in and what other Departments it was in contact with. Another assignment given to SMITH concerned the obtaining of uranium and 235 and to report in detail on radium production.

On March 28th LUNAN reported that SMITH had displayed caution when he contacted him and that SMITH was enthusiastic.

On April 18th LUNAN supplied information to ROCOV on the work being handled by SMITH which concerned Radio Engineering, specializing in Radar. SMITH was then working on a new battleship redar device for use in the Pacific. Early in June it was evident to Colonel ZABOTIN that Durnford SMITH was in a most strategic position and as LUNAN had little technical knowledge, it was decided to arrange to run SMITH as a direct agent. On June 8th ROGOV arranged with LUNAN that SMITH should be brought to the next meeting. This was done on July 5th when SMITH brought some valuable material. The material evidently concerned an assignment given on June 8th respecting American aeroplane radio locators, a radio (radar) navigation periscope, and details respecting the general organization of the National Research Council. Then this material was received ROGOV gave SMITH \$100. He was also given a special assignment concerning a new photo-flash bomb and was asked to supply details respecting its composition, etc., also on Research work being carried out by the Photographic Research Department covering photography with the aid of infra-red rays and to report upon the newest types of aero-photographic apparatus used by the R.C.A.F. and R.A.F., including lenses and photos, characteristics, etc.

ROGOV also met SMITH on August 18th when they discussed the matter of photography.

Another assignment given directly by ROGOV to SMITH concerned radio bulbs and their technological manufacture, radio locators used by anti-aircraft artillery in 'planes, switches, radio antenna and what was being done in a Research Section known as the "Boyd Station".

On August 25th ROCCV had a personal meeting with SMITH, when the latter handed over a large quantity of radio literature and reports. After being photographed, same were returned to

# 12. Ned MAZERALL, cover name "BAGLEY"

Ned MAZERALL was born in Fredericton, New Brunswick, he is married but has no children. From June, 1939 to January, 1942 he was employed at Station C.B.O. of the Canadian Broadcasting Corporation. He has since been employed by the National Research Council as Engineer in the Air Force Section of the Radio Section. No other information is available respecting his background, it not yet being possible to conduct a complete investigation.

MAZERAIL, under the cover name "BAGLEY", was a member of G. LUNAN's "Research Group".

His first assignment was to supply information respecting radio sets, including photographs, technical details and intended purpose; to supply information respecting future work of the radio department and the type of models under development.

CORBY submitted documents which revealed that LUNAN was not able to contact MAZERALL until the latter part of June or early in July when he explained to LUNAN that he could not plan his free time very much in advance owing to family responsibilities. MAZERALL however immediately promised to be of assistance and accepted a full quota of tasks.

Among the assignments given to LUNAN for MAZERALL was one instructing that he should prepare a list of literature covering the subjects handled during his work, the titles, etc.

That MAZERALL was successful in carrying out his assignments is established by the fact that on August 6th LUNAN met Major ROGOV and supplied him with "valuable material" respecting radio equipment. This material was photographed and returned the following day.

Isidore HALPERIN was born in Toronto on January 5, 1911. He is a Hebrew and from 1939-1942 was employed as Professor of Mathematics at Queen's University, Kingston, Ontario. He enlisted in the Canadian Army and was Commissioned a 2/Lt. During his service he was attached to the Directorate of Artillery, National Defence Headquarters until September, 1945 when he was demobilized and resumed his previous occupation.

Isidore HALPERIN, under the cover name "BACON" was a member of the "Research Croup" under Lieut. LUNAN. In March, 1945 he was assigned the task of supplying all possible information respecting the Valcartier Explosives Establishment Direction. To report on its work and if possible submit explosive formulae and samples.

LUNAN reported that HALPERIN had given considerable thought to his first assignment and on April 18th submitted a report compiled by HALPERIN respecting the general organization, etc. of the Canadian Army Research Division, Explosives. He also submitted information respecting the work of a Ballistics Laboratory, Designs Branch and Field Trials Wing.

On June 8, 1945 HALPERIN was assigned the task of securing information respecting an electro-projector and to compile a report on the latest Research work being carried on concerning explosives and Artillery matters. He promised to submit information concerning the electro-projector at the next neeting.

On July 5th LUNAN reported that HALPERIN declared the electro bomb was well-known to the Germans and the Russians and explained his work was mostly in the field of the development of field improvements on ordnance.

HALPERIN would only supply oral information and it was considered that he was afraid. He did, however, verbally explain details of electro-shells and the method of detonation.

HALPERIN was also asked to supply information respecting Ur. 235 and explained that it was absolutely impossible for him to secure it. He then explained the theory of atomic energy. He was also asked what was involved in the building of a plant at Chalk River and replied that he did not know.

On August 6, 1945 LUNAN was asked if HALPERIN could maintain his connections with the Artillery Committee in the event of his demobilization and return to Queen's University and what possibilities he would have for securing information in Kingston, Ontario.

On August 9th Moscow wired Colonel ZABOTIN asking him to secure information respecting the production, process, purpose, use and peculiar properties of certain explosives, including the technique of producing detonators. It was suggested that if HALPERIN was still in the Artillery Committee, the task should be handed to him.

# 14. Eric ADAMS, cover name "ERNST".

Eric ADAMS was born in Hull, P.Q. on April 3, 1907. His father, C.A. ADAMS, retired Principal Granby High School, is opposed to his son's political ideas. ADAMS is married.

ADAMS entered McGill University in 1925 and graduated in 1929 with a B.Sc., Engineering and a Scholarship in Electrical Engineering. In 1929 he attended Harvard University and graduated with an M.B.A. (Master Business Administration) Degree with distinction.

During the period 1930 to 1940 ADAMS filled various responsible positions as Research Expert, Secretary, Economist, and was in business for himself as Consulting Engineer.

In 1940 he secured employment with the Foreign Exchange Control Board in Montreal and on November 25, 1940 was transferred to Ottawa as Technical Advisor of the Wartime Requirements Board, Department of Munitions and Supply. He later returned to the Foreign Exchange Control Board as Industrial Engineer and Appraiser of the Industrial Development Bank, F.B.C.B., Montreal.

During the Summer of 1934 ADAMS and his wife visited Russia and following their return he wrote a series of five articles under the title "Russia To-day" which were published in the 'Evening Post', Montreal. These articles reveal that ADAMS was impressed by his visit to Russia and conditions generally were lauded.

In 1935 ADAMS was connected with the pro-Communist Friends of the Soviet Union. It is also known that on August 19, 1935 Fred ROSE visited Eric ADAMS at his home where various Communist matters were discussed. Investigations also reveal that ADAMS' business associates regarded his general utterances as being very pro-Communist.

CORBY reports that ADAMS was originally recruited by Sam CARR for the 1942-43 set-up of Major SOKOLOV, Soviet Military Attache before ZABOTIN. During this period ADAMS, whose cover name was "ERNST", worked under the direct control of DJEVENOV, Tass Representative.

Following ZABOTIN's arrival in Canada ADAMS continued to work under CARR, until December, 1944 when the contact was transferred, presumably to one of ZABOTIN's own men.

CORBY also reports that ADALS receives information from Kay VILLSCHER and then hands some over to his contact with ZABOTIN. ADALS supplied information concerning matters such as: Despatch of Munitions to England - Invention of Waterproofing - Notes on Conferences - Unloading and Storage of Materials - Reports on the Inspection Branch - Correspondence Concerning Contracts - Correspondence with Companies - Enquiries and Correspondence on Other Matters.

CORBY submitted four documents to confirm his statement. One of these revealed that in a single bag, sent to Moscow in January, 1945, material supplied by ADAMS amounted to a total of 263 pages.

#### 15. Kathlene (Kay) WILLSCHER, cover name "ELLI".

Miss WILLSCHER was born in England and she is about 45 years of age. It is believed that she graduated from a London University which might possibly be the London School of Economics. Miss WILLSCHER is described as a nervous type of individual who does not get much enjoyment out of life. She is not regarded as being efficient and is not known to have shown any Communist tendencies

CORBY reports that Miss WILLSCHER passes information to Eric ADAMS who, in turn, passes same to his contact with Colonel ZABOTIN. She has never been contacted directly by any of ZABOTIN's staff.

CORBY also reports that Miss WILLSCHER always supplied her information in carbon copy. On one occasion Mossow complained that Miss WILLSCHER had not supplied any information for a period of three months and it was suggested to Colonel ZABOTIN that a new contact be arranged. It was later decided to continue the system of ADAMS contacting her.

CORBY states that Miss WILSCHER obtained a copy of a despatch from the Canadian Ambassador to Moscow, dated November 5, 1944. It dealt with financial credits for trade between the U.S.S.R. and Great Britain after the war. This despatch, together with enother dated October 11, 1944, was sent by bag to Moscow on January 5, 1945. Although neither

of these despatches could be traced in the office of the British High Commissioner, it has been established that the despatch first mentioned did reach Soviet Intelligence Head-quarters in Moscow.

CORBY also states that Colonel ZABOTIN obtained, through Miss WILLSCHER, copy of a note written by Lord Keyes respecting financial matters between Great Britain and Canada.

CORBY submitted two documents concerning the forwarding to Moscow of despatches submitted by Miss WILLSCHER through Eric ADAMS.

#### 16. Emma WOIKIN, cover name "NORA".

Emma WOIKIN was born at Blaine Lake, Saskatchewan, of Doukhobour parents on December 30, 1920. She was married in 1937 and is now a widow. She attended Primary School from 1927 to June, 1933 and qualified for High School Entrance, following which she took a business course.

When completing National Registration on August 20, 1940 she declared she owed allegiance to no country. However, when she applied for a position in the Department of External Affairs on September 10, 1943 she declared she was a British subject of Russian origin.

Emma WOIKIN passed a Civil Service examination for Grade 1 in 1943 and qualified as a Typist. From September 10, 1943 to February 25, 1944 she was employed in the Passport Office. On February 25, 1944 she was transferred to the Cipher Division of the Department of External Affairs and was recently transferred back to the Passport Office.

On March 20, 1944 she completed a Departmental form, expressing her willingness to serve in Russia, her application however was not approved.

Following this she approached the Soviet Embassy in Ottawa for a position but this was refused, it being intimated however that she could help the Soviet Union in other ways. She agreed to supply information but fearing penetration she was kept at arm's length. Finally, overwhelmed by the importance of the material which she had provided, some of which had been called to the attention of Marshal Stalin himself, she was accepted as a full agent.

COREY advises that WOIKIN was recently instructed to get close to L. MALANIA, an employee of the Political Division of the Department of External Affairs. MALANIA has previously come to our notice, due to the fact that his father is a leading member of the pro-Communist Federation of Russian Canadians. WOIKIN is understood to have acted as MALANIA's housekeeper and to have helped him with his work and translations.

CORBY submitted five exhibits concerning information supplied by Emma WOIKIN. The following is a typical sample:-

The problem of Bulgaria, Yugoslavia, Hungary, and Roumania, has been brought up and discussed in a piecemeal fashion time and time, but as a whole, (as it really is the same problem) Russia has never agreed to discuss it. They are all under the influence and supervision of Russia. Elections are being planned in all these countries, but they will only result in a totalitarian system and again under the supervision of the Russians. vision of the Russians.

We have to gain the confidence and attention of these countries and have to show what we have to offer in ways of economics and culture.

The present continual differences in regard to these countries will endanger our relations with Soviet Union.

There is not much hope for Yugoslavia having a Democratic Government. Tito is evidently breaking all agreements of Subasic-Tito Agreement, but we feel it is too early to step in.

Austria has a better chance of forming a Democracy than any of the other countries because \$\frac{1}{2}\$ of it is occupied by United Kingdom, United States, and France, and yet in case of forming a Government, it will be the Russians imported from Moscow that will be in the lead.

### 17. James Scotland BENNING -- cover name "FOSTER".

J.S. BENNING was born in Montreal on June 15, 1913. He was educated in Montreal Public Schools and also attended McGill University, where he took an Accounting Course. From 1932 until 1942 he was employed by various concerns. On July 1, 1942 he secured employment with the Allied War Supply Corporation and from July 21, 1942 to July, 1945 acted as Liaison Officer in the Ammunition Filling Division, Ammunition Production Branch of the Department of Munitions & Supply. He also acted as Joint Secretary of the Canadian Munitions Assignment Committee.

In July, 1945 BENNING was appointed to a Depreciation Committee, in which capacity he was responsible for the agenda of weekly meetings and reports to the Deputy Minister. He is presently in charge of Assignment Records and is virtually Assistant Research Director in the Economics and Statistics Branch of the Department of Munitions & Supply.

It is significant to note that BENNING is a brother-in-law of Harold S. GERSON, whose cover name is "GRAY".

CORBY explained that BENNING was recruited by Sem CARR for SOKOLOV's 1942-43 organization. He then came under ZHEVEINOV (MARTIN).

An item in the documents furnished by CORBY showed ZHEVEINOV worked with BENNING in connection with a task concerning the Army and that he submitted three reports.

BENNING supplied what may be described as enormous amounts of information. Some idea of the quantities and subjects covered may be gleaned from the fact that one single mail bag sent to Moscow in January, 1945 included over 360 pages of information supplied by BENNING.

The following briefly outlines the subjects on which BENNING supplied information:-

Canadian-British relations, Production of aeroplanes, Production of ships, Army Orders, Correspondence with companies, Corrections, Contracts, General Correspondence with Contractors, Notes to Contractors, Supplements to Contractors, Explosives, Programs, Specifications, Inspection Branch, Notes on Conferences, Composition of a Packing Commission, Production of Arms, Analysis of Orders, as well as reports and notes concerning the North American Committee of Co-ordination.

#### H. S. Gerson, cover name "Gray"

This man is a geological engineer who is at present employed in the records division, Ammunition Production Branch of the Department of Munitions and Supply.

Of Russian-Jewish origin, age about 40 years, he was educated at Montreal schools, 1911 - 24; McGill University 1924 - 28; carried on graduate work at McGill 1928-29; Columbia University, New York City, 1929-30; speaks and writes English and French.

As early as August 1944, he was supplying information on technological questions regarding war material. Early in August of this year he provided data on the output of artillery ammunition and later in the month informed Grent about modified schedules received from the Ministry of Supply in Great Britain with regard to 25 pdr. shells, grenades Mark llysto... He also stated that, on August 14th, the General Staff had sent out an urgent call for additional production of sertain types of shells including 25 pdrs. of certain types of shells including 25 pars.

Gerson is obviously regarded as a very valuable agent and he was told to make every effort to remain with the Department of Munitions and Supply. He informed Grant toward the end of the month that great reductions in personnel were to be made and that he did not believe he would be abletto stay: He intended therefore to establish a geological engineering advisory office in Ottawa of which he would be the head. He estimated the cost as follows: \$600 a year for rent; \$1,200 for current expenses, \$1,000 for office equipment and \$4,200 a year as his salary. He pointed out, however, that if, as he expects, Canada enters a "boom" period in the mining industry, the office should be self-supporting within two years; and even the initial expenditure would be recovered.

Gerson was a member of Sokolov's original organization in 1942-43. It is believed that he was then working in Montreal, since he came under Fred Rose.

# 20. S/L M.S. NIGHTINGALE -- cover name "LEADER".

M.S. NIGHTINGALE was formerly a S/L in the R.C.A.F. He now resides in Montreal and is employed by the Bell Telephone Company. He is now in charge of the Toll Transmission Engineering Department of the Bell Telephone Company and in this position has access to the latest technical information concerning listening devices.

During May, 1940 a complaint was made that NIGHTINGALE, who was then a civilian, was either a Communist or Communist sympathiser. An investigation indicated that this complaint was justified.

CORBY explained, and submitted documentary proof, that NIGHTINGALE was a former member of the Communist Party who was detached for special work. He evidently worked under Sam CARR who was known to him as "WALTER" and at a meeting which took place on December 19, 1944 he was listed as possibly being able to supply information concerning the network of aerodromes from coast to coast and maps of the coast districts.

The documents also reveal that contact with NIGHTINGALE was more or less of a control nature twice a year.

On January 25, 1945 NIGHTINGALE advised Major ROGOV (BRENT) that he was being demobilized and would work for the Bell Telephone Company. Following this a meeting was arranged, at which he supplied details of his new address. Tasks then set included supplying information respecting telephone tapping devices.

tapping devices.

Prior to NIGHTINGALE's discharge from the R.C.A.F. he was introduced to Dr. Henry HARRIS.

# 21. Colonel G.M. LETSON, cover name "DICK"

CORBY who identifies "DICK" as Colonel LETSON states that he occupied an apartment in the same building as Colonel MORTINOV and was originally contacted by the latter. Although MORTINOV is now in Moscow, his wife still retains the apartment largely because of its strategic value vis-a-vis LETSON. ROGOV now contacts the latter.

Approaches were made to LETSON as far back as November 1944. CORBY states that he has given some military information most of which was forwarded to Moscow by mail.

whether or not LETSON is a conscious agent today is a moot point. It is almost certain that he was not one in November 1944. However the mere fact that he was given a cover name is significant since we know that Colonel JENKINS and L. MALANIA, both unconscious informants, were never given cover names.

Colonel LETSON is head of the Directorate of Development of Vehicles and Small Arms under the Department of Mational Defence.

The above named individual has been tentatively identified as one of the four members of the original Ottawa-Toronto Group under Sam CARR.

CORBY reports that POLAND worked for CARR from January-April, 1943. At this time he was employed in the Intelligence Branch of the R.C.A.F. in Toronto and he provided a plan or map of an Instructional School.

S/L POLAND is presently on a special assignment under the Camp Commandant, R.C.A.F., Ottawa. It is interesting to note that he resides in the same apartment as G.D. LUNAN.

## 23. ZASANSKY (phonetic), cover name "JAN"

This man was formerly Secretary to the Military Attache at the Czech Legation in Cttawa.

According to CORBY, ZASANSKY furnished ZABOTIN with a sample of Allied bullet proof cloth which was sent to Moscow.

ZASANSKY left Ottawa about March or April to return to Czechoslovakia via London. He was given instructions by ZABOTIN to enable him to make contact with an unknown individual in the Soviet Embassy in London. It was the intention that he should continue to work for Soviet Intelligence.

ZASANSKY was appointed Adjutant to INGR (phonetic) who at that time was expected to become Czechoslovak Chief of Staff. However SVOBODA was finally appointed to the latter post, and it is probable that ZASANSKY will return to Ottawa in an official capacity.

# 24. <u>Hermina RABINOVITZ</u> Contact with Soviet Agents in Switzerland

In December 1943, and again in April 1944, an I.L.O. research worker in Montreal, Hermina RABINOVITZ, approached the Soviet Embassy in Ottawa on what she claimed were very important and secret matters. Vitali PAVLOV, the NEVD man was informed and telegraphed to his superiors in Moscow, who told him to take no action. It was not until late in April that PAVLOV informed Lt. Colonel MORTINOV of the situation.

RABINOVITZ had apparently worked for the I.L.O. in Geneva and it must be inferred that she had also done work directly or indirectly for the Soviets or for the Communist Party. After leaving Switzerland, she is believed to have been in Moscow, where she was given a warm reception.

About March 1944 she received several letters through the I.L.O. bag from Geneva, signed RACHEL. These letters, in a form of open code, gave her news about the position of an intelligence organization in Switzerland and more particularly asked her to get in touch with the representatives of the Intelligence Papartment of the Red Army and arrange for \$10,000 to be sent through proper cutouts.

As soon as he heard this, ZABOTIN established contact with RABINOVITZ through Sergei N. KOUDRIAVTZEV, and after having assured himself that the matter was genuine, made arrangements, presumably through Moscow, to complete the financial transaction. RABINOVITZ went to New York where she received \$10,000 from the Consul MICHAILOV. She then handed this money to the head of a watch company in New York, and the latter made a remittance to Switzerland, presumably under the guise of a business transaction.

Thereafter, KOUDRIAVTZEV kept in touch with RABINOVITZ and, on August 28, the latter informed him that a telegram had been received in New York indicating that the money had arrived. This telegram came from Alexander ABRAMSON, a member of the I.L.O. in Geneva and undoubtedly one of the Swiss agents. ABRAMSON had been on the point of visiting Moscow in June 1941 when the Russo-German conflict broke out.

Through RACHEL's letters it has been possible to learn something about the Swiss organization, and the following agents are mentioned:

- (a) SISI. CORBY states that she is an extremely important agent, who had been working close to the Cerman General Staff, SISI bas now been identified as Rachel DUEBENDORFER.
- (b) LUCY. Working with SISI, apparently after a break in their relationship.
- (c) ALBERT. Appears to have been under suspicion or surveillance since he is referred to as being "sick" and about to "leave his profession for a long time".
- (d)  $\underline{PAUL}$ . Mentioned by  $\underline{ZABOTIN}$  in reference to SISI and therefore presumably of equal importance.

#### (e) Norman A. VEALL

VEALL is an Englishman, born in 1919. Until 1942 he worked in the meteorological service of the RAF in Cambridge, and was sent to Montreal about 1943 as a research worker.

VEALL had apparently been a member of the C.P.-G.B. and before his departure, he received instructions from his superior in the Party to make contact with the Canadian Party. He also carried a letter of recommendation which CORBY thinks was signed by D.A. SPRINGHALL, the former National Organizer of the C.P.-G.B. who, in mid-1943, was sentenced to a long term of imprisonment under the Official Secrets Act.

VEALL apparently visited one of the Fress Attaches at the Soviet Embassy and may also have been in touch with Sam CARR. At all events, CARR was instructed on June 15, 1945 to get in touch with him and to find out what he wanted. CORBY states that ZABOTIN was afraid that VEALL might be a British agent, or an agent provocateur, and he was certainly handled very gingerly.

Later on, MAY was asked to report on VEALL and stated that he occupied only a minor position and had very little information. ZABOTIN put the matter up to Moscow and suggested that the NKVD might like to use VEALL.

At the end of August, Moscow replied that they had nothing against VEALL, but that since he carried a letter from a Party member in England who had been arrested and had not thought fit to destroy it, they could not see their way to having any further contact with him whatsoever.

It is worth noting that ZABOTIN apparently knew nothing about the letter which VEALL carried and the inference is that the NKVD had found out about it and had reported to their headquarters where the information was duly recorded for future reference.

### To the Director reference No.8393.

- 1. Debouz received the data from a conversation with officers who had taken part on the Western Front. The data were received from conversations with the latter.
- 2. Debouz was re-elected for the second time as a member of the Federal Parliament. The-candidature-of-Sam-was-defeated.

  Sam and Tim B uck were not elected although they received votes for the Federal Parliament.
- 3. Thus. Thus from the Corporants there is one member of the Federal Parliament. The first session of Parliament meets on August 26.

Grant.

#### SCHEAE OF THE GROUP "RESEARCH"

The scheme of your group will be approximately such as it is shown below.

You only will know me (as Jan) but nobody else. 2. What we would like you to do:

a. To characterize the scales and works carrying out at National

a. To characterize the scales and works carrying out at National Research and also the scheme of this Department.

b. To conduct the work of "Bacon", "Badeau" and "Bagley".

It is advisable to put the following tasks to them separately:

Bagley-to give the models of developed radio-sets, its photographs, technical (data) facts and for what purpose it is intended. Once in three month to write the reports in which to characterize the work of Radio Department, to inform about the forthcoming tasks and what new kinds of the models are going to be developed.

Bacon- to give the organization and characters of Valcartier Explosives Establishment's Direction. To write the report on subject: "What kind of the work is this organization engaged in?" If possible to pass on the prescription formulas) of explosives and its samples.

Badeau-to write the report: That kind of the work is his Department engaged in and what Departments it is in contact with (by work).

All the materials and documents to be passed by Bagley, Bacon and Badeau have to be signed by their michanaes as stated above.

If your group have the documents which you will not be able to give us irreveeably, we shall photograph them and return back to you. I beg you to instruct every man separately about conspiracy in our work.

#### Ottawa March 28

Dear Mother and Father:

General approach to work: Your written instructions are understood and some preliminary work has been acco plished on the specific tasks set. It should be understood that neither Bacon, Bagley nor Badeau are well known to me either personally or politically, nor I to them. Progress has been held up somewhat owing to one or other of them being out of town and by the caution displayed by Badeau (a good thing probably) in checking into my credentials. With the exception of Bacon, who is enthusiastic and politically experienced, it would be unwise to approach them point blank with all the tasks assigned. They already feel the need for maintaining a very high degree of security and taking abnormal precautions at their normal meetings (about once in two weeks), since they are definitely not labelled with any political affiliation. One or two have even opposed the introduction of new members to our group on the grounds that it would endanger their own security. I therefore believe it wise to wise to approach them carefully and not to advance too great an assignment to them at one time. Also, for the time being, not to characterize the work for what it is, but werely to let it be understood that it is work of a special conspiratorial nature, without mentioning my connection with you. If I read your instructions correctly, you assumed that I would discuss the situation frankly with each separately This I have not done. But I would like to discuss this aspect with you. Another slight resistance to be overcome is the strong sense of security about their work that these men have develo ed as war scientists.

We have experienced a little difficulty (which we shall, however, overcome, I believe) in making our initial arrangements to neet. There are several reasons for this. Below lives quite far out of tom in the country and is dependent on train schedules. Badeou lives at the furthest end of Hull and works during the day out of town and out of reach at lunch times and other times convenient to me. My house is out of the question for meeting ( and typing) purposes as I have two others living with me. We shall probably solve these difficulties as we gain practice in the work.

The following notes describe in detail progress made with cach individual on each task set.

Baleau: Warmed up slowly to my requests and remained non-committal until he had checked independently on my bona files. Once satisfied, he promised to cooperate. He is preparing the report on his dept. as requested, also a full report on organization and personnel, interlocking depts, etc. of NDC plus any other information he thinks useful. These reports are promised to me for Apl.9. I am unable to get them any sooner.

ı,

Discussing the work of NDC in general, Badeau informs me that most secret work at present is on nuclear physics (bombardment of radio-active substances to produce energy). This is more hush-hush than rader and is being University of carried on at MEGRITHEREXEXITY Montreal and at McMaster University at Hamilton. Badeau thinks that government purchase of radium producing plant is connected with this research. In general, he claims to know of no new developments in radar, except in minor improvements in its application.

> Bacon: I received an excellent report on Bacon and approached him more frankl than the others. He seems anxious to be of help. His attitude is that most of the so-called secret work is a joic and while it is officially on called secret work is a joke and while it is officially on the secret list, those working can on it see no reason for secrecy. He undertook to provide the information requested on Valcartier. He suggested I obtain it direct from his chief in my official capacity, but I advised him that this was not wise as I do not wish to show any official interest in this field until ami unless we decide to do an article on it. He claims there is no particular secrecy about the set-up, but I persuaded him to give me the whole report on the matter. I did not mention formulae and samples at this maeting, as I don't think bacon is sufficiently impressed with the conspiratorial nature of the work as yet, but, he is definitely keen and will be helpful. I shall see Bacon again on Apl 2 to hear about his report and to take up our request with him further. He travels a good deal up our request with him further. He travels a good deal which complicates our arrangements for meeting.

Bagley: I have been unable to see him as yet. He has not been a very regular or enthusiastic supporter for several months although he is now showing more enthusiasm. He lives in the country and his life is antagonistic to his polit al participation. He strikes me as being somewhat naive politically, and I shall take things slow with him for a start. I plan to develop his acquaintance as much as possible and gain his confidence by collaborating on some scientific articles. Will report on him next time.

With regard to photographs and biographical notes on Bagley and the others, Bacon and Badeau will provide them with their reports. I will supply Bagley's later. Bacon is a mathematics professor from Queen's University at Kingston now a major in the army. Badeau is an electrical engineer who has worked in the engineering department of the Bell Telephone Company as Nontreal. Fuller details later.

### 18.4.45 ORGANIZATIONAL LETTER OF 18.4.45

.É

There is relatively little process to report since lest time because of a series of unfevourable circumstances which have made continuous liaison with my people impossible.

As you will have realized, I was out of town for several days last veek and was uable to keep my appointment. Bacon was away from work for several days with a cold. It was inadvisable to see him at his home to discuss matter with him, although I did widit him there once to receive a report from him. Baceu also made a trip to Toronto during the one week when I was in town and relatively free to see him, and for the following week he was detained late at the office (Isboratory) working on a special rush experiment. The prospect for myself over the next fews weeks isn't any brighter, unfortunately. The aunouncement of the elections, earlier than expected by us, has involved me in a great deal of rush work which will keep me in Fontreal all next week. This work, of course, has to be given priority; but it means that the time available for yeeing my neeple is very severely cut into aspecially when they might be busy on those times when I am free.

This is not a very bright picture for the process of our work. But it is the circumstances in which we find ourselves, and it is only to be hoped that work will ease up soon. Incidentally, I suggest what Jan's call to my office was not strictly necessary, since we already had the airmner out that the meeting would take place three days later if for any reason either party failed to turn up. Posever, it had this advantage, that it tested out the system of calling on the telephone, with the sourcessful.

deporting in general on the port done since last meeting:

requests and has given me the reterial for the offers to dill in any estable that may be asked for if he can. I have not had the opportunity to ask him about payment.

Bedeau was very disturbed then I brought up the subject of payment. I think he felt that it brought the subject of his work into different (and more consultational) focus. We as to think it over and let me know, but we have hed no conortunity to must since I was in Fontreal in the interim. He is very slow in giving me any information, largely because he actually has not time to sit down and make a report. He offered me the printed report of the Research Council, but I resume that all this information is known or can be a adily obtained from a foremment library. The latest report he could set was also considerably out of date. He reported to me in a red the resumble details of his own work. We is in the radio engineering end of things, specializing in reder. Current tork, on witch there were an apprenent usb last associate.

This is an extramely consitive detecting device which has been successfully tried out on the East Coest. Present work is the designing and construction of a pilot model. Badeau has been largely responsible for this. Possibly there are specific questions which could be asked about this, as Badeau is a very difficult person to pin down to detail.

It has still been impossible to see Bagley and introduce him to his assignment. Is I pointed out before, since I know very little of this person, it is my blen to become better acquainted with him and get some idea of his readiness for work of this kind. The time, however, has been quite beyond me as yet.

"ith regard to biographies: both Bodeau and Bacon have promised to provide biographical notes. I was to have received these on Monday, but could not keep my appointments, being out of town. Will obtain them for next time. Bedeau is married with 2 children - about 6 and 6 months old. We is about 35 years old and before joining the Research Council, worked in the Research Department of the Bull Telephone Com my at Nontreal. He is a greducte electrical engineer. Bacon is a men of about 35, married and with threemphildrenx 2 children and a third on the wey. He is a professor of mother ties at Queen's University, Kingston and intends to go back to that work after the war. We is at present a major in the rtillery. #### Bacon's report.

Bacon has been personally responsible to a large extent for the preliminary work in connection with organizing C.A.R.D.D.(Canadian Army Research Division, Explosives). This is an organization which is in process of boing created. It will have both civilian and military personnel, but will be administered by the army. It is intended to be integrated with the various arsenals in Canada — at least two of which will probably be maintained permanently after the war.

CARDE will contain the rollowing:

A.Pilot explosives plant. This is being built by, and controlled by, National Research Council, but with army funds. The chemical branch of NRC will have very little or nothing to do with it. It will have a 1 arge capacity and will be capable of experimental work with new explosives, both HE and probellants. It is not yet being operated; will be taken over by C.RDE when completed. Probable director will be Englishman, Harold J.Poole, who is now acting director. He is a permanent civil skryant in the xplosives field. Said to be slow an an organizer and executive, but a competent technician. Bacom believes that this plant can be of tremendous importance and can improve production methods to meet changing needs. Canadian raw material situation very good.

(Bacon cave some information on present explosives plants and their capacity. This is probably well known. Can produce information

B.Ballistics Laboratory. Under direction of Dr. Laidler. This is the only part of the over-all project which is at present in operation. This section is working with the Department of Chemistry at Toronto University in experimenting with a veriety of new propliants. They are using a new explosive "DINA" mixed with RDW as a component in propellants. DINA is intended as an alternative to nitro-glycerin. Americans are said to be very interested in one of these new peopellants called "Albanite". This is a propellant containing DINA and picrite as an alternative to the standard British propellant containing Nitro-Glycerin and picrite. Nitro-Glycerin and picrite.

C.Designs Branch This will be not thy for designing small ordnance and will include a pilot plant.

D. Field Trials Wing. This will do the work which is now being done at Suffield and Valcartier by the Inspection Board of United Kingdom and Canada. They have a good scientific and do a good job of analysing faults and difficulties of annumenture.

Eventually the organization will consist of A, B, C, & D. Dr. Do. Chase (an NRC physicist) has already been appointed superintendent of CARDE. He will be responsible to the Director of Artillery. (Colonel Dr. Don W.E. van Steemberg) who is a biologist and who will in turn be responsible to the Waster Gener al of Ordnance, Army Eventually, the will probably be a committee commissing representatives of the three scrvices.

Bacon emphasizes:

It could take o. The laying down of a skeleton anuments research centre which could be taken over by the British in the fature if it became necessary. It could take on assignments, and now has some on which to work.

# ORGANIZATIONAL LETTER ABOUT THE GROUP "RESEARCH" OF 5-7-45

Barley: I had a very successful meeting with Bagley and he agreed to participate to the furthest of his ability. I also received an explanation of what I took to be his early reluctance to meet me. His wife teaches music and on the frequent occasions when she has to be away from the house, he has to stay home with the children. He is unable to plan his free time very much in advance, hence the dufficulty in seeing him. He is interested in the work and imrediately promised to be of assistance. I gave him a full quota of tasks and he promised reports on his work and on various other aspects of the general work at his place. Since first seeing him, I have been in Montreal, and on the two occasions I tried to get in touch with him for a progress report, he was not available. He had promised to deliver his work in full in time for this meeting. He now informs are however, that he has not completed the work and will need another the days. He plandes extreme business as the reason. I know that they are very busy, and it is most difficult to persuade these fellows to give up the time. In fact, they are working to tight schedules and it is customary for them to work continually at a task until it is fi ished. I shall keep after him, and try to get the material within the ten days mentoned.

Bacon: I spent a whole evening with Bacon, with most disappointing results. I put the tasks to him, and on both of them he assured me he had nothing to offer. He cleans that the electro-bomb is common knowledge to the Germans and estudes it must be so to you. He is unwilling to take any risk an obtaining material which he is convicted is already obtainable. I tried to persuade him to meet the demand any way, but he was unwilling to do so.

With regard to the general question on explosive development, he assured me that he has nothing to add to his former report. He is himself curious about the Chalk River plant and the manufacture of Uranium. He claims that there is a freat deal of talk and speculation on the subject, but that nothing is mown outside of the small and carefully granded group completely in the know. He emphasized that he himself is as remote from this type of information as I am myself. His work is at a virtual standstill, and in any case, his work has been mostly in the field of development (field improvements) on ordnance, and not in the realm of explosive research. He maintains that there is a distinct division between research and development. He expects his work to cease fairly 500n, and wants to go back to teaching. This fellow is a mathematician, and not a chemist or physicist, which may account for his remoteness from the details of explosive research. I shall continue to see him but he gave me definitely no encouragement last time.

Back: There is a delay in time before the arrival of baby. X-rays reveal that event won't take place until close to end of July. No information as yet as to future disposition in the army. Have just been promoted on accountmof present york. Expect to be at same job at least for another nont, and probably longer.

### ORGANIZATIONAL DIRECTIVES FOR THE GROUP "RESEARCH"

- Any meeting with Bacon, Badeau, Bagley must not take place indoors, but on the street and, moreover, separately with each one and once a month.
- 2. The materials from them must be received the same day on which you must meet me in the evening. The materials must not be kept with you even for a single night.
- 3. Their wives must not k; w that you work with and meet their husbands.
- 4. In view of the fact, that Bagley, Badeau live far from the city, we will be giving them money for taxis, whenever this will be necessary for them. Warn them that they must not come up in the taxi to the place where they have to meet you.
- 5. De-cipher what does N.D.C. mean. Ask Badeau whether he could obtain Uran No 235, let him be cautious. If he can, let him write in detail about the radium producing plant.
- 6. The plan of your work may be, for instance, as follows:
  - a) The assignments of tasks (Bagley 19.4., Badeau 23.4, (Bacon 24.4)

b) Caution them about being careful.
c) The fixing of meetings (where, when, who)

- d) The receiving of materials (from Bagley, lunch time; from Badeau, after office hours; from Bacon, two hours prior to the meeting with me)
- 7. For the next meeting it is necessary to find out:
  - a) Could Bagley, Bacon, Badeau give you documents for 4-5 hours; (we will be photographing them)
  - or drawings and formulae without being returned? If it is not risky.
- 8. Money Te-wew Back 100 Bagley - 30 ACCESS TO BY COIS UNCERTIFIED ON ACT AND OR Badeau - 30 Bacon - 30

### ASSIGNMENT NO 2 Assigned 6.8.45

- 1. Can Bacon after leaving for Queen's University, maintain connections with the artillery Board in which he is working at present. If so, in what manner.
  - 2. What possibilities may Bacon have in Kingston for our work?
  - 3. To give the home and office telephone of Badeau and his home address.
  - 4. Tell Bagley, that he should compile a list of the literature with which he is in touch in his work, giving the titles and file of it, and also he should give a brief description of what he is doing.
  - 5. Give a list of the Army units, which have returned from overseas to Canada and also the names and numbers of the units and subdivisions which were dislocated or are scheduled to be dislocated.
  - 6. The numerical strength of the Canadian Army for the post-war period and its approximate system of organization.

- 1. Have agreed with Sam on handing over to us Shugar the connections with Prometey! I present the latter is in Florida. The handing over will take place in the city of Sam on his return from Florida. I regard it expedient to entrust to Bront the connection with Prometey.
- 2. Sam promised to give us several officers from the central administration of the active forces. At present it is pretty hard to do it, in view of the fact that a-re-shuffle of persons a filling of positions in the staff with officers who have returned from overseas is taking place.

To the Director,

My son Vladimir has successfully completed his Ten-Year School. He declined to enter the institute of international relations and is preparing to enter the first loscow Artillery School which named after Krasin, from which I graduated in 1924. In order to send my son off I ask to leave for a very short time. It appears to me that the time has come also for me to be at the centre to discuss a series of questions regarding our work. If it is indeed impossible for me to leave, I ask to send my wife with my son. I beg you facilitate the entry of my son in the Artillery school and to advise me of the time of departure. My wife cannot fly in an appropriate entry

To the Director,

Gray has received a copy of a letter of the Deputy Minister of Munitions and Supplies G. K. Shiels to all government companies to government companies which are under private management and to the principal directors of production branches, lay 194. I report the contents of the letter:

All three branches of the armed forces of the Department of National Defence have agreed to review all the facts available from the point of view of selection and definition of the necessary arms and munitions which they will need. However, they (the army, nevy and air force) still have not got a complete list of the necessary supplies which we are producing. We would like the production branches and government companies to take part in compiling lists of the production turned out, to be forwarded to the corresponding branches of the armed forces, indicating for whom the designated arms and munitions were produced (for the needs of Canada or for orderers?). Naturally each branch of the armed forces needs different lists corresponding to their requirements. The preparation and distribution of these lists must be completed by the 31st of Way of this year. On receipt of the said lists all the three services will indicate the category of the materials of arms and equipment in which they are more interested. The council of the nost war arsens which is interested in preserving such of the post-war arsenals which is interested in preserving such technical information, has a contract on the following dislocation of supplies and materials:

To the Director,

Facts given by Alek: (1) The test of the atomic bomb was conducted in New Mexico, (with #49#, "94-239"). The bomb dropped on Japan was made of uranium 235. It is known that the output of uranium 235 amounts to 400 grams daily at the magnetic separation plant at Clinton. The output of "49" is likely two times greater (some graphite units are established for 250 mega watts, i.e.250 grams each day). The scientific research work in this field is scheduled to be published, but without the technical details. The Americans already have a published book on this subject. She do not be subject. She handed byer towns a platinum with 162 micrograms of uranium 255 th One form of oxide in a thin lamina. We have had no news mount the mail.

On our task Alek has reported brief data concerning electronic shells. In particular these are being used by the American Navy against Japanese suicidefliers. There is in the shell a small radio-transmitter with one electronic tube and it is fed by dry batteries. The body of the shell is the antenna. The bomb explodes in the proximity of an aeroplane from the action of the reflected waves from the aeroplane on the transmitter. The basic difficulties were: the preparation of a tube and batteries which could withstand the discharge of the shell and the determination of a rotation speed of the shell warpreparation of the

To the Director,

Alek reported to us that he has met Norman Veal (he was at his home). Veal vor's in the laboratory of the Montreal branch of the Scientific Research Council where he is responsible for the making of testing utencils and other glass vork. We came from England in 1943, where he was a member of the party for several years. He worked on meteorology in the British R.A.F. We takes part in the Canadian Association of Scientific Workers and works there as foreign correspondent. In connection with this he visited our embassy and talked with one of our press-attaches who is in charge of the press, distribution of periodicals, etc. He asked the opinion of Alek: Is it worth while for him (Veal) to hand over information on the atomic bomb.

Alek expressed himself in the negative. Alek stated

Alek expressed himself in the Cherctive. Alek stated that Veel occupies a fairly low position and knows very little. Fe is inclined to be cereless, as he because this conversation in the presence of his wife. We is pretty well known in the liboratory as a "Red". Fis age is about 25 years. I was scolded for some kind of material which allegedly became known to metro. I beg you to advise me what material is concerned. I have informed the boss of metro or political, economic and military questions in accordance with instructions given to me by the chief director and by comrade Malenkov. The sources were never reported by me. Please instruct for the future. Am I to inform the ambassador on questions concerning Canada which are received from sources. To the Director,

Gray was earlier assigned the task of taking all measures to remain in his old job. At the last meeting the latter stated that in the near future great reductions will begin. In the event that it will be impossible to remain on the old job, Gray proposes to form a geological-engineering consulting office in Ottawa. Gray is a geological engineer by profession and therefore can head this office.
The expenses for organizing the office are as follows: - rent of premises - 600 dollars a year; wages for one clerk \$1,800.00 a year; office equipment -\$1,000; payment to Gray as director - \$4,200 a year; altogether it will require 7,000 dollars a year. Gray stated that Canada is entering a "boom" period in the mining industry, and it is therefore very likely that within two years the office will be in a position to support itself. The initial expenditure of its establishment will be repaid in the future. WORMA)

To the Director,

A letter was received from the General Staff, signed by Colonel Jenkins, esking us to give a lecture on the organization of the Red Army, at the Military College in Kingston. I visited that place in the spring of this in Kingston. I visited that place in the spring of this year. I consider that no lecture on that subject should be given. There is a plan at the General Staff whereby all Military Attaches were requested to make reports. A number of attaches have already made these reports. I therefore find myself in a disadvantageous position. I think it expedient to make a report along the lines of two articles from No. 3 of the magazine "Voyennaya Misl" ("Military Thought"), namely the article by Farshal Rotmisterov of the tank troops and the one by (clonel General Samsonov, after this I will be able to press Jenkins and set a series of materials to fulfill your tasks for 1945.

A somewhat similar report to be made by Rogov on the materials from the magazines "Vestnik Vozdooshnovo Flota" ("Air Torce News"), and to make use of the occasion I should together with him visit the Staff College of the Air Torce in Toronto. I beg you to make the desired corrections.

Chief of the Main Administration. To the Head-Director

Without prejudice to the work it is possible to Leave fly out for not more than two or three weeks. The Ambassacor is of the same opinion. During that time Rogov may be put in my place. In the telegram of the Director regarding staff it was indicated that my a senior assistant has been selected and trained.

Can you advise of the approximate date of departure. I would like to complete the fairly complicated task of obtaining a passport for our man in America (the director knows about it) and after this to leave for the center. The receipt of the passport is expected in the next few days. I will report the receipt of the latter immediately.

Result of the last meeting of Back's Group (Research)

- 1. Bacon categorically refused to give any kind of written information and also documents to be photographed. A possibility exists, but he is afraid. He only gives oral information, but this does not answer our demands, as Back is a writer and not a scientific worker. In an oral conversation he stated that in Canada and in the United States special electric shells are being produced by means of which the accuracy of hitting the target is automatically determined, besed on the principle of reflection of radio waves. The electro shell is called "V bomb" and it consists of a smell high frequency transmitter by means of which there is produced a rebound of waves from the target? These shells are already in use at the fronts and there exist special instructions, about bringing which he made no firm promise.
- 2. Badeau wants to work. Gave written information on questions of research in the field of radio technique, of optics and separate apparatuses. The material is very technical and is hard to grasp on the spot. It was sent out by mail. It is essential to have concrete questions for him. According to deta given by him the organization of the National Research Council from the top down is as follows: The Committee of the Secret Council on Research Problems; Chairman J.A. MacKinnon. Under him is the Research Council - Chairman, A L. INFORMATION SUR L'ACCES

SECTION DES PIENSEIGNEIMENTS

C. G. MacKenzie. There are three floors with two divisions on each floor. On the first floor is the Division of Plens and Publications and the Division of the Chief Assistant S. P. Eagleson. On the second floor there is the Division of auxiliary Research. Here also is the combined committee of scientists. Also the division (apparently) of cyphers and stenography, with A.T. Gill as chief. On the third floor there is the Division of Applied Biology, chief W. M. Cook; the Division of Chemistry headed by S. Teaire; the Division of Mechanical Engineering, Chief J. F. Parcen, and the Division of Physics and Electricity, chief R. W. Boyle.

Badeau esks for permission to change to work on uranium. There is a possibility either by being invited or by applying himself, but he werned that they are very careful in the selection of workers and that they are under strict observation.

- 3. Bagley so far no contact has been made. The main reasons are that he lives so far from the city and the influence of his wife the does not want him to meet corporators. On Back's proposal for a meeting, he answers that he is busy and is living far away, but at the same time he invites to his house. Back communicated that he will have a meeting with him in the period of 20.5 to 5.6-. We-further-added-that Bagley-knows-nothing-about-his-immediate-work-as Debouz Fred-talked-with-him-only-generally, and-recommended that-Back-should-study-him-in-detail-and-only-after that-to-start-working-with-him.
- 4. Back himself has no possibilities. Fe ir being used as a contact. At the last meeting he said that a contact will be born to him at the end of June.

SETTON DES FIENDE IN OUT OF LACOES

He hinted about money. So far \$200 have been handed out to him at various times.

### Conclusions:

- 1. Tell Back to draw Bacon gradually into our work and at times to practise taking notes by distation from Bacon and also to make separate drawings by hand.
- 2. Not to recommend the transfer of Badeau to the production of uranium but to develop more widely the work in Research. In the future, for the purpose of more efficient direction, it is expedient to detach him from Back's group and to key him up as an independent contact man.
- at Bagley's apartment and to come to agreement about forthcoming meetings.

Bacon.

He It has become very difficult to work with him, especially after my request for Ur 235 (Uran 235). He said that as far as he knows, it is absolutely impossible to get it. Thus for instance he declared that perhaps it (Uran) is not available in sufficient quantity. Bacon explained to me the theory of nuclear energy which is probably known to you. He refuses to put down in writing anything and does not want to give a photograph or information on himself.

I-believe I think that tresent he has a fuller understanding of the essence of my requests and he has a particular dislike for them. With such a trend of thought as he has, we-earnet-ebtain it is impossible to get anything from him except with the exception of verbal descriptions, and I am not in a position to unable-te understand everything fully where it concerns technical details.

I asked him what is taken into consideration in the construction of the very large plant (Chalk River, near Petawawa, Ontario), in the general opinion the principle of production of which is based on the physical properties of the nucleus; with regard to his expression of opinion that it is impossible to get Uran 235. He replied that he does not know. He believed that the project is still in the experimental stage.

Then he described to me the general principles of the electronic shell and the bomb detonator, which are being produced in plants in the U.S.A. and Canada, and which is the reason for the accurate fire in destroying rocket projectiles (V-bombs). It has the form of a small transmitter of high frequency the ray of which is reflected from the target. When the force of the reflected wave in the vibration of the radiated frequency reaches a definite strength, the charge is exploded electrically. I asked him if it would be possible to obtain instructions for it, he replied that it

would be possible. I was not able to extract (incline) anything in any other way. In conclusion, Bacon (took the position) announced that he will talk to me but he will not write anything at all, and I do not think that he is ready to begin to work more deeply, as for example-to obtain samples. He says that he does not know anything about matters that are not already known to you.

To the Director,

The Trofessor reported that the Director of the National Chemical Research Enatituta Committee, Stacey, told him about the new clant under construction: Pilot Plant at Grand'ere, in the Province of Guebec. This plant will produce "Tranium". The engineering personnel is being obtained from McGill University and is already moving into the district of the new plant. As a result of experiments carried out with Uranium, it has been found that Uranium may be used for filling bombs, which is already in fact being done.

The /mericens have developed wide research work, having invested in this business 660 million dollars.

Today we received through Debcuz: a photograph of Bermen and a letter elened by Debouz for Bermen. Hereunder I am giving the errencements for a meeting worked out by Debouz for Berman. Berman will know one thing, that the letter will be given him by Debouz's man. The letter is known to himse trank. The meeting must take place two weeks after the Menerture of B. from Montreal counting Sunday, in Trank of the building (office) of the ligh Commissioner of Granda Dunday at 15 o'clock. If it should not take place - it will be carried over the following Sunday at the same time and so on until the meeting takes place.

14.4.44 Davie rang her up on these telephones but she was not there.

History

In Recember 1943 she rang up Tounkin and asked to be received on an urgent matter. T. refused, but afterwards received her. She outlined to him the 3ist of the matter. Tounkin inquired, but what she replied to him is not known. After that she wrote him a letter in which she wrote (9.3.44) that she had received through a reliable channel a letter from a friend in Geneva and attached it. The contents of the attached letter: "Te live in the former apartment and are working as previously in the old firm. Some two weeks ago Sisi sent you a telegram. Tell us how did your journey to Gisel's parents turn out. My health is excellent. Albert is sick and will probably leave his profession for a long time, he is laid up in bed. Relations with Lucy are good, she is a very good woman. Gisel's family is for some reason no longer interested in her, although up to this time there was support. Lucy's situation has improved. Sisi's position is sad. Please inform Gisel's parents that they must remit 6,700 dollars. This sum must be handed over through you. There are no other possibilities. The Cisels must bear these expenses. Advise me about Aleksander where is he." Rachel. After this Pavlov, 2nd Secr. neighbour, asked his boss who, according to Paylov, allegedly replied that this is their man and you (Pavlov) should do nothing. At the same time he asked Pavlov for her address, which he did not and April of the sout this for so long, Pavlov replied. To had these instructions to do nothing. Not having received a reply to the letter and the inquiries by telephone 13 April that is on the day of Pavlov sourney to Hermina's city, the latter wrote a second letter to Tounkin with a request to take measures in the natter of her first letter and for convincing she attached to this letter a second letter from Rachel of the following contents:

"I have received your (Hermina's) telegram of 23.1.44. Please inform Gisel's family, that she should advise Znamensky 19. that Sisi is alive and works as of old with Lucy. Lucy wanted to change the personnel, but funds ran out. Albert is sick and is not interested in business. For the work of Sisi, Gisel's family must transfer 10,000 dollars. The transfer must be made by Hermina personally through N.Y. in connection with the wishes of Mr. Helmars." R.D.

Only after receiving this letter 15.4.44 did
Pavlov 17.4.44 advise Lamont that there is a certain
Pabinovich. After receiving these data on 19.4 we
decided to contact her by telephone, as the latter was
on her letterhead and to warn her that she must not
write, nor ring up, and that in two weeks fisel's man
will visit her. She-was-very-satisfied 19. This was

The letters with copies of Emchel's letters have been sent by mail by Hermina and in all probability passed through the censorship, although there was no censor's stamp. The copy of the second letter, which deals with Znamensky 19, was particularly prejudicial.

Please appoint a man for future procedure, bearing in mind that Davie will not be able to go to New York and "ashington. I await instructions about the next meeting, also money. We-have

Dear Hermina,

Thank you very much indeed for your care in our affairs and we hope that you will help us in future. It is important for us to send a letter to Geneve to Sisi. Can you send this letter with a reliable man to whom you trust. All expenses will be paid. Please let us know about your proposals in this connectoin as soon as possible. Please inform us about delivery of your servi ce mail to Geneva and why are you sure that it is not censered Please wire to Rashel or Alexander that Gisel's parents are interested about the health of Sisi and Paul and that they will help them. We ask you to forward IO.000 \$ to that watch company according to the Sisi's instructions. Make arrangements with our representative about formarding of this sum of money to you in USA.All your personal expenses will be paid.

Ath best regards

The regular meeting of 15.6.44 did not take place. On the regular journey of Leon to her city he must organize a meeting and inquire how the money was transferred and whether it reached its destination. Reach agreement for an essential meeting; telephone, password, place, time.

On May 5 Leon met Hermina, the latter reported:

- 1. The correspondence with Geneva is carried on by means of letters and telegrems. The letters are sent as part of the mail of her organization and are not subject to scrutiny. The letters take from three weeks to a month to come. Telegrams a few days. The last letter took about one month to arrive, she does not know the exact number of days.
- 2. She knows not Geta Abremson but Aleksander Abremson. She does not correspond with him, but she could. She knows that everything is in order with him. The also informed that in June 1941 he intended to go to Moscow but the beginning of the war interfered and he remained there. Fis visa was of 24 June.
- 3. She knows Sisi as a good friend and she helped her as a good acquaintance. She did not know anything about Sisi's work previously. Sisi's first letter was for me unexpected. She knows nothing of the change in Sisi's life.
- 4. She is completely certain that the letters were written personally by Sisi. Indications: hand-writing and signature, which
- 5. The insistent request of Sicilian deposit the money in the company was unknown to her, and furthermore she does not know enybody in the said company. As for herself she considers that Sisi told the firm about me (Permina).

Hermina will be able to eposit the money, however she we like to receive a cheque as it is difficult to carry such a large sum over the border. Hermina orious rights equal to persons who have diplomatic passports.

Conduct - natural. She wrote the letters to Tounkin because Tounkin had received her very severely onto, while the other requests about a meeting and the telephone conversations were rejected, which sharply contrasts with my reception in joscow where the reception was very warm.

She considers that there is no suspicion hatsoever about her. In her opinion letters sent from her town to our town appear to be not subjected to censorship.

not subjected to censorship.

The regular meeting was set for 17 of May, on May 20 she leaves for Philodelphia on her own office business and could take advantage of th's journey as a good pretent, for handing over the money.

Appearance - A stout woman about 45 years, lame in both legs, moves with the aid of two sticks, but at the same time drives her own car.

Conclusion - the meeting under the cover of both contacts passed entirely normally.

I request your further directives.

## ENERAL

VMALL is the holder of British passport No. 17704, which was issued on November 28, 1942. He also holds a British Exit Permit which he applied for in November, 1942 for the purpose of proceeding to Canada.

A report concerning the First Annual Convention of the Canadian Association of Scientific Workers, which was held in Ottows on May 20-29, 1945 reveals that Norman VEALL was International Correspondent of that organization.

A report convention of Science.

Consider Association of Science.

In Ottows on May 20-29, 1945 reveals that Norman in Ottows on May 20-29, 1945 reveals that Norman in Ottows on May 20-29, 1945 reveals that Norman in International Correspondent of that organization.

VEALL read various telegrams of greetings to the Convention which were received from Voks, Moscow, the British Association of Scientific Workers, Australian Association of Scientific Morkers, New Zealand Association of Scientific Morkers, Association of Scientific Workers of Southern Africa, National Science Society of China and, in addition VEALL announced that similar greetings were expected from France.

Morkers, New Zealand Association of Southern Africa, National sociation of Scientific Workers of Southern Africa, National Science Society of China and, in addition VEALL announced that similar greetings were expected from France.

The text of the verious messages revealed that each of those sending them was aware of the fact that they were addressing the first convention of the Canadian Association of Scientific Workers and obviously had been asked to forward greetings, a typical Communist textio.

That Norman YEALL is highly regarded in the Association is evident from the fact that he was nominated for the position of National Secretary but it was pointed out that he would not likely reside in kontreal much longer and his name was accordingly dropped.

It is interesting to note that Dr. BOYER took a prominent part in the proceedings and was elected National Chairman. Dr. BOYER declared that YEALL had carried out his duties as internstional Correspondent very satisfactorily and recommended that he continue to act in that capacity, this was carried. Another individual who attended this Convention, in whom we are presently interested, was Dr. A.N. MAY.

## ORBY STATEMENT

GROUP.

VEALL is an Englishman, born in 1919. Until 1942 he worked in the Neteorological Service of the R.A.F. in Cambridge (ex. 35-4) and was sent to Montreal about 1943 to de Research work (ex. 35-4).

VKALL apparently had been a member of the Communist Party of Great Britain and before leaving England was instructed by the Party to make contact with the Canadian Party. He also carried a letter of recommendation which CORMY thinks was assigned by D.A. Springhall, the former National Organizer of the C.P. of O.B. sho, in 1943, was senteneed to a long term of imprisonment under the Official Secrets Act.

VEALL apparently visited one of the Fress Attaches at the Soviet Sabassy and also may have been in touch with Sam CARR. At all events, CARR was instructed on June 10, 1940 (ez. 35-4) to get in touch with him and find out what he wanted.

20 dff states that ZABOTIN was afraid that VEALL might be a British agent or agent provocateur and he was accordingly handled very gingerly.

Later on Dr. MAY was asked to report on YEALL and state that he occupied a minor position and had very little information. GRANT put the matter up to Moscow and suggested that the MKYD might like to use YEALL (ex. 7).

At the end of August Moscow replied (ex. 30) that they had nothing against YgALL but that since he carried a letter from a Party member in England who had been arrested and had not thought fit to destroy it, they sould not see their way that Dr. ANY should be warned not to have any conversations with him At the nothing against nothing against thought fit to destroy it, shey seen thought fit to destroy it, shey seen thought fit to destroy it, shey seen thought fit to destroy it, shey seen thought fit to destroy it, shey seen to have any convent whatsoever.

It is worth noting that ZABOTIN apparently knew nothing concerning the letter which YZALL carried, which infers that the IKKYD had found out about it and reported the matter for Tuture seen case.

## CUMENTARY EVIDENCE

NOTE: The first words of item 1 reveal that Sam CARR had already been supplied, by ZABOTIN, with information concerning YEALL. It is reasonable to conclude that the Party in England notified Moscow, who notified ZABOTIN who, in turn, notified CARR so that he could expect to be contacted by YEALL and would have details of the general circumstances, etc.

ZABOTIN asked CARR for a written report, to be available at a meeting on 15-7-45 on the following points:-

(a) Did VEALL actually work in the Meteorological Sorvice of the R.A.F. in Cambridge and is his mission in Canada direct (word is missing but sume is probably -- connection) to his service in England?

Up to the present there has not been an occasion when Jentine shar retued us anything whatsoever. I consider that the subject of your letter referred to Dick. Please explain. It would appear from the above that Moscow wrote to ZAOSTIN on some matter respecting Colonal Jenkins but mixed him up with Colonal Letson and it would appear that ZAOSTIN resulted that Moscow had made this error and accordingly put them straight on the matter	Telegram ZABOTIN to the DIRECT IN of which reads as follows:    Inter is indicated No. 1 = 1	It continues that both JACK and DICK work in responsible jobs and gave written signatures not to divulge military secrets. It concludes not to divulge military secrets. It concludes by stating that the character of the work must be used. Personal generality with conversation on warious themes, beginning with themselves, with their blography, occupation and life, at times asking them as if for comparison with this or that situation, etc.	The fifth item reveals that JACK is a Frenchman and that DICK is an Englishman (Anglo-Saxon) but his wife is French. Their views on some points are different but DICK, knowing the strictness of the Catholic religion, endeavours not to offend his wife and cocasionally refused to discuss religious questions. About March, 1944 she received several letters through the I.L.O. bag from Geneva signed "RACHEL". These letters, in a form of open code, gave her news concerning an Intelligence organization in "witterland and asked her to get in touch with representatives of the Intelligence Dept, and arrange for \$10,000 to be sent through proper cut-outs (ex. 44).

As soon as he heard this ZABOTIN established contact with KABINOWITCH through S.W. KOUDRIAVTENY (ex. 46) and effor having assured himself that the matter was genuine, made arrangements presumably through Moscow, to complete the financial transaction. RABINOWITCH went to New York where she received \$10,000 from Consul MICHAILOV. She then handed this money to the head of a Watch Company in New York who remitted it to Switzerland, presumably under the guise of a business transaction.

# O'ENERAL

Dr. BOYER was originally of Roman Catholic faith but he became embittered because of the separation of his father and mother and now entertains anti-clerical tendencies.

As a result of his marriage to a Jewess neither he nor his wife are looked upon with particular favour in the community in which they reside.

Dr. BOYER passed his pre-medical year and entered first year medicine at McOill but he was appearably disinterested, perhaps because of his excellent financial status, and was not successful in passing the course. Thereafter, by special arrangement of his Undia, Professor Johnston, he entered the faculty of Science and obtained honours in Chemistry, finally securing a Ph. D. Degree.

He then did post-Doctorate work at Harward, the University of Vienna and the Sorbonne in Paris.

Dr. BOYER first came to our attention in April, 1939 when he was elected to the Executive Committee of the Canadian Civil Liberties Union, many maphers of which were known Communists and fellow travellers.

BOYER resigned on May 15, 1941, but during the ensuing period he was very active and soted at various times in the capacity of President, Vice-President and Chairman. He strongly sup-ported the repeal of the War Measures Act.

Dr. BOYER was also commber of the Quebec Committee for Allied Victory, a Communist-front organization and he attended various meetings held by that organization.

Dr. BOYER was, in December 1941 a member of the Executive Committee of the Russian Medical Aid Committee and a member of the Spanish Children's Rulief Cumpaign Committee.

Dr. BOYER is National Chairman of the Canadian Association of Scientific Workers. It is interesting to note that this association has recently contended that the secret of the atomic bomb should be made public.

Shortly after the start of the war Dr. BOYER approached McGill University and offered to assist the war effort at his own expense. After completing a year's work with the Research Council on RDX and DDT, he was appointed a lecturer in Chemistry, a position he still holds.

BOYER is reported to be a member of the Labour Progressive

During March, 1945 the Dept. of National Defence included Dr. BOYER's name on a list of individuals who were then being considered for dutes of a confidential nature. The Department was advised of his Communist sympathies.

It is interesting to note that Volume 2, No. 15 of the Canadian adition of "Canadian Affairs", published by the Canadian Information-Service, an issue of approximately 19 pages, contained a 14-page article by Raymond BDYER under the title "Science in the Peace". It dealt with scientists being mobilized for the wer effort and that what could be done during the war would be done during the peace. It will be recalled that it. 0, Lunen, sover name "BACK" is on the editorial staff of this magazine.

# CORBY STATEMENT

CORBY explained that Professor DOYER was a Professor of Chemistry at McOill and a Specialist on BB (7). He has also done work on RDI.

Exhibit 50 - BOYER was one of the original agents under Fred ROSE in SOKOLOV's 1942-43 set-up. He provided information on chemical plans and explosives as well as HDX formula (ex. 50). CORBY states he is regarded as a valuable agent.

During the past three years BOYER has been in touch with FREDA (ex. 53) who may act as the contact between him and Fred ROSE.

CORBY also supplied information respecting one Arthur STEINBERG, cover name "BERGER" (ex. 61) who was to have been approached by Fred ROSE and enlist his services as an agent, either for the Communist Party or Soviet Intelligence, according to his reaction. It is interesting to note that Arthur STEINBERG formerly resided in Montreal where he was employed on the Faculty of McGill University from 1940-44. He was also a Director of the National Committee for Canadian Soviet Friendship, Quebec Division.

STEINBERG proceeded to the United States and on July 3, 1945 his wife telegraphed " of McGill that her husband had left for the Pacific on July 2nd. On the same date she sent enother wire to " that her husband would be

Lieut. G. LUNAN, using the cover name BACK, and working under the direction of Jan (ROGOV) (ex. 54-1) directed the Research Group (ex. 54-1). Later LUNAN put HOGOV directly in touch with DURNFORD-SMITH (BADEAU) when it was decided to run hiz as a direct agent (ex. 54-2) (56-1).

BACK was set to work in March, 1945 (ex. 34, 34-2). His task was two-fold -

- (i) To obtain all possible information on the National Research Council and its activities (ex. 34-1), and
- (ii) To direct a term of three sub-agents, MAGLEY, BADEAU and MACON, together with the field that each would cover (ex. 34-1).

LUNAN was on the Editorial Staff of "Canadian Affairs (ex. 34) which provided "n admirable cover for his work. BACK reported to a min known to him as JAN (ROGOV) (ex. 34-1).

Betreen March and July, 1945 LUNAN seems to have worked with enthusinsm but without much tangible results. He contacted JAN about once a month, at a different place each time and usually between 9 and 10 in the evening (ex. 34-2).

He also provided typewritten reports outlining his progress (ex. 34-3, 34-4, 57).

LUNAN provided information concerning the Canadian General Election (ex. 34-2).

Toward the beginning of the Summer of 1945 it was decided that LUNAN's value as a contact was small since he himself did not have direct access to any interesting information. He was left in charge of BAGLEY and possibly of BACON, but BADEAU was withdrawn from the Group (ex. 62).

LUNAN is known to have received about \$250. (ex. 34-2--see also ex. 34-7) plus \$90. to be divided between his sub-agents (ex. 34-2, see also ex. 34-7). 34-2, see also ex. 34-7).

Exhibit No. 57 - Undated -This consists of a handwritten report probably written by LUNAN and two pages of handwriting in Russian.

LUNAN's report covered BADEAU - agreeable but cautious. A scientific explenation of BADEAU's work enclosed, it also covered the organization of the National Research Council (to be assigned to BADEAU, ex. 54-1, BADEAU's report probably ex. 43).

BACON difficult to work with, especially after request for Ur 235 (refer ex. 34-7 for this assignment).

The handwriting in Russian continues LUNAN's report:

Bacon explained theory of atomic energy, will not supply photographic or biographical information. BACON states impossible to secure sample of Ur. 235.

BACON described principles of electronic shell and bomb detonator.

# DOCUMENTARY EVIDENCE (Cont'd.)

Exhibit No. 62 - Undated - 5 pages handwriting in Russian entitled "Results of the last meeting of BACK's Group (Research)". It contains practically the same information as that contained in exhibit 57 re BACON.

BADEAU wants to work and supply written information (ex. 43).

BAGLEY not yet contacted. This is followed by a contradictory statement, namely that BACK had suggested to BAGLEY that they meet and BAGLEY suggested meeting at his house, arrangements completed for meeting number 5-20 (May 20th) and 6-5 (June 5th).

A portion is struck out but it concerns DEBOISE talking to BACLEY and recommending that he and BACK get acquainted and then work for him.

BACK may not be used as the contact, he expects a baby at the end of June.

# CONCLUSIONS:

- BACK to draw BACON into work and take dictation.
- BADEAU's transfer not recommended, to continue in Research; discon-meet-from BACK's Group and arrange independent contacts.
- 3. BACK have one meeting at BACKLEY's apartment and agree upon future meetings.

Exhibit No. 36-1 - 5-7-45 ORANT's dossier on BADEAU covering same weeting as that contained on exhibit 34-2.

BADEAU's material concerned Radar locators to be photographed.

BADEAU given \$100. BADEAU to maintain connections with BACK and given special assignment (this would be ex. 36-2).

BADEAU described as cowardly.

Exhibit No. 34-5 - 5-7-45 - Organizational letter submitted by BACK on this date. He reported having a meeting with BACLEY who explained former reluctance and immediately promised his assistance. Given tasks. BACK expected material within ten days.

BACON, BICK met him with disappointing results. Given tasks but had nothing to offer. Seems unwilling. BACON spoke of a plant at Chalk River and uranium, but has no information. BACON wishes to return to teaching.

# CORBY STATEMENT

Isidore HALPERIN is 35 and married. In civil life he was a Professor of Mathematics et Queen's University, Kingston (ex. 34-2). He intended to go back to that work upon his discharge (ex. 34-4).

He was a Major in the Army (ex. 34-3 and 34-4) and was attached to the Directorate of Artillery where he had access to almost any information on ordnance matters.

In March, 1945 HALPERIN was set the task of supplying details respecting the organization, etc. of the Valcartier Explosives Establishment (ex. 34-1 and 34-3).

He wasalso requested to forward formula and samples of explosives (ex. 34-1).

On April 18th HALPERIN furnished information to LUNAN respecting the Canadian Army Research Division, Explosives (CARDE) (ex. 34-4). He stated that he had been personally responsible to a large extent for preliminary work in organizing this unit (ex. 34-4)

On July 7th he was asked about the Chalk River project and the electro-bomb (ex. 34-5, 57) He disclaimed knowledge of either and emphasized that his work was connected with field improvements on ordnance and not with research (ex. 34-5).

## STATEMENT

# CORBY STATEMENT (Cont'd.)

He also appears to have been shocked when asked whether it would be possible to obtain a sample of U. 255 (ex. 57).

HALPERIN also refused to provide either personal data or a photograph (ex. 57).

He was prepared to talk to LUNAN (ex. 62) but since LUNAN had no technical qualifications it is doubtful if his information was of much value.

He described to LUNAN the general principles of the electron shell and of the bomb detonator used (ex. 57).

LUNAN is known to have received about \$250, between March and August, plus \$90, to be divided between his three sub-agents (ex. 34-7).

Exhibit No. 34-1 - "Soheme of the Research Group". This concerned the complete organization of this Group under G. LUNAN (BACK).

BACON's first task was to give the organization and characteristics of Valcartier Explosive's Establishment's Direction and to write on the work it was doing. If possible to secure formulas of explosives and samples.

Exhibit No. 34-2 - 28-3-45 - Meeting with LUNAN. He \$190., \$30. for BACON. He was given

Exhibit No. 34-4 - 28-3-45 - Organizational letter concerning "Research Group" signed "Back".

He undertook to provide the information requested on Valcartier.

BACK did not mention formulas or samples as he did not think BACON was sufficiently impressed with the conspiratorial nature of the work, but he was "definitely keen". He arranged to see BACON on April

BACK identified BACON as a Mathematics Professor from Queen's University, Kingston, who was then a Major in the Army.

Exhibit No. 34-7 - ZABOTIN's record of organizational assignments for the "Research Group". It was evidently passed to BACK, possibly at the meeting on March 28th. BACON was then a Major in the Artillery.

BACON's report supplied details of the organization known as Canadian Army Reorganization known as Canadian Army Research Division, Explosives. He explained
that a pilot Explosives Plant would carry
out experimental work with new explosives.
RACON also supplied some information to
BACK on existing explosives plants and
capacities but as BACK thought this was
well-known he did not supply the information; adding that this could be produced
if desired.

BACON also reported on a Ballistics Laboratory and new explosives named "Dina" and "Albanite".

The report also supplied information respecting a Designs Branch and Field Trials Ring. BACON described the organization as a skeleton research centre which could be taken over by the British, if necessary.

Exhibit No. 34-6 - 8-6-45. Assignment No. 1 supplied to BACK:/

(1) Details on the electro-projector (Y-Bomb).

<u>Marginal note</u> - "He promised to obtain it for the next time".

(2) Details of new research work in connection with explosives and artillery.

Marginal note - Has no facts whatever.

Exhibit No. 34-5 - 5-7-45. Organizational letter from BACK. 5-7-45. Organizational letter from BACK. He reported having spent one whole evening with BACON, with disappointing results. The tasks were mentioned and on both he claimed he had nothing to offer. He suggested that the electro-bomb was common knowledge and was unwilling to take any risk in obtaining material.

> BACK reported that BACON had nothing to add to his previous report on explosive developments. He mentioned the Chalk River plant, and stated he was remote from information concerning it.

BACON wished to go back to teaching and BACK said he would continue to see him.

Handwritten report in English, possibly in BACK's handwriting. Exhibit No. 57 -

> BACON difficult to work with, especially after the request for Ur. 235. The report is continued in Russian on two additional sheets which show that BACON explained the theory of atomic energy. BACON refused to write anything or supply a photograph or information concerning himself.

BACON however explained the general principles of the electron-shell and bomb detonator. BACON advised it would be possible to obtain instructions for it.

Exhibit No. 62 -Handwritten report concerning the last meeting of the Research Group.

> It contains practically the same informa-tion as that contained in exhibit 57. It reveals however that BACON told of the production, in Canada and the United States, of special electric projectiles which can be accurately aimed by radio. Special in-structions existed but BACON did not consent to bring them.

BACK instructed to take dictation from BACON and make drawings by hand.

Assignment No. 2. BACK to report Exhibit No. 34-8 - 6-8-45. if BACON, after going to Queen's University, could maintain connections with the Artillery Committee.

> BACK to also report on possibilities BACON would have for working in Kingston.

> Two other items asked for details of Army Divisions returned from Overseas and number of troops in the Canadian Army in the post-war period.

9-8-45. Telegram DIRECTOR to GRANT asking for information concerning BB and powders, TN and NS, Nitrate and Nitro-Guanidine, detonators and capsules. The information that Mazerall had actually obtained the book mentioned was secured from an official of the National Research Council when enquiries were necessarily limited.

A re-check reveals that Mazerall did not have actual possession of the book, the entry in the N.R.C.Library records being made to show that he had ASKED for it. It was in the possession of another individual when he made his request.

#### CORBY STATEMENT

CORBY stated that Ned 4kAZERALL was one of three sub-agents under G. LUNAN (ex. 34-1) and that he worked for the National Research Council (ex. 36-6).

MAZERALL's first task was to obtain photographs, te data and models of developed radio sets (ex. 34-1).

CORBY could not recall if MAZERALL supplied any information but early in July LUNAN had not succeeded in obtaining a report though he claimed that MAZERALL was willing to co-operate.

NOTE: Exhibits 34-2 and 34-6 definitely show that BAGLEY did supply information, both oral and material, the latter GRANT described as "valuable" which, after being photographed, was returned.

Complete details follow hereunder.

Exhibit No. 34-2 - 28-3-45. ZABOTIN's record of meetings with LUNAN. Given \$190., \$30. for BAGLEY.

Exhibit No. 34-3 - 28-3-45. Organizational letter signed "BACK" addressed to "Dear Mother and Father".

BACK reported that BAGLEY was not known to him personally and that he lived far out of town and was dependent on train schedules.

BAGLEY not yet seen and BACK reports him as not being a regular or enthusiastic supporter for several months.

BACK figures that BAGLEY is naive politically and proposes to take things easy for a start.

BACK plans to develop his acquaintance and gain his  $\infty\,\text{nfidence.}$

> BAGLEY to be given assignment described as 4-19.

BACK to secure material from BAGLEY during longthy time.

BACK to ascertain if BACKEY can let him have documents for four or five hours to be photograp hed.

The last item concerns the payment of \$190., \$30. for BAGLEY.

EACK reported that it had been impossible for him to see BACLEY and introduce him to his assignment. assignment.

EACK plans to become better acquainted and obtain some idea of his readiness to work.

Undated. Report covering the results of the last meeting of "BACK's Group". Exhibit No. 62 -

> The item re BAGLEY states that contact had not been made.

BAGLEY lives far out of the City and his wife does not want him to go around at night.

The note that no contact had been made with BAGLEY is contradicted by an item to the effect that BACK has suggested a meeting but BAGLEY replied that he was working and will continue.

BAGLEY then suggested a meeting at his house.

BACK advised he will meet BAGLEY during the period 5-20 (May 20th) and 6-5 (June 5th).

NOTE:

Conclusion Drawn - that BACK should have one meeting, for contact, with BAGLEY at his home and that they then agree upon future meetings.

1. se Track )

This document also contains some words which were crossed out. These words show that BACK reported that BAGLKY knows nothing about his immediate work since DEBOISE talked with him and he talked to him, and generally he recommended to him for BACK to get acquainted and only after that for him to start working with him. This exhibit indicates that it was with him. This exhibit indicates that it was DEBOISE (ROSE) who approached BAGLEY and DEBOISE (ROSE) who approached BAGLEY and and then work for him and suggests that it was ROSE who recruited BAGLEY. By inference DEBOISE must have known that LUNAN was handling the "Research Group".

8-6-45. Assignment No. 1 for the "Research Group". An item concerning BAGLKY instructed BACK to establish a firmer contact and receive at least oral information. Exhibit No. 34-6 -

Marginal note: Was completed 5-7-45.

Exhibit No. 34-5 - 5-7-45. BACK's organization letter. He reported a very successful meeting with BAGLEY who agreed to participate to the best of his ability.

BAGLEY exp lained his early reluctance to meet BACK,

CONFIRMED -

BAGLEY interested in work and given a full quota of tasks, and he promised reports on his work and other aspects of the general work "at his place" (National Research Council).

BAGLEY promised to report in for the meeting of 5-7-45 but was unable to complete reports and needs another ten days. BACK will keep after him.

5-7-45. ZABOTIN's record of meetings with BACK at which BACK's report was evidently handed to "JAN". Exhibit No. 34-2 -

6-8-45. ZABOTIM's record of meetings with BACK. Meeting normal and BACK brought "valuable material on the radio from BAGLEY". Exhibit No. 34-2 -

6-8-45. Assignment No. 2. Item 4 instructs BACK to tell BAGLEY to prepare a list of Exhibit No. 34-8 literature used in connection with his work, their titles, etc. and supply a short summary of the subject.

SMITH - National Nessarch Library (3) RESULT OF CHECK OF N.R.C. LIBRARY	N.R.C. Library has no record of having issued these books to Maih; the following summarizes their records for information purposes.	Issued to Sgt. Anderwon H.C.A. attached to M.M.C. Field Stilled date not recorded, returned Apl. 5 - 45. If Smith wished to study this it would be in line with his work.	Issued to Er. Henderson, 1/e Misrowave Section, date not recorded, returned apl. 9 - 45. Me significance to this book, it is now obsolete.	latered to Mary, date not peoreded, returned July 27 - 45. If Smith saked for this, his request would not appear unusual but there would be no particular reason for him to see it insofar as his work is concerned.

### CORBY STATISHENT (Cont'd. )

His first essignment was to report on the work of the Mationa Research Council generally (ex. 54-1). This he did and in-cluded details of the Secret Committee within the Council (ex. 52)

He also reported quite fully on Research developments in connection with Micro-waves (ex. 62).

Toward the end of March, 1945 SMITH revealed to LUMAN that the most secret work was in connection with nuclear physics and that research was being corried out in Montreal and McMaster University (ex. 34-3).

There was some question as to whether he should apply for a position in the nuclear physics branch which was being set up at McCill University (ex. 57).

It was however decided that he should remain in Research (ex. 62).

About the middle of April, 1945 he reported that he was working on a special battleship radar device for use in the Pacific and was responsible for the design and construction of a pilot model (ex. 34-4).

Owing to the strategic importance of SMITH's position, it was decided in mid-Summer to get in touch with him directly (ex. 62) and accordingly L'INAN arranged a meeting between him and ROGOV on July 5th (ex. 54-2, 36-1).

AMATA 3xhibit No. 36 - GRANT Registration Card of Daruforth SMITH (BADEAU) residence 145 St. Marie (Hull) phone 3-3870.

Employed in Radio Division, Scientific Research Council, Ottawa.

33 years old, two children, worked in the Bell Telephone Co., Montreal.

Profession shown as Radio Engineer (this is incorrect, SMITH is an Electrical Engineer and this error accounts for Zabotia mixing up references to RadEAU and RAGLEY, as BAGLEY is a Hadio Engineer)

Shown as a member of the Labor Progressive Party. Described as "very sympathetic to us". "Has a great desire to work for us". Photograph attached.

GROUP

Exhibit No. 34-4 - 18-4-45. Organization letter from "B" (Back).

BACK reported that BADEAU had visited Toronte and was disturbed when he brought up the subject of payment. BACK figures that he felt it brought his work into a different and more conspiratorial focus.

BADEAU was to think it over and let him know.

BADEAU offered a printed report of the Research Council and described generally details of his work.

BADEAU in Radio Engineering, specializing in radar. Current work concerns developing an extremely sensitive detecting device for use by battleships in the Pacific. A pilot model then being designed and BADEAU was largely responsible for it.

BADEAU described as married, 2 children, 33 years old, former employee Bell Telephone Co., a graduate Electrical Engineer.

NOTE: This information is contained on Ex.

56, BADEAU's Registration Card, except
that his occupation is stated to be
Radio Angineer, and not Electrical
Engineer.

Exhibit No. 34-2 - ZABOTIN's record of meetings with BACK. It was arranged that MACK would bring BADRAU to the next meeting on 5-7-45.

Exhibit No. 34-6 - 8-6-45. Assignment No. 1 to BACK's Group. Four tasks for BADEAU:

No. 34-6 - 8-6-45. Assignment No. 1 to BACK's Group.

Four tasks for BADEAU:

(1) Information re American scroplene locator, rader, navigation periscope.

(2) Supply details on organization of Research Council, all leaders and what they do.

Karginel note - Partially completed.

(3) Get telephone directory of Research Council.

Not completed. Earginal note -

(4) Report on the work of Durnford SKITH, D.A. KEYS, and I.S. FOSTER, etc. "See material No. 1 through BACK"

NOTE: See ex. 57. See also Ex. 56 for BADEAU's report.

Marginal note - Completed 5-7-45.

Exhibit No. 57 - This is evidently material No. 1 referred to in ax. 34-6. It consists of one handwritten document in finglish and two in Russian. The English was apparently written by LUMM and he reports that RADEAU continues to be agreeable but is extressly cautious. He includes a scientific explanation of HADEAU's work, commenting that it was beyond his limited knowledge of the subject.

### DOCUMENTARY EVIDENCE (Cont'd.)

### Exhibit No. 57 (cont 'd)

BACK also includes a biography and photograph of BADRAU.

BACK reported that BADEAU was willing to apply for a position in a new nuclear physics set-up at McGill University, Montreal, for which work he was qualified. BADEAU reported it as being the highest secrecy. BACK encouraged him to apply but warned him to be extremely careful during a check-up period. He added that it would not be advisable for him to see BADEAU for several weeks after making application.

The handwritten notes in Russian do not appear to contain any reference to BADEAU.

Exhibit No. 62 -Undated. Zabotin's notes re last meeting with the "Back Group".

An item concerning BADEAU states that he wants to work and supply written information about research in the fields of radio technique optics, etc. This was "sent out by mail". It is possible that this material is Ex. 43.

RADEAU also supplied information respecting the organization of the National Research Council and the Committee of the Secret Council.

BADEAU wanted to know about securing a change of position in connection with uranium, he could enter either by invitation or suggestion.

Conclusions Not recommended that BADKAU should work in uranium but do broader work in the Research.

To be disconnected from BACK's Group and arrange for an independent contact.

Undated. Three pages of handwritten notes, including two small loose-leaf sheets. The notes appear to concern radio optics and are of a technical nature. These documents are apparently in SMITH's own handwriting. Exhibit No. 43 -

One of the small loose-leaf sheets contains details of the leading officials of the National Research Council.

Exhibit No. 34-2 - 5-7-45. ZABOTIN's record of meetings with BACK

BACK brought BADEAU to the meeting. BADEAU brought "valuable material". An agreement reached respecting further work.

Exhibit No. 36-1 - ZABOTIN's record of meetings with BADEAU. 5-1-85 entry of this date covers the first meeting with this agent.

BADRAU gave a good impression, was cautious and "a little cowardly".

BADEAU brought material on radio locators (radar) CONFIRMED - See CMITH - H PROVISIONS OF BY CSIS UNDER THE FINANCY AND TOR SENSE PRINT OF AND TOR SENSE PROPERTY OF AND TOR SENSE PROPERTY OF AND TOR SENSE PRINT OF AND TOR to be photographed.

DOCUMENTARY EVIDENCE (Cont'd.) Exhibit No. 34-2 - 18-8-45. ZABOTIN's record of meetings with BACK. It mentions a personal meeting with BADEAU and instructing him to bring designated material for photographing. 18-8-45. DIRECTOR telegram to GRANT, advising that he was incorrectly referring to BADEAU and BAGLEY and advised that BADEAU worked as Assistant to the Chief of the Scientific Research Council; asked for details of family name, pseudonym, profession and amployment. Echibit No. 30 sion and employment. for add. if o see next page ZABOTIN also asked why he did not send some of RADEAU's materials, which was the subject of a communication to Moscow of July 27th. Exhibit No. 36-1 - 25-8-45. ZABOTIN's record of meetings with
BADRAU who handed over a large quantity
of radio literature and various reports,
about 10 books. CONFIRMED - See SMITH - W.H.C. Library Shee BADEAU reported he was going on a two weeks' vacation. PADEAU given Assignment N.4 on radio material and other things (see ex. 36-5). Meeting to return radio material arranged (for 26-8-45). #### CORUY STATEMENT

OES AC CHEY reported that kajor MCGOY used the cover mase "JAN" (ex. 31-1) in handling G. LURAN and the Mesearch Group. Later on, LUNAN introduced him to Durnford CMITH (ex. 31-2, 36-1) when it was decided to run him as a direct agent (ex. 36-1,

COURT describes Durnford SMITH, under the cover name EADEAU, as being about 33 years old, married (ex. 36) and a graduate electrical Engineer (ex. 54-3, 54-4).

He secured his Jegree in Science at EcGill University in 1934 (ex. 56) and his Master's Degree in Physics at the same University in 1936 (ex. 56).

SKITH's dissertation in 1935 dealt with the Geiger-Kuller indicators which detect radio-activity. He had considerable practical experience in building these (ex. 56)

He then worked in the Research Department of the Bell Telephone Company in Montreal before securing employment in the National Research Council as an assistant in the Micro-wave Section (ex. 56, 36-6).

CARR came to Canada in 1924. In 1925 he acted as organizer of
the Young Communist League. In 1929 he proceeded to Moscow to
attend the Lenin Institute and returned to Canada in 1931.
Shortly after his return he was convioted, with Tim BUCK and
others, under Section 98 of the Criminal Code of Canada. In
1937 he took an active part in the National Training School
of the Communist Party of Canada.
In 1937 he visited Spain.
In 1938 he became Organizational Secretary of the Communist
Party of Canada. In 1938 he became Organizational Secretary of the Community Party of Canada.
In 1939-41 he contributed, while underground, numerous disloyal anti-war articles for publication in the Communist Press not only in Canada but in other countries.
He was detained under Regulation 21 of the D.O.C.R. in Toronto, Ontario when he surrendered on September 25, 1942, being conditionally released on October 6, 1942.

In August, 1943 he became a member of the National Committee of the Labour Progressive Party (Communist Party of Canada) and at the same time was appointed National Organizer.

In August 1945 he was re-elected a member of the National

CARR visited Montreal on April 19-20th, 1943 and occupied a room in the Mount Royal Hotel under the name of J.W. DAVIS, 145 Lorendale Street, Toronto.

On May 16-17, 1943 he again visited Montreal and registered at the LaSalle Hotel as J.W. DAWIS of 145 Lorendale Ave., Toronto.

# GENERAL (cont'd.)

On January 3, 1945 CARR wrote to Prime Minister King with respect to his naturalization and declared that, in order to block the issuance of his Naturalization Certificate, the R.C.M.P. had produced as disqualifying evidence the fact that he registered in a Montreal hotel under an assumed name. He contended that he did so to seek rest from the calls made upon a person in the Public Service. As a matter of fact CAR visited Montreal on both occasions to conduct general Communist activities, further he is neither in the Public Service nor did he seek rest during his visits.

### CORBY'S STATEMENT

In October 1942, CARR was contacted by Koudriavtzev (Leon-exhibit 51) and his co-operation was enlisted by SOKOLOV, who was then organizing an espionage network.

CARR was put at the head of the Toronto-Ottawa section (ex. 51)

He recruited J.S. BENNING (ex. 51) and Eric ADAMS (ex. 51).

He had under his more direct control POLLAND and SUREJEL (ex.51).

After the re-organization in May, 1943 Sam CARR seemed to have been used as a recruiting agent and for other specialized jobs (Ex. 28, 35-4, and 51).

Thus, it is CARR who was responsible for obtaining Canadian passports for Soviet agents and as recently as August 14th (Ex. 28) he was being pressed to obtain new papers for a man masquerading under the name of Ignacy WITCHAK, who was then in Los Angeles with an expired Canadian passport.

CARR claimed that he could bribe one of the employees in the Passport Department but that this would cost \$5,000.00. Moscow balked at this figure but were willing to spend \$3,000.00 to accomplish their purpose (Ex. 55-3).

WITCHAK's passport and four photographs of himself and his wife were handed to Sam CARR on August 1 (Ex. 35-1) and the following scheme was decided upon:

Original application form of the real WITCHAK, together with his photograph would be removed from the file in the Passport Office and replaced by another application form, dated 1937 signed by the false WITCHAK, duly accompanied by his photograph and that of his wife. Once this was accomplished, it would be safe to apply for a new passport in the regular manner.

Carr also suggested that it might be useful to burn half the passport, leaving only the number, but no decision on this was reached.

CARR insisted that he would not be able to bribe the official in the Passport Office for less than \$3,000.00.

CARR referred to him as "The Executor" and claimed he was so placed that he could do everything himself personally without depending upon others.

CARR hoped to settle the matter by the first half of September.

GRANT was instructed on August 14 (ex. 27) to send to his head-quarters a report on the "technical procedure of receiving and delivering passports" and a second report containing all the particulars "for our own purposes" together with an indication as to which one "of Frank's men" would be in charge of this type of operation.

CARR also runs agents in the early stages, i.e. when they are newly recruited (ex. 26) and before they are taken over by GRANT's own staff. D. SHUGAR in the Maval Service is a case in point.

Moscow instructed that contact should be maintained through CARR until SHUCAR's value was proved, after which he would be directly approached (ex. 28).

In June CARR was asked whether he could develop agents in all three branches of the Service under the Dept. of National Defence or in the General Staffs.

Moscow added "at the present time these fields are very interesting to us and we would like to have you extend your maximum efforts in that direction". (ex. 55-4).

Again on August 10th Moscow asked about the possibility of securing contacts within the General Staffs (ex. 55-6).

CARR was contacted by Koudriavtzev and by Motinov until 1945, when he was introduced to ROGOV (?) -- refer exhibit 55-5
"The Commander" -- ROGOV knew Sam in June 1944 recheck with CORBY.

The cut out used to establish contact is Dr. Henry HARRIS of Toronto (ex. 35-1, 35-3).

As previously stated CARR was contacted by KOUDRIAYTZEV in October, 1942 and his co-operation was enlisted by SOKOLOV.

SOKOLOV worked mainly through two agents, one of whom was Sam CARR, but ZABOTIN modified this set-up by establishing direct relations.

ZABOTIN was warned not to compromise himself and he used various members of his staff for this work including Major ROGOV who, using the cover hame BRENT, handled Sam CARR getting in touch with him through Dr. HARRIS.

MOTINOV was also used but ROGOV took over the contact on 7-5-45.

In October 1942 CARR was put in sharge of the Ottawa-Toronto Group which was apparently divided into two parts because CARR resided in Toronto. Under CARR's more direct control and working in Toronto were HOLLAND-name not known of the Intelligence Branch of the Air Force, and SUREJEL of Naval Service (ex. 51).

CORBY comments that these two men did not know they were working for the Soviet Intelligence as they believed they were acting only for the Communist Party.

In December, 1944 CARR was given an assignment for SHUGAR (ex. 55-2) respecting hydro accustic devices.

In June, 1945 CARR was asked how matters stood with SHUGAR (ex. 55-5) and replied that he was then working in the Naval staff but had been under observation and that special caution was required.

CARR recruited J.S. BENNING (FOSTER) for SOKOLOV's organization in 1942-43 (ex. 35-5).

#### CORBY'S STATEMENT (cont'd.)

In connection with the passport matter, on August 1st CARR was handed WITCHAK's passport and four photographs of himself and wife (ex. 35-1).

It was arranged that the original application form of the real WITCHAK, together with his photograph, would be removed from the file in the Passport Office and replaced by another application form, dated 1937, signed by the false WITCHAK and bearing his photograph and that of his wife. GARR mentioned burning half the passport but no decision was reached.

He insisted he would not be able to bribe the official in the Passport Office for less than \$3,000.00 and said he hoped to settle the matter by the first half of September (ex. 55-1).

Sam CARR recruited S/L Nightingale who knew him as "WALTER" (ex. 54).

POLLAND of the Air Force Intelligence worked for Sam GARR from January to April 1945. (4.r.)

SUREJEL also worked for Sam CARR from January to April, 1945. (Att) CORBY believes that Norman A. VKALL may have been in touch with CARR, afthe latter was instructed on June 15, 1945 to get in touch with him and find out what he wanted. (ex. 55-4)

In April, 1944 two Soviet diplomatic couriers arrived in the United States. One of these was mamed MILSKY, an Inspector General of the Intelligence Dept. of the Red Army whose brue was MILISTEIN. MILSKY conferred with Sam CARR at some length respecting passports, identity documents, etc. and means of obtaining them.

Among a list of code names for towns and countries CORBY reported that references to the "town of Sam" meant Toronto.

Status - Naturalized British subject, Certificate 61059A, 22-4-29, S.O.S. file 10845-28.

Police Record - None known.

# GENERAL

RCMP enquiry re subject's application for naturalization indicates that Dr. HARRIS arrived in Canada from New York via Niagara Falls in either November or December 1919 but S.C.S. file shows Port of Entry as Rouses Point, P.Q., per C.P.R., Commissioner of Immigration advised S.C.S. no record could be found of subject's entry into Canada.

He speaks English and Yiddish.

In December 1930 it was reported that Dr. HARRIS was a financial supporter of the Party. In 1931 he was a subscriber to "The Worker".

During his entire connections with the Communist Movement HARRIS has kept in the background.

During the course of a National Conference of the Dominion Communist Lebour Total Mar Committee held in Toronto between Jenuary 15-17, 1943 Sem CARR made several visits to the office of Dr. HARRIS.

Dr. HARRIS was a shareholder of the Everready Printing Co., Toronto, Communist Publishing House. On one occasion the shares originally held by Zelda Alper were transferred to him.

On September 1, 1939 Dr. HARRIS transferred his share to Dr. Arthur Lipman.

Dr. HARRIS did most of the optical work for Party members and allowed them a cut rate. The rank and file of the Communist Movement regarded Dr. HARRIS as a secret Party member.

There is every indication that Dr. HARRIS is one of the backers of the Jewish-Anglo magazine "To-day" which is edited by R.S. Gordon, a former writer for the "Canadian Tribune".

It has been difficult to secure information respecting the Communist connections of Dr. Harris aghe has always refrained from taking an open part in Communist activities.

### GENERAL

Between September 30, 1944 and August, 1945 we were in com-munication with the F.B.I. respecting one Arthur ADAMS, a Soviet agent who had come to their attention in connection with making certain contacts respecting an experimental project being handled by U.S. Army engineers at Oakridge, Tenn.

ADAMS had at one time resided in Canada and we were asked to supply all possible information respecting his general back-ground, etc.

During the course of the investigations conducted by the F.B.I. it was ascertained that on November 30, 1937, Henry HARRIS, Financial Secretary of the Court of Ahavas Achen, Independent Order of Foresters, a Jewish Court of which ADAMS was a member in 1938, had written a letter of introduction for ADAMS introducing him as a member of his Court who visited New York occasionally. HARRIS addressed the letter to one Herman Hartig of New York City. It is significant that as far back as 1937 HARRIS should have supplied an individual, who was later identified as a Soviet agent, with a letter of introduction.

# CORBY STATEMENT.

Major ROGOY, under the cover name BRENT, handles Sam CARR with whom he gets in touch through Dr. HARRIS of Toronto. ROGOY took over this contact from MCTINCY on 7-5-45 (ex. 35-1).

Sergei L. KOUDRIAVIZEV, under the cover name LEON, contacted Sam CARR between June end September 1944 through Dr. HARRIS (ex. 35-3).

In June, 1944 it was agreed that CARR would be contacted by KOUDRIAVTZEV through HARRIS (ex. 35-3). There is reason to believe that KOTINOV was handling HARRIS and CARR but he turned the contact over to ROGOV in May, 1945 (ex. 35-1).

It is clear that Dr. HARRIS is not an innocent cut-out, since he was present at many of the meetings and took part in the transactions concerning WITCZAK's passport (ex. 35-1, 35-3).

On June 15, 1945 ROGOV gave HARRIS \$100. (ex. 35-1).

# DOCUMENTARY EVIDENCE.

Mote: While there is no indication that Dr. HARRIS was personally present at all of the meetings mentioned here-under, details respecting the dates, etc. of meetings with Sam CARR have been quoted because it was through Dr. HARRIS that such meetings were arranged. The meetings actually attended by Dr. HARRIS are clearly shown.

It was arranged that future meetings and extra coalls would take place by LEON calling telephone contains the fol kidway 9555 of Dr. HARRIS, 279 College Street, Toronto and giving the password, following which LEON would go to the place arranged for the meeting. the meeting.

NOTE - It is obvious from this exhibit that Dr. HARRIS was approached prior to June 14, 1944 and that an agreement was reached with him respecting the password and notifying CARR of the times and places ISONESSED BY

Exhibit No. 35-3 - Small note concerning an urgent call of SAM through Dr. HARRIS, phone Midway 9553. In this case it is LAMONT (MOTINOV) who would phone the Dr. and give the password.

MOTE:- The only change this arrangement made wos for the call to Dr. HARRIS to be made by MOTINOY instead of LEON (KOUDRIAVTZEY).

Another change was that the time of meetings was one half nour later, 21.30 instead of 21 o'clock.

Exhibit No. 35-3 - 20.1.45. Contact missed, next meeting erranged for 15-6-45 in Ottawa.

Exhibit No. 35-3/ - 7-5-45. Meeting at which the Dr. was handed over from LAMONT (MOTINOV) to BRENT (ROGOV).

A item concerns the arranging of urgent cells for FRANK through Dr. HARRIS. BRENT would telephone MI. 9593 (9553) and give the password which would mean that the meeting would take place at 21 o'clock but if the Dr. made a certain reply the meeting would be held at the same time and place but on the following day.

This third change in the password simply meant that instead of HARRIS being called by LAMONT (MOTINOV) he would be called by BRENT (ROGOV). NOTE:-

It is quite evident from the three changes in the password that Dr. HARRIS was a highly trusted member of the organization as by this time, namely May 7, 1945, he had been personally called by LEON (KOUDRIAVIZEV), then LAMONT (MOTINOV) and BRENT(ROGOV).

15-6-45. Regular meeting in Ottawa. The Dr. reported no success with the passport. Reference made to a telegram of 16-6-45. FRANK paid \$200., the Doctor \$100. # Declaration of the "Named Doukhobors" of Canada

PROCLAIMED AND ACCEPTED AT THE SECOND CONVENTION OF THE AUTHORIZED DELEGATES, HELD AT VERIGIN, SASK., CANADA, FROM THE 20TH DAY OF JULY TO THE 7TH DAY OF AUGUST, 1934, A. D.

1. We, the "Named Doukhobors," have been, are and will be members of Christ's Church, confirmed by the Lord and Saviour Jesus Christ Himself and assembled by His Apostles.

are and will be members of Christ's Church, confirmed by the Lord and Saviour Jeaus Christ Himself aitd assembled by His Apostles.

2. The 'Named Doukhobors' essentially are of the Law of God, of the Faith of Jeaus. The Law of God is expounded in the ten commandments and the Faith is professed thus: We believe in and profess, Jeaus Christ the Son of God, who came in the flesh and was crucified. He is our sole Leader, Saviour and Hope. There is none and could not be any other name under the heavens through which man ought, to be saved. We have faith and hope through His name to attain the highest bleasings, and there is no higher blessing than—"Eternal life in unutterable joy." This is the Hope and Reward in Christ Jesus and the principal aim of the 'Named Doukhobors.' Following in the foot steps of our Divine Teacher we, the 'Named Doukhobors,' proclaim as did He: "We have come into this world not to transgress the Law of God but to fulfil it," and therefore all idolary and desecration we strongly renounce and acknowledge only the law and supreme authority of God. "Named Doukhobors," having acknowledged and submitted themselves to the law and authority of God thereby became liberated from the guardianship and power established by men because "One cannot serve two masters," and the "Named Doukhobors" cannot be slaves of men—having been redeemed by the preclous blood of Jeaus Christ. The "Named Doukhobors" are not slaves of corruption, but essentially are Sons of the Free Spirit of Jesus Christ, and declare "that we ought to submit more to God than to men." We triumphantly declare that we do not allow any force whatever of man over man and even more so the killing of man or of men by a man or men under, any circumstances, causes or arguments whatsoever. Every individual, group of individuals, parties or governments of men, and anyone whoever it may be proclaiming struggle against war and its non-allowance but at the same time agreeing and admitting the allowance for the killing of even one individual for the sake

and nothing but a "leaven of the Pharisces."

The life of one individual is of equal value to the lives of many individuals. The Commandment says: "Thou shalt not kill." Christ explains and warns: "No murderer has the Life Eternal abiding in him." War-mass murder, is an item complled: where the killing of one individual is allowed there inevitabley must be admitted the killing of many, which is war.

allowed there inevitabley must be admitted the killing of many, which is war.

3. The modern world—generation of man, has scattered and divided itself into countless numbers of groups—following the watchwords and programmes of the various political parties. Every political party strives against another not for the benefit and welfare of the people, but for dominance over them—with all the consequences as a "diabolical incitement."

The "Named Doukhobors" never recognized and do not recognize any political party. They never entered or will they ever enter into the ranks of any political party. They never gave nor will they ever give, their votes during election, thereby they are free from any responsibility before God or men for the act of any government established of men.

The "Named Doukhobors" essentially are above party politica. They not only gave their votes, but their bodies, blood and souls to the one and unreplacable guardian of the hearts and souls of men—the Lord and Saviour Jesus Christ, thereby attaining perfect freedom: egressing from the alavery of corruption into the glorious liberty of the children of God. We emphatically declare to all:

KNOW YE THE TRUTH AND THE TRUTH SHALL SET YOU PREE.

The "Named Doukhobors" accepted and are fulfilling the command of Jesus Christ; "Render unto Caesar the things that are Caesar's (meaning the governments of men), and unto God the things that are God's." Residing in whatever state or country in this world we triumphantly declare that, going under the banner of "Toil and Peaceful Lile," éverything demanded of us which is not contradictory to the Law of God and to the Faith of Jesus, we will accept, fulfill and execute, not through fear but by conscientious guidance.

TRAIL AD-HEWS

# Memorandum re Emma WOIKIN

Emma WOIKIN's parents are Named Doukhobours. When Rmma WOIKIN completed National Registration on August 20, 1940, the following details were entered by her to question No. 7, which

"Nationality or Country of Allegiance-British Subject (a) by birth?" - No - Named Doukhobour.

As she is a Named Doukhobour she no doubt accepts the Declaration of the "Named Doukhobours" which was proclaimed at Verigin, Sask. between July 29th and August 7th, 1934. This Declaration was reaffirmed as recently as 1944.

Prior to Emma WOIKIN's examination, it is suggested that the Declaration, a photostat copy of which is attached, should first be studied. In this regard, it will be observed that Named Doukhobours claim to be "of the Law of Cod and the Faith of Jesus" and it continues about Faith and Hope and Reward, etc. This is followed by declaring that "We have come into this world not to transgress the Law of Cod but to fulfill it and acknowledge only the supreme authority of God." Having made this acknowledgement the Named Doukhobours consider themselves liberated from the guardienship and power established by men. Another item declares that as the Named Doukhobours have no connections whatsoever with any political party, they are free from any responsibility before God or men for the act of any government established of men.

It ends by declaring that "everything demanded of us which is not contradictory to the Law of God and to the Faith of Jesus, we will accept, fulfill and execute, not through fear but by conscientious guidance".

It is not unlikely that Emma WOIKIN will declare her acceptance of the Declaration in question and may possibly admit having supplied information, justifying her actions by "conscientious my decree" NOES REACTOR ists of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the seco guidance".

# CORBY STATING

CORBY identified Emma WOIKIN as a Sipher Clark in the Dept. of External Affairs.

CORN identified Emma WURLINGS STAIPER OF THE CONTROL OF THE External Affairs.

He explained that she tried for some time to secure a transfer of the Canadian Embassy in Moscow (this is substantiated to a certain extent by the Departmental form of Mar. 20, 1944 when she expressed her willingness to serve in Russia). Her efforts were unsuccessful so she endeavoured to secure a transfer to the Commercial Attache's office in Moscow but same was refused.

She then approached the Soviet Embassy in Ottawa for a position and although she was turned down, it was intimated that she could help the Soviet Union in other ways. Uhe agreed to provide information but for some time, feering penetration, she was kept at arm's length. Later, however, due to the importance of the material she had provided, which had been called to the attention of Moscow and Stalin himself, she was accepted as an agent.

Itappears to have been her practice to reconstruct, in her apartment, in summery form, cables which she though might be of interest. COMMY submitted 4 of these summeries (see exhibits 38, 39, 40, and 41).

Finna WOIKIN also supplied other material, refer to exhibit 37 re 24 pieces of mail sent by GRANT to The DIRKOTOR.

# COMPY STATEMENT (Cont'd.)

CORBY declared that MOIKIN was recently instructed to get in close touch with L. Malenia, an employee in the Political Division of the Dept. of External Affairs: SOIKIN is understood to be acting as Malenia's housekeeper and helps him with his work and translations.

Malania is not known to have passed over any information but he may be an unconscious source, in any event he is not a direct agent. Malania's father is a leading official of the Federation of dussian Canadians.

Inspector Anthony reports it is alleged that Mme. Sokolov, wife of Major Sokolov, now Commercial Attache, contacted Kila? WOIKIN.

#### GENERAL (Cont'd.)

ď.

An item published on March 13, 1943 dealt with the Toronto district Trades and Labour Council supporting the A.T.E. in its fight to win Dr. SHUGAR's reinstatement.

An item published on February 5, 1944 referred to SHUGAR's dismissal in February, 1943 "for union activity" and subsequent reinstatement, adding that he had again been fired because "his qualifications were too high".

# CORBY STATEMENT

SHUGAR is one of Sam CARR's recruits and he ran him during the early stages before being taken over by GRANT's own staff (ex. 88).

In December, 1944 CARR was given an assignment for SHUGAR (ex. 35-2) asking for information on hydro-accustic stations, the location of plants, etc.

CORBY states that SHUGAR also gave valuable information on submerines and periscopes (ex. 28 mentioned some material received from PHOMETHEUS).

In June, 1945 CARR was asked how matters stood with SHUGAR (ex. 35-2). CARR replied that he was then working in the Naval Staff but had been under observation and that special caution was required (ex. 35-4, information obtained from CARR at meeting on 15-6-45 (ex. 35-1).

On August 2 GRANT informed Moscow that SHUGAR was in Florida (ex. 2) and that as soon as he returned to Toronto arrangements would be made to contact him directly instead of through CARR (ex. 2). GRANT suggested that BRENT (ROGOV) undertake the contact (ex. 2).

Moscow, however, had qualms and pointed out on August 14th (ex. 28) that they had little information on SHUGAR. They added that if he should prove valuable, direct contact should be established, mentioning that it was not desirable to entrust this to BRENT (ROGOV) but rather through CHESTER (GORSHKOV) (ex. 28).

# DOCUMENTARY EVIDENCE.

Exhibit No. 35-2 - Assignment No. 1 for Sam CARR, dated
16-12-45 (obvious error and should read
16-12-44) which listed 7 tasks respecting
Naval and Coastal hydro-acoustic stations
and apparatus. It was headed "Sam to
Shugar".

Exhibit No. 35-4 - Task No. 2 for FRANK (Sam CARR) of 15-6-45.

Paragraph 2 asked how the matter stood concerning the fulfilment of a former assignment for Lt. SHUGAR. It bears a marginal note which reads:-

"At the present time he is working Maritime Staff. He has consented to work for us but with special caution. He has been under observation.

Exhibit No. 35-1 - 15-6-45 - This concerns a meeting in Ottawa at which FRANK was mid \$200. It was evidently at this meeting that task No. 2 was handed to Sam CARR, and the marginal note clearly covers the information then supplied by CARR.

Telegram GRANT to The DIRECTOR, dated Exhibit No. 2 -Aug. 2, 1945. Exhibit No. 28 - Telegram DIRECTOR to GRANT, 10-8-45 (14-8-45)

This refers to a telegram of 19.7, advising that until information received from PROMETHEUS and until his possibilities in the NAVY were established, contact should be maintained through FRANK. If PROMETHEUS valuable, direct contact could then be established. Not desirable to entrust new contact to BRENT, better to have CHESTER make it.

The Director asked for the full name, position, etc. of PROMETHEUS in the Navy Dept.

It also referred to obtaining other persons from the said departmental services and asked that FRANK make a survey and submit his recommendations.

#### STATEMENT

#### CORBY STATISMENT

.

NIGHTINGALE was formerly a member of the Communist Party who was detached for secret work (ex. 54). He no longer does Party work of any kind, his sole contact with the Party being for control purposes only (ex. 54).

Before the war he was employed by the Bell Telephone Company (ez. 54). . .

NIGHTINGALS was apparently recruited by Sam CARR, whom he knew as WALTER (ex. 54).

In December, 1944 NICHTINGALE was introduced to Dr. Henry HARRIS (ex. 35-5).

On December 19, 1944 he was asked to supply information on the network of aerodromes on both coasts, as well as supplying coast maps (ex. 54).

On January 25, 1945 he told BRENT (ROGOV) that he was being demobilized and would return to his old job with the Bell Telephone Co. (ex. 54)

CORBY states that NIGHTINGALE supplied ROGOV with complete information on telephone tapping devices used in Canada and supplied R.C.A.F. coastal maps.

He was and still might be Editor of a publication entitled "Canada Digest".

After leaving the W.I.B. on May 12, 1945 Poland worked with the Department of External Affairs in connection with matters concerning prisoners of war--office, Room 309 New Post Office Building, phone 6879. The Psychological Warfare Committee, of which he is now Executive Secretary, is a Joint Committee under the direction of the Department of External Affairs.

# CORBY STATEMENT

It is not certain if this individual was ever actually introduced into ZABOTIN's organization.

An individual known as HOLLAND or POLLAND worked for Sam CARR from January to April, 1943 [ex. 61]. He was employed in the Intelligence Branch of the Air Force in Toronto but was later transferred to Ottawa.

He provided a plan or map of Instructional Schools, but apparently was not working at the time of the re-organization, the latter half of 1943 (ex. 51).

This individual has been tentatively identified as S/L F.W. POLAND, who was placed on a special assignment under the Camp Commandant, RCAF, Ottawa. CORBY later advised that POLAND was seconded from the RCAF to the Wartime Information Board and that he is now employed on the staff of "Canadian Affairs".

He lives in the same apartment as G. LUNAN (BACK) and works in

in handing over material to ZABOTIN.

The large quantity handed over by BENNING would indicate that meetings were frequently arranged.

Exhibit 35-3 concerns an item dated December 5, 1944 which shows that CARR asked for a meeting through FOSTER (BENNING). The circumstances of this should be obtained.

Ascertain if BENNING was connected in any way with, or a member of, a North American Committee of Co-ordination.

### CORBY STATEMENT.

CORBY stated that BENNING was recruited by Sam CARR for SOKOLOV's organization in 1942-43 (ex. 51). He then came under ZHEVENIOV of Tass (ex. 51, ex. 52).

BENNING has been employed by the Department of Munitions and Supply since the latter part of 1942 (ex. 51).

CORBY reports that BENNING supplies large amounts of information, including monthly reviews, production figures and copies of correspondence with companies.

A single bag, sent to Moscow on January 5, 1945, contained over 360 pages of information supplied by him (ex. 37).

## DOCUMENTARY EVIDENCE.

Exhibit No. 51 - October, 1942. This document concerns the Ottewa-Toronto Group under Sam CARR and reveals that in October, 1942 CARR proposed that FOSTER, an Assistant to the Superintendent of the Department of Distribution of War Production, Munitions and Supply "gave material about war material, guns and other kinds of supplies". It was also mentioned that he could gain other information with promotion and give better materials.

FOSTER was tied up or contacted with Martin (ZHEVENIOV).

Exhibit No. 52 - Undated. This concerns three individuals who did not "work for us directly but for SAM's organization". One of the individuals is MARTIN who evidently worked with ERNST (Eric ADAMS) and FOSTER (BENNING). Their main task was to supply information concerning the Army and look for new people.

Three reports were submitted concerning aviation, the Fleet and the Army.

Exhibit No. 35-3-5-12-44. ABOTIN notes concerning various meetings with Sam CARR. One item reads as follows:-

"5-12-44 Asked for meeting through FOSTER".

Exhibit No. 37 - 5-1-45. GRANT's Mail List.

This contains 70 items all of which FOSTER is shown as being the source. The total number of pages of material supplied by FOSTER amounts to 361. The number of the items on the list are quoted hereunder:-

Experience of the Cor. Prior to attending McGill and Harvard Adams attended Primary and High Schools at Granby, P.Q.

After graduating from Harvard he was employed as previously

On July 11, 1934 Passport No. 84048 was issued to ADAMS and his wife, same being returned during during June, 1940 bearing the

wife, same being returned during during June, 1940 bearing the following endorsement:

New York 1934, Germany September 1934,
Russia, during August or September 1934.
Following his return to Canada ADAMS wrote five articles under the caption "Russia To-day" which were published in the "Evening Post" of Montreal. Perusal of these articles reveal that ADAMS was much impressed by conditions in Russia.

On May 22, 1935 Colonel Sir Vernon Kell, London, England advised that Mrs. ADAMS had been in touch with the Communist Opposition Group in New York City and advised that she was interested in Communism but knew little about it. She was referred to the Montreal Branch. ## CORBY STATEMENT

CORBY reported that prior to the re-organization ZHEVENIOV of Tass acted as a contact between Sokolov and Eric ADAMS (ex. 52)

CORBY stated that Adams was originally recruited by Sam Carr for Sokolov's 1942-43 set-up (e1. 51 and 52). He then worked under the direct control of ZHEVENIOV (ex. 52)

Under ZABOTIN Adams continued to work under CARR (ex. 35-5) until December, 1944 when the contact was transferred, presumably to one of Grant's own men.

CORBY identified Adams as an employee of the Foreign Exchange Control Board in Ottawa and that he supplied detailed information on industry and future plans.

He also supplied reports of meetings of Boards of Scientists, Industrialists, etc. and the despatch of munitions to England. A single mail bag, forwarded to Moscow on January 5, 1945, (ex.37) contained 263 pages of information supplied by 101MS. Kiss WILLSHER is believed to have graduated from a London University, which might possibly be the London School of : 35,4°C

The Rt. Honourable Malcolm MacDoneld. British High Commissioner for Canada, described Miss WILLSHER as a nervous type who does not get much enjoyment out of life. The is not regarded as efficient and is not known to have shown any Communist tendencies whatsoever in or about her place of smployment.

The Rt. Honourable Malcolm MacDonald has asked that, in the event of Miss WILLSHER being approbended, he first be allowed to have a private interview with her, during the course of which he will explain that her actions have come to the attention or the Police, that she has violated her Oath of Office and the Official Secrets Act and he is prepared to give her an opportunity to make any explanation she may desire. Mrs. MacDonald considers that Miss WILLSHER will likely make a complete admission to him.

If this turns out to be the case, Mr. MacDonald will repeat, in the presence of Miss WILLSHER, to a member of this Force, what she reveals, following which she may be taken into custody for further interrogation.

Some time prior to 1930 the British High Commissioner in Ottawa wrote England concerning the engagement of a Grade E stenographer for secret work. His proposal was approved and Kay WILLSHER was engaged in England for a term of three years.

At the expiration of this period she was a Grade 1 stenographer and indicated a desire to remain in Canada but her services were not entirely satisfactory a Grade 2 stenographer being considered more efficient. It was desired to promote the latter and it was suggested to Miss WILLSHER that as she had completed her period of engagement she should return to England and that if she wished so to do, she could later return to Canada at her own expense when she would be given an opportunity to again work in the office as a local appointee.
